# **One.** Letter to Shareholders

2023 marked a milestone for WNC as it became the first network communications company in Taiwan to achieve annual revenue of over NT\$100 billion. Regardless of issues such as global inflation, interest rate hikes, the Russo-Ukrainian war, the Red Sea crisis, and climate change, WNC continues to innovate, develop its businesses and optimize operational management at a steady pace. Looking forward, we will continue to expand product lines, enhance product quality, boost productivity, and improve our overall competitiveness through optimization of product portfolios, promotion of value-added software, and AI empowerment.

### **Financial and Operational Results**

WNC's consolidated revenue in 2023 was NT\$110.787 billion, a record high with a YoY increase of 16.3%. Consolidated gross profit was NT\$13.594 billion with consolidated profit before tax of NT\$4.801 billion, representing YoY growth of 27.7%. Consolidated profit after tax was NT\$3.803 billion with an EPS of NT\$8.98.

### **Research and Development**

WNC's business is focused primarily on wireline, wireless, end user and edge infrastructure product lines. The company is involved in research and development projects both at home and abroad. For example, an open RAN solution has passed testing and verification by major domestic and overseas network service providers and is now being used in manufacturing, medical, education and entertainment applications. To build broadband network equipment that provides great security and low latency and enhances the user experience, WNC has developed an enterprise-level network security solution based on zero-trust architecture and launched its SmartQoS software that can optimize bandwidth allocation. Moreover, the company is committed to developing wireless sensing systems that help safeguard personal safety and health. These systems can be applied in areas such as home security, health monitoring, fall detection, and in-vehicle child presence detection. On the automotive front, WNC obtained Automotive SPICE CL2 certification from TUV NORD Taiwan and passed the TISAX AL2 assessment via the ENX portal. WNC was awarded the Hsinchu Science Park R&D Accomplishment Award in recognition of its R&D achievements and holds the most patents in the network communications industry in Taiwan for the ninth consecutive year.

## **Operations Management**

To be more resilient in its business operations, WNC has formulated strategic plans for overseas manufacturing while expanding the scope of its digital transformation. In 2023, a new factory and R&D center in the Tainan Science Park was inaugurated and the expansion of our Vietnam site also commenced. In consideration of geopolitical issues, WNC is now actively seeking manufacturing sites outside of Asia. We have also developed an intelligent digital collaboration platform to improve operational efficiency. We have introduced AI to assist us in developing software and hardware and to conduct business analysis and operations management. With regard to workforce management, we recently adopted a Global Career Framework, which details job duties and required skillsets for employees based on their job grades, to help provide employees with clear career paths and help them engage in career planning so they can grow alongside the company.

#### **Sustainable Development**

WNC received the highest score in the CMT sector in the S&P Global Corporate Sustainability Assessment and placed in the Top 1% category in S&P Global's Sustainability Yearbook 2024. It also won a platinum medal in the Corporate Sustainability Reports Award category as well as a social inclusion leadership award in the Corporate ESG Performance Award category from the Taiwan Institute for Sustainable Energy. In addition, WNC garnered a gold award for Best Technology Company in Taiwan and a silver award for Best Corporate ESG Strategy in Taiwan in Finance Asia's Best Managed Companies Poll 2023 and also won the Best for ESG in Taiwan award from Asiamoney. In terms of investor relations, WNC was honored with many awards from Institutional Investor magazine.

### **Future Outlook**

2024 will be a year full of change and uncertainty, but WNC will adhere to its core value of fundamentals advocacy and commit to maintaining steady growth and pursuing sustainability. Despite macroeconomic and geopolitical uncertainties, upgrades in internet speed, the Clean Network strategy, the advancement of AI technology, and the development of automotive markets still offer WNC considerable opportunities. WNC will continue to establish a resilient supply chain, enhance corporate governance, develop competitive products and services, and build mutual trust and partnerships with customers. WNC will strive to achieve stability amid change and seek growth amid stability thereby creating optimal profits and value for itself and shareholders.

I wish you all health and happiness.

Haydn Hsieh Chairman of Wistron NeWeb Corporation

### **Diversification and Independence of the Board**

1. Diversification of the Board:

In order to strengthen corporate governance and promote the sound development of the composition and structure of the board of directors, WNC has established, in Article 20 of the WNC Corporate Governance Best Practice Principles, and implemented, a diversification policy for the composition of the Board based on its own operations, operations type and development needs. Suitable directors are nominated and selected by evaluating the aspects of basic conditions and values (such as gender, age, etc.), professional background (such as law, accounting, industry, finance, marketing or technology), professional skills and industry experience. In order to achieve the goals of corporate governance, the overall capabilities of the board of directors should include operational judgment, accounting and financial analysis, business management, crisis handling, industry knowledge, international market outlook, leadership, and decision making.

The professional backgrounds of the current nine directors of the board of WNC cover the fields of business, technology, finance, accounting, law and marketing, and they have the industry knowledge, operational judgment ability, international market concepts, leadership decision making and other capabilities required by the company. They can provide professional opinions from different perspectives and aspects to improve the company's management performance and governance quality. In addition, the current board of directors includes three female independent directors (33%), and the company will continue to strive to maintain a ratio of at least one-third female directors in the future to achieve the goal of gender diversity on the board of directors.

Diversification analysis of the directors of the board:

### 2. Independence of the Board

The current board of directors of WNC consists of nine directors, including five non-independent directors (56%) and four independent directors (44%), two (22%) directors also serve as company executive officers. All independent directors meet the independence criteria and have not served more than three consecutive terms. In addition, none of the directors has a relationship within the spousal or second degree of kinship, which complies with the provisions of Paragraphs 3 and 4, Article 26-3, of the Securities and Exchange Act.

Dec. 31, 2023; Unit: Thousand NT\$

Note 1: CC H Huang was promoted to Associate Vice President on January 5, 2023. Note 2: Rick Hsieh was promoted to Associate Vice President on May 10, 2023, while Jack YC Liu resigned as Associate Vice President on the same day.

Note 3: Neil Peng and Hank Tseng were promoted to Associate Vice President on July 31, 2023, while Robin Wu resigned as Associate Vice President on the same day.

Note 4: The list for the distribution of employees' profit-sharing bonuses was not determined as of the completion date of the annual report. The table is an estimation based on the percentage used last year.

- (3) Analysis and Comparison of the Ratio of Total Remuneration Paid by WNC and by All Companies Included in the Consolidated Financial Statements for the Two Most Recent Fiscal Years to Directors, Supervisors, Presidents, Vice Presidents, etc. to Net Income of the Parent Company Only, and Analysis of the Remuneration Policy, Standards and Portfolios, Procedures for Determining Remuneration, and the Correlation with Business Performance and Future Risks:
  - A. Ratio of total remuneration paid by WNC and by all companies included in the consolidated financial statements for the two most recent fiscal years to directors, supervisors, presidents and vice presidents to net income of the parent company only:

|                                | Ratio of tota | al remuneration<br>company |             | of the parent |
|--------------------------------|---------------|----------------------------|-------------|---------------|
| Titles                         | 20            | 22                         | 20          | 23            |
|                                | WNC           | Consolidated               | WNC         | Consolidated  |
| Directors                      | 1.33          | 1.33                       | 1.41        | 1.41          |
| Presidents and Vice Presidents | 3.72          | 3.72                       | 3.25 (Note) | 3.25 (Note)   |

Note: The list for the distribution of employees' profit-sharing bonuses was not determined as of the completion date of the annual report. Employees' profit-sharing bonuses are excluded from the calculation for this column.

B. Payment policies for directors' and employees' profit-sharing bonuses are specified in Article 18 of WNC's Articles of Incorporation:

"If WNC shows an annual profit (the profit herein indicates the pretax profit without deducting the profit-sharing bonuses for employees and directors), the profit will be appropriated in accordance with the following. However, the amount to make up any accumulated losses shall be set aside:

- a. No less than 5% as employee profit-sharing bonuses; where such profit-sharing bonuses are distributed by shares or as cash, employees' of controlled companies, with qualifications set by the Board of Directors, can be included;
- b. No more than 1% as directors' profit-sharing bonuses in cash".
- C. WNC's remuneration for directors is determined with reference to the company's overall operating performance, potential management risks and development trends of the industry, and reasonable compensation is paid on the basis of directors' participation in and contribution to the company's operations. The relevant performance appraisals and remuneration rationale have been reviewed by the Remuneration Committee and the Board of Directors, and the remuneration scheme will be reviewed depending on the actual operating conditions and relevant laws in order to maintain a balance between the company's sustainable operation and risk management.
- D. WNC's remuneration for executive officers includes regular payments such as salaries, fixed bonuses, and other welfare and variable items such as performance-related bonuses, employees' profit-sharing bonuses (in cash and/or stock), stocks (RSA, treasury stocks, employee stock ownership trust), and stock options. Regular payments are determined based on the average levels within the industry to maintain WNC's competitiveness. Payment of variable items is determined based on WNC's profit performance and the performance of each employee. A higher ratio of variable items to annual remuneration indicates a better performance of WNC and each employee. Performance evaluations are conducted based on the achievement rate of annual operation goals, profit rate, growth rate, operation benefits, and future potential. The evaluation standards, goals, and weighting are specified at the beginning of each year based on the internal and external operating environment. Issuance of variable items shall be determined according to evaluation results and the current remuneration status of related industries and shall be assessed and approved by the Remuneration Committee before requesting the Board's approval before issuing the variable items.

| Independent Director | Lillian Chao                                    | 3                    | 1        | 75                               | Note 1  |
| Independent Director | Rosie Yu                                        | 4                    | 0        | 100                              | Note 1  |
| Independent Director | Neng-Pai Lin                                    | 2                    | 0        | 100                              | Note 2  |
| Independent Director | Michael Tsai                                    | 1                    | 1        | 50                               | Note 2  |

A total of six board meetings were held in 2023. The directors' attendance record is as follows.

Note 1: Lillian Chao and Rosie Yu were newly elected as independent directors at the shareholders' meeting on June 7, 2023, thus they are required to attend four times.

Note 2: Neng-Pai Lin and Michael Tsai resigned as independent directors upon the completion of their terms, thus they are required to attend two times.

#### Other items of note:

- 1. If one of the situations below occurs during a meeting, the Board of Directors should specify the date of the meeting, session, content of the motion, each independent director's opinion, and the Company's response to the independent directors' opinions:
  - (1) Items listed in Article 14-3 of the Securities and Exchange Act: Not applicable as WNC has already established an Audit Committee. Refer to the "Audit Committee Meeting Attendance Record" section in this report for relevant information.
  - (2) Except for the above, other resolutions that the independent director objected to or subjected to qualified opinion and recorded or declared in writing: None

2. If directors recuse themselves from voting on a motion due to a conflict of interest, the directors' names, content of the motion, reason for recusal and voting status should be specified:

| Meeting                                                | Name of<br>director         | Content of motion                                                                                                       | Recusal and voting status                                                                                                                                                                                                                                                                                                                                                                       |

| External<br>evaluation | Once every<br>three years | Oct. 1, 2022 to<br>Sept. 30, 2023 | Board of<br>Directors                                               | Commissioned an<br>independent,<br>professional<br>external agency,<br>Taiwan Corporate<br>Governance<br>Association, to<br>conduct a<br>performance<br>evaluation of the<br>Board of<br>Directors. | • The Taiwan Corporate Governance<br>Association evaluates the<br>performance of the BOD based on<br>eight aspects: (1) the composition<br>of the Board, (2) guidance provided<br>by the Board, (3) authorization<br>from the Board, (4) supervision by<br>the Board, (5) Board<br>communication skills, (6) internal<br>control and risk management, (7)<br>self-discipline of the Board, and (8)<br>other factors such as board<br>meetings and support systems. This<br>evaluation is conducted through<br>open-ended questionnaires and on-<br>site interviews, with evaluation<br>reports issued.                                                                                                                                                                                                           |

- 4. Evaluation of the goals and implementations of functional improvements made by the Board of Directors in the current and recent years:
  - (1) In 2023, WNC commissioned the Taiwan Corporate Governance Association to conduct an external performance evaluation of the Board of Directors, and the evaluation results were submitted to the Board of Directors on March 6, 2024.
  - (2) In order to comply with the development direction of corporate governance and enhance the functions of the Board of Directors, WNC established the Nominating Committee Charter and the Nominating Committee on November 1, 2023. The primary duties of the committee include selecting and assessing candidates for board members, executive officers, and members of committees under the Board of Directors, formulating and reviewing regulations relating to the establishment, duties and operations of committees under the Board of Directors, and formulating and implementing continuous learning plans for directors.
  - (3) Refer to the following parts in the "Corporate Governance" section of this report for relevant information:
    - a. Audit Committee Meeting Attendance Record,
    - b. Corporate Governance and Discrepancies between Actual Corporate Governance and the "Corporate Governance Best-Practice Principles for TWSE/TPEx Listed Companies" and the Reason for the Discrepancy,
    - c. Composition, Responsibilities, and Operations of the Remuneration Committee, and
    - d. Composition, Responsibilities, and Operations of the Nominating Committee

#### (2) Audit Committee Meeting Attendance Record

The WNC Audit Committee comprises all four independent directors as its committee members. The committee shall convene a meeting each quarter before the Board of Directors meets to review WNC internal control systems, the implementation of internal audits, and any significant financial operations to practically supervise enterprise operations and provide risk control. The committee will communicate with Certified Public Accountants.

A. Review items in 2023:

- Reviewing financial reports quarterly and annually
- Modifying the internal control system and assessing its effectiveness
- Establishing non-assurance services pre-approval policy
- Reviewing significant asset transactions and investment cases
- Reviewing the placement and issuance of equity-type securities
- Reviewing CPA appointments and remuneration
- Reviewing the 2024 annual audit plan
- Reviewing the list of personnel who received restricted stock awards and are not executive officers as well as the amount of stock they received.
- Changing WNC's Controller
- B. Audit Committee Members Attendance Status

| Title                | Name         | Attendance in person | By proxy | Attendance rate<br>in person (%) | Remarks |
|----------------------|--------------|----------------------|----------|----------------------------------|---------|
| Independent Director | Karen Hsin   | 5                    | 0        | 100                              |         |
| Independent Director | T. Y. Lay    | 5                    | 0        | 100                              |         |
| Independent Director | Lillian Chao | 2                    | 1        | 67                               |         |
| Independent Director | Rosie Yu     | 3                    | 0        | 100                              |         |
| Independent Director | Neng-Pai Lin | 2                    | 0        | 100                              |         |
| Independent Director | Michael Tsai | 1                    | 1        | 50                               |         |

Note 1: Lillian Chao and Rosie Yu were newly elected as independent directors and audit committee members at the shareholders' meeting on June 7, 2023, thus they are required to attend three times.

Note 2: Neng-Pai Lin and Michael Tsai resigned upon the completion of their terms, thus they are required to attend two times.

#### Other items of note:

- 1. The Audit Committee should specify the date of the Audit Committee meeting, session, content of the motion, items that independent directors objected to, subjected to qualified opinion, or presented key recommendations on, the decision of the Audit Committee, and the Company's response to the Audit Committee's opinion when one of the below situations occur during the meeting:
  - (1) Items listed in Article 14-5 of the Securities and Exchange Act:

| Audit<br>Committee<br>meeting                                                   | Content of motion                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Items that<br>independent<br>directors objected to,<br>subjected to qualified<br>opinion, or presented<br>key<br>recommendations on | Decision of the<br>Audit<br>Committee and<br>the Company's<br>response to the<br>Audit<br>Committee's<br>opinion |

(2) Except for the above, other resolutions that have not been ratified by the audit committee but have been approved by more than two thirds of the directors: None

2. If independent directors recuse themselves from voting on motions due to conflicts of interest, their names, content of motions, reasons for recusal and voting status should be specified: None

- 3. Descriptions of the communications between the independent directors, the internal auditors and the CPAs (which should include the material items, measures, and audit results of corporate finance and business operations):
  - (1) Communications between the independent directors and the internal auditors:

The independent directors received monthly audit reports. The internal auditors presented the findings of their audit reports, and communicated the status of follow-up implementation to members of the Audit Committee at their quarterly meetings.

Independent directors and internal auditors have communicated well. The main issues communicated in 2023 are presented as follows:

| Audit Committee<br>meeting                                                   | Summary of the main issues                                                                                                                                                                                                                                                                                                                                                                 |

Results: Communication matters between the independent directors and the internal auditors were reviewed or approved by the Audit Committee, with no objections from the independent directors.

(2) Communications between the independent directors and the CPAs:

The CPAs presented the findings of their quarterly review and audit results on corporate finances at the quarterly meetings of the Audit Committee. Under applicable laws and regulations, the independent auditors communicated with the Audit Committee immediately following any adjustments made as suggested at the meetings.

Independent directors and CPAs have communicated well. The main issues communicated in 2023 are presented as follows:

| Audit Committee<br>meeting                                                   | Summary of the main issues                                                                                                                                                                                                                                                                                                                                                                                                                        |

The evaluation period runs from January 1 to December 31 of any given year, and an evaluation report is presented to the Board before the end of the first quarter of the following year. In addition, WNC commissions an independent, professional external agency or a group composed of external experts/scholars at least once every three years to conduct a performance evaluation on the Board of Directors.</li> <li>In 2023, WNC commissioned the Taiwan Corporate Governance Association to conduct an external performance evaluation of the Board of Directors. In the evaluation, WNC received positive feedback on the composition of its Board of Directors on March 6, 2024. For details on the results of the performance evaluation, go to the WNC website (www.wnc.com.tw) then go to Investor Relations → Board of Directors.</li> <li>WNC completed the 2023 performance evaluation for the Board of Directors on Karch 6, 2024. In the evaluation, the Board of Directors obtained a score of 98.63. All of these scores exceeded standards, and the results were submitted to the Board of Directors obtained a score of 98.63. All of these scores exceeded standards, and the results were submitted to the Board of Directors on March 6, 2024 to serve as a reference for the Board of Directors obtained a score of 98.63. |                 |     |               | <ul> <li>(5) Implementation of customer relations policy: WNC maintains stable and close relationships with customers to obtain stable and reasonable profits.</li> <li>(6) WNC has purchased liability insurance for directors and other key employees.</li> <li>(7) When conducting succession planning and selecting succession candidates for board members, WNC takes into account future strategy development and operation plans, diversity requirements for member composition, and the background diversity and independence standards for board members, which include factors such as professional knowledge, technical know-how, experience, and gender. WNC organizes regular talent development meetings in accordance with its three to five year strategic and operational plans to assess its talent inventory, with the aim of establishing talent development strategies and talent selection/cultivation/retention plans for personnel (and their successors) in key positions. Reviews and discussions on talent development progression are also regularly conducted. To improve the skills of high-ranking managers, WNC works with specialists and academic experts from outside WNC and conducts industry benchmarking to enable its high-ranking managers to look at diverse/dynamic competition from strategic perspectives. In addition, WNC has implemented individual development plans (IDP) and on-boarding plans, established a learning platform (training provided by the platform includes designating people to lead important integrated projects, manage overseas branches, and participate in board meetings), provided one-on-one instruction, and organized high-level external training courses for high-ranking managers, with the goal of helping them develop high-level professional management and leaderships skills and assisting them in their new work responsibilities.</li> <li>(8) Intellectual property strategy and a risk management mechanism that ensures operational aboost the company's profitability, WNC's operational objectives are integrated with an inte</li></ul> |          |

- 9. Please describe the improvements made in response to the most recent corporate governance assessment results published by the Taiwan Stock Exchange and provide the priority items and measures for deficiencies that are not yet addressed. (1) WNC has conducted a corporate governance self-assessment for year 2023 based on the regulations of the Taiwan
- Stock Exchange. The results indicate that WNC's performance ranked among the top 6% to 20% of all companies.
- (2) In 2023, WNC commissioned the Taiwan Corporate Governance Association to conduct an external performance evaluation of the Board of Directors, and the evaluation results were submitted to the Board of Directors in the first quarter of 2024.
- (3) WNC established a Nominating Committee on November 1, 2023. The primary duties of the committee include selecting and assessing candidates for board members, executive officers, and members of committees under the Board of Directors, formulating and reviewing regulations relating to the establishment, duties and operation of

## Note 1: The management goals stated in WNC's diversification policy for its Board of Directors and the implementation status of these goals are listed in the table below:

| Goals                                                                                                                                   | Status of achievement |
|-----------------------------------------------------------------------------------------------------------------------------------------|-----------------------|
| The number of directors who concurrently serve as executive officers in WNC does not exceed one-third of the total number of directors. | Goal achieved         |
| At least one-third of board members are female.                                                                                         | Goal achieved         |
| Independent board members do not serve for more than three terms.                                                                       | Goal achieved         |
| There are board members with inter-disciplinary expertise.                                                                              | Goal achieved         |
| The number of independent board members exceeds the number stipulated by law.                                                           | Goal achieved         |

#### Note 2: Independence and competence of the CPA and KPMG's AQI

#### 1. Evaluation of independence

| No. | Evaluation items                                                                                                                                                                                               | Complied     |
|-----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------|
| 1   | The appointed accountants have served as the audit accountants to WNC for no more than seven years.                                                                                                            | ~            |
| 2   | The appointed accountants do not have direct or indirect pecuniary interest in WNC.                                                                                                                            | $\checkmark$ |
| 3   | The appointed accountants and WNC do not have any inappropriate stakeholder relationships.                                                                                                                     | $\checkmark$ |
| 4   | The accountants or the audit team members have not served as directors or executive officers, or held influential positions in audit cases at WNC in the past two years.                                       | $\checkmark$ |
| 5   | The appointed accountants do not permit others to practice under their name.                                                                                                                                   | ✓            |
| 6   | The appointed accountants and the audit team members do not hold shares in WNC.                                                                                                                                | ✓            |
| 7   | The appointed accountants have no debtor/lender relationships with WNC.                                                                                                                                        | ✓            |
| 8   | The appointed accountants have no relationships of collective investment or profit sharing with WNC.                                                                                                           | ✓            |
| 9   | The appointed accountants are not employed by WNC to perform routine work in exchange for a fixed salary or serve as directors.                                                                                | $\checkmark$ |
| 10  | The non-audit services provided by the appointed accountants have no direct influence on material items of audit cases.                                                                                        | $\checkmark$ |
| 11  | The appointed accountants are not spouses, lineal relatives, direct relatives by marriage, or collateral relatives within the second degree of kinship of any responsible person or managerial officer of WNC. | ~            |
| 12  | The appointed accountants have not received any business-related commissions.                                                                                                                                  | $\checkmark$ |

## 2. Evaluation of competence

| No. | Evaluation items                                                                                                                                                                                                                                                      | Complied     |  |  |  |  |  |
|-----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------|--|--|--|--|--|
| 1   | No violations of Article 6 or Article 14 of the Certified Public Accountant Act.                                                                                                                                                                                      |              |  |  |  |  |  |
| 2   | The accountants have no record of disciplinary infractions with the CPA Disciplinary Committee within the past two years.                                                                                                                                             | $\checkmark$ |  |  |  |  |  |
| 3   | The accounting firm has sufficient scale, resources and regional coverage to handle audit services for WNC.                                                                                                                                                           | ✓            |  |  |  |  |  |
| 4   | The accounting firm has proper quality control procedures. The aspects covered include the levels and main points of the inspection process, the means of handling audit issues and executing judgment, independent quality control inspections, and risk management. | ~            |  |  |  |  |  |
| 5   | The accounting firm timely informs the management of the company of any significant issues<br>and developments in risk management, corporate governance, financial accounting and related<br>risk controls.                                                           | ~            |  |  |  |  |  |

## 3. Audit Quality Indicators (AQI)

| Aspect          |                                                                             | Evaluation items                                                                                                                   | Complied     |  |

#### (4) Composition, Responsibilities, and Operations of the Remuneration Committee

WNC established a Remuneration Committee after resolution of the Board of Directors on October 26, 2011. The Committee is responsible for constructing and regularly reviewing the policies, systems, standards, and structure of performance evaluation and directors' and executive officers' remuneration. The Committee also regularly assesses and determines directors' and executive officers' remuneration. The directors' and executive officers' remuneration is linked with WNC's business performance and objectives to attract high-quality talent and enhance WNC's competitiveness.

| Committee member | Rosie Yu     | 3                    | 0        | 100                           | Note 1  |
| Committee member | Neng-Pai Lin | 2                    | 0        | 100                           | Note 2  |
| Committee member | Michael Tsai | 1                    | 1        | 50                            | Note 2  |

Note 1: Lillian Chao and Rosie Yu were elected new independent directors in the shareholders' meeting on June 7, 2023 and were appointed members of the Remuneration Committee. They are required to attend three meetings.

Note 2: Neng-Pai Lin and Michael Tsai stepped down after their terms expired, and were required to attend two meetings.

#### Other items of note:

- 1. If the Board of Directors declines to adopt or modifies a recommendation of the Remuneration Committee, it should specify the date of the meeting, session, content of the motion, resolution by the Board of Directors, and the Company's response to the Remuneration Committee's opinion (e.g., should the remuneration passed by the Board of Directors exceed the recommendation of the Remuneration Committee, the circumstances and cause for the difference shall be specified). Instances where the Board of Directors declined such a recommendation: None
- 2. Resolutions of the Remuneration Committee objected to by members or subject to a qualified opinion and recorded or declared in writing, the date of the meeting, session, content of the motion, all members' opinions and the response to members' opinion being specified: None

3. Discussion items and resolutions:

#### (5) Composition, Responsibilities, and Operations of the Nominating Committee

WNC established a Nominating Committee in November, 2023, comprising at least three directors appointed by the Board of Directors. Independent directors compose the majority of Nominating Committee members. The term of Committee members is the same as that of the board members selected to serve as Committee members. The Committee performs the following duties:

- A. Formulate and review the composition of directors and executive officers, the qualifications of candidates for directors and executive officers, and the succession plans for directors and executive officers.
- B. Select and assess candidates for board members and executive officers, evaluate the independence of the independent directors, and submit a list of recommended candidates to the board.
- C. Formulate and review regulations relating to the establishment, duties and operation of committees under the board of directors and review the qualifications and potential conflicts of interest of members in said committees.
- D. Formulate and implement continuing learning plans for directors.
- E. Other matters that need to be handled by the Committee as stated in board of director resolutions.
  - a. Attendance of Members at Nominating Committee Meetings
    - There are five members on the Nominating Committee.
    - The term of the current Nominating Committee runs from November 1, 2023 to June 6, 2026. A total of one Nominating Committee meeting was held in 2023. The attendance record of the Nominating Committee members is as follows:

| Title            | Name           | Professional<br>qualifications<br>and experience | Attendance<br>in person | By<br>proxy | Attendance<br>rate in<br>person (%) | Remarks |
|------------------|----------------|--------------------------------------------------|-------------------------|-------------|-------------------------------------|---------|
| Convener         | Haydn Hsieh    |                                                  | 1                       | 0           | 100                                 |         |

| 1.  | Has the company<br>established an exclusively<br>(or concurrently) dedicated<br>unit to be in charge of<br>corporate social<br>responsibility and<br>authorized high-ranking<br>managers to implement<br>action plans and report on<br>the progress of such plans to<br>the Board of Directors?                         | ~                     |    | WNC established a Sustainable Development Steering<br>Committee and Sustainable Development Committee to serve<br>as a cross-unit communications and collaboration platform to<br>enhance vertical and horizontal cooperation in the<br>implementation of ESG strategies. To enhance corporate<br>sustainable governance, WNC's Chief Sustainability Officer<br>provides quarterly reports to the Board of Directors on<br>communication results with stakeholders as well as plans and<br>implementation results of sustainable development work items.<br>For details, please refer to "Sustainable Governance Plans and<br>Implementation Results" in the introduction of WNC's 2023<br>Sustainability Report.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | None          |
| 2.  | Does the company conduct<br>risk assessments in<br>accordance with key<br>principles regarding<br>environmental, social, and<br>corporate governance issues<br>related to company<br>operations, and does the<br>company establish related<br>risk management policies or<br>strategies?                                | <ul> <li>✓</li> </ul> |    | Materiality assessment is the fundamental and most important<br>process for both risk identification and the quality of<br>sustainability reporting. WNC tasks all departments involved<br>in ESG work to identify activities related to the entire lifecycle<br>of the company's operations. Following the requirements of<br>the GRI General Standard for identifying materiality topics,<br>we consolidated the impact assessment results across the three<br>dimensions of economy, environment, and social and human<br>rights and surveyed key stakeholders to inquire about their<br>level of concern regarding each issue. Using the aspects<br>"degree of impact" and "level of concern", we reviewed the<br>significant issues for the year and established management<br>measures and goals for said issues.<br>For details, please refer to "Stakeholder Engagement" in the<br>introduction of WNC's 2023 Sustainability Report.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | None          |
| (1) | <ul> <li>3. Environmental Issues <ul> <li>(1) Does the company establish appropriate environmental management systems based on the characteristics of its industry?</li> </ul> </li> <li>(2) Does the company strive to improve the utilization efficiency of various resources and use renewable materials?</li> </ul> |                       |    | <ol> <li>WNC pays close attention to environmental protection and<br/>monitors related trends. In addition to complying with all<br/>local environmental protection laws and regulations, WNC<br/>also actively collaborates with customers to jointly<br/>implement environmental management systems and green<br/>product management systems with its suppliers. WNC's<br/>main production sites in Taiwan, China and Vietnam have all<br/>obtained ISO 14001, ISO 14064-1, ISO 50001 and IECQ<br/>QC 080000 certifications and regularly conduct internal<br/>audits and third-party verifications every year. WNC's S3<br/>site in the Southern Taiwan Science Park began operations in<br/>the second quarter of 2023 and is expected to obtain a<br/>number of management system certifications in 2024.<br/>For details, visit WNC's website (www.wnc.com.tw) and<br/>go to About WNC → Management System.</li> <li>WNC is continuing to strengthen measures for reducing<br/>environmental pollution, improve energy usage efficiency,<br/>and design and manufacture green products in accordance<br/>with its Sustainable Environment Policy and its ESH &amp;<br/>Energy Management Policy to minimize the impact of its<br/>operations on the environment and meet stakeholder<br/>requirements. We also collaborate with our suppliers to<br/>meet international environmental standards. Every effort is</li> </ol> |               |

#### 1-1 Greenhouse Gas Inventory and Assurance Status for the Most Recent Two Fiscal Years

#### 1-1-1 Greenhouse Gas Inventory Information

Describe the emission volume (tonnes CO<sub>2</sub>e), intensity (tonnes CO<sub>2</sub>e/million NTD), and data coverage of greenhouse gases in the most recent two fiscal years:

| Item/Year                                                     | 2022 (base year)                                                                                                                                                                                                                                                                                                    | 2023                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|---------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Scope 1 and Scope 2 GHG emissions (tonnes CO <sub>2</sub> e)  | 63,711.74                                                                                                                                                                                                                                                                                                           | Verification has been arranged, and we expect to obtain certification by                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| Emissions intensity<br>(tonnes CO <sub>2</sub> e/million NTD) | 0.67                                                                                                                                                                                                                                                                                                                | September 2024. Updates will be<br>made on WNC's website.<br>(https://csr.wnc.com.tw/en/)                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Data coverage scope                                           | Taiwan: WNC's headquarters,<br>the S1 manufacturing site, and<br>the S3 site<br>China: WNC (Kunshan)<br>Corporation, Wistron NeWeb<br>(Kunshan) Corporation,<br>WebCom Communication<br>(Kunshan) Corporation -<br>Kunshan Plant, and NeWeb<br>Service (Kunshan) Corporation<br>Vietnam: NEWEB VIETNAM<br>CO., LTD. | Taiwan: WNC's headquarters, the S1<br>manufacturing site, and the S3 site<br>China: WNC (Kunshan) Corporation,<br>Wistron NeWeb (Kunshan)<br>Corporation, WebCom<br>Communication (Kunshan)<br>Corporation - Kunshan Plant,<br>WebCom Communication (Kunshan)<br>Corporation - Nanjing Branch, and<br>NeWeb Service (Kunshan)<br>Corporation<br>Vietnam: NEWEB VIETNAM CO.,<br>LTD.<br>Other: WNC's subsidiaries in the US<br>and the UK. (WNC subsidiaries in<br>Germany and Japan adopt the work-<br>from-home model and thus are not<br>included). |

#### 1-1-2 Greenhouse Gas Assurance Information

Describe the status of assurance for the most recent two fiscal years as of the printing date of the annual report, including the scope of assurance, assurance institutions, assurance standards, and assurance opinion:

Verification has been arranged, and we expect to obtain certification by September 2024. Updates will be made on WNC's website. (https://csr.wnc.com.tw/en/)

#### 1-2 Greenhouse Gas Reduction Targets, Strategy, and Concrete Action Plan

Specify the greenhouse gas reduction base year and its data, the reduction targets, strategy and concrete action plan, and the status of achievement of the reduction targets:

- 1. GHG reduction goals base year: 2022
- 2. Scope 1 and Scope 2 GHG emissions (base year): 63,711.74 tonnes CO<sub>2</sub>e
- 3. Reduction targets and planning schedule:

| Short term (2023) | Medium term (2030) | Long term (2050)   |
|-------------------|--------------------|--------------------|
| -5.25%            | -42%               | Net-zero emissions |

4. GHG reduction goal achievement progress in 2023: achieved, with a decrease of 9.96% compared to the base year.

5. For details on strategies and response plans, refer to the "Implementation of Climate-Related Information" section in page 51 of this report.

#### (7) Ethical Corporate Management and Discrepancies Between Actual Ethical Corporate Management and the "Ethical Corporate Management Best-Practice Principles for TWSE/TPEx Listed Companies" and Reasons for the Discrepancies

| Evaluation item                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |     |    | Implementation status                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Discrepancies/ |

| (2) Does the company establish<br>a dedicated unit supervised<br>by the Board to be in charge<br>of corporate integrity which<br>reports regularly (at least<br>once a year) to the Board on<br>its policies regarding ethical<br>management, prevention of<br>unethical conduct, and<br>supervision on the<br>implementation of such<br>policies?                                                                                                                                                                                                                                                                                                                                           | ×   |    | <ul> <li>WNC requires that its major suppliers sign the RBA Code of Conduct and commit to complying with the relevant provisions of the Code.</li> <li>(2) WNC has established an Integrity Office in accordance with the "Procedures for Ethical Management and Guidelines for Conduct." The Integrity Office is responsible for implementing ethical management at WNC, and is also the unit in charge of amending, interpreting, and providing advisory consultation on the aforementioned Procedures and Guidelines as well as the recording and filing of related reports. The Integrity Office and the Audit Office shall monitor the implementation of the aforementioned Procedures and Guidelines and Guidelines and submit (at least once a year) reports to the Board of Directors on the implementation status. WNC's achievements in implementing ethical management in 2023 are as below:</li> <li>a. All employees have signed a commitment to WNC's code of ethics.</li> <li>b. 100% of employees have completed the WNC Ethics and Anti-Corruption Code of Conduct on-line training course.</li> <li>c. All employees who received the Commitment to Integrity Questionnaire for Employees with Specific Job Duties completed it.</li> <li>d. The 48 cases sent to the independent complaint mailbox, which cover topics such as honesty and integrity, workplace harassment, improper management, and infringement of rights, have been processed. The root cause for all cases were found and suitable response measures were implemented.</li> </ul>                                             |                |
| <ul> <li>(3) Does the company establish policies to prevent conflicts of interest and provide appropriate communication channels, and has the company enforced it?</li> <li>(4) Has the company established effective systems for both accounting and internal control to facilitate ethical corporate management, and do the internal auditors formulate related audit plans based on risk assessment results for unethical conduct, and audit the conformance of the prevention of unethical conduct, or are they audited by CPAs on a regular basis?</li> <li>(5) Does the company regularly hold internal and external educational trainings on ethical corporate management?</li> </ul> |     |    | <ul> <li>(3) An independent complaint mailbox<br/>(wnc.integrity@wnc.com.tw) has been established on the<br/>WNC website. In addition, WNC has formulated a<br/>Reporting and Handling Procedure to stipulate the<br/>process and form for reporting unlawful conduct.</li> <li>(4) Pursuant to legal requirements, WNC has established an<br/>Audit Office, which is independent of the company and is<br/>directly under the Board of Directors. Its business scope<br/>includes all the operations of WNC and its subsidiaries.<br/>Audits are performed in accordance with the audit plan<br/>which has been approved by the Board of Directors. The<br/>audit plan is formulated based on identified risks. The<br/>Audit Office performs project audits when necessary and<br/>provides management personnel with information<br/>regarding existing faults or potential risks in a timely<br/>manner. The Audit Office reports its auditing activities to<br/>the Audit Committee on a regular basis and attends board<br/>meetings to report to the Chairman and the Audit<br/>Committee when necessary.</li> <li>(5) WNC provides "WNC Supplier Training: WNC's<br/>Philosophies on Sustainability and RBA" e-learning<br/>courses to suppliers and offers counseling (training and<br/>field visits) to major suppliers. For employees, WNC<br/>administers a "WNC CSR &amp; RBA introduction" e-<br/>learning course to enable employees to understand<br/>WNC's sustainabile development and the WNC RBA<br/>Code of Conduct Manual.<br/>Since 2017, WNC has provided a "WNC Ethics and Anti-</li> </ul> |                |

Please search for these documents on WNC's website or on the MOPS website.

- (9) Other significant information that will provide a better understanding of the status of the company's implementation of corporate governance may also be disclosed: None.
- (10) Internal Control System Execution Status

A. Statement on Internal Control

Wistron NeWeb Corporation Statement on Internal Control

Date: March 6, 2024 Based on the findings of a self-assessment, Wistron NeWeb Corporation (WNC) states the following with regard to its internal control system during the year 2023:

- 1. WNC's Board of Directors and executive officers are responsible for establishing, implementing, and maintaining an adequate internal control system. Our internal controls are a process designed to provide reasonable assurance over the effectiveness and efficiency of our operations (including profitability, performance and safeguarding of assets), reliability, timeliness, transparency of reporting, and compliance with applicable rulings, laws and regulations.
- 2. An internal control system has inherent limitations. No matter how perfectly designed, an effective internal control system can provide only reasonable assurance of accomplishing its stated objectives. Moreover, the effectiveness of an internal control system may be subject to changes due to extenuating circumstances beyond our control. Nevertheless, our internal control system contains self-monitoring mechanisms, and WNC takes immediate remedial actions in response to any identified deficiencies.
- WNC evaluates the design and operating effectiveness of its internal control system based on the criteria provided in the Regulations Governing the Establishment of Internal Control Systems by Public Companies (herein below the Regulations). The criteria adopted by the Regulations identify five key components of managerial internal controls: (1) control environment, (2) risk assessment, (3) control activities, (4) information and communication, and (5) monitoring activities.
- 4. WNC has evaluated the design and operating effectiveness of its internal control system according to the aforesaid Regulations.
- 5. Based on the findings of this evaluation, WNC believes that, as of December 31, 2023, it has maintained, in all material respects, an effective internal control system (that includes the supervision and management of our subsidiaries), to provide reasonable assurance over our operational effectiveness and efficiency, reliability, timeliness, transparency of reporting, and compliance with applicable rulings, laws and regulations.
- 6. This Statement is an integral part of WNC's annual report and prospectus, and is publicly disclosed. Any falsehood, concealment, or other illegality in the content made public will give rise to legal liability under Articles 20, 32, 171, and 174 of the Securities and Exchange Act.
- 7. This Statement was approved by the Board of Directors in their meeting held on March 6, 2024. All nine attending directors (including those attending via proxy) have affirmed the content of this statement.

Wistron NeWeb Corporation Chairman: Haydn Hsieh President: Jeffrey Gau

B. If a CPA was retained to conduct a special audit of the internal control system, disclose the audit report: N/A.

(11) Legal penalties imposed by the competent authorities on WNC or its employees, and WNC's discipline of its employees for violation of internal control systems, major deficiencies and improvement measures in the most recent year and as of the publishing of this annual report: None

#### (12) Major Resolutions of Shareholders' Meeting and Board Meetings

A. Major resolutions of shareholders' meeting

WNC held its 2023 shareholders' meeting on June 7, 2023. The resolutions and implementation statuses are listed below:

| Important resolution                                                                                                                                                     | Implementation status                                                                                                                                                                                                                                                        |

| 2024 1 <sup>st</sup> board meeting<br>03/06/2024 | <ul> <li>Approved WNC's 2023 business report and financial statements.</li> <li>Approved the proposal for distribution of WNC's 2023 profits.</li> <li>Approved the proposal for the time, location, and matters to be discussed at the 2024 Annual Shareholders' Meeting.</li> </ul>                                                                                                              |

- (13) Major issues of record or written statements made by any director or supervisor dissenting from important resolutions passed by the Board of Directors: None
- (14) Resignation or dismissal of WNC key individuals, including the Chairman, President, and heads of accounting, finance, internal audit, corporate governance officer and R&D:

| Job title  | Name      | Date of assumption<br>of office | Date of<br>resignation/dismissal | Reason(s) for resignation/dismissal |
|------------|-----------|---------------------------------|----------------------------------|-------------------------------------|
| Controller | Jona Song | January 1, 2002                 | January 1, 2024                  | Position adjustment                 |

#### 5. Accounting Fees

(1) CPA Fee

Unit: Thousand NT\$

| Accounting<br>firm | Name of CPA |             | Audit period                  | Audit fee | Non-audit<br>fee (Note) | Total | Remarks |
|--------------------|-------------|-------------|-------------------------------|-----------|-------------------------|-------|---------|
| KPMG               | Grace Lu    | Emily Tseng | Jan. 1, 2023–Dec.<br>31, 2023 | 7,125     | 1,265                   | 8,390 |         |

Note: Services provided are primarily related to tax compliance audits, review of the convertible corporate bonds issuance, checklist on information regarding annual employee benefits and compensation, customs inspection service and capital audits.

- (2) In the event that the non-audit fees paid to the CPA, the accounting firms of the CPA and their affiliates account for one-fourth of the audited public funds and above, disclose the amount of the audit fees, non-audit fees, and the non-audit services: None
- (3) In the event of a change of accounting firms and the audit fees paid in the year when such change takes place are less than the audit fees of the previous year, disclose the amount of the audit fees before and after the change and the reasons: None
- (4) In the event that the audit fees decrease by 10% or more compared to the previous year, disclose the amount, proportion, and the reason for the reduction in the audit fees: None

#### 6. Change of CPA: None

7. The company's Chairman, President, or executive officers in charge of its finance and accounting operations who have assumed positions in the independent audit firm or its affiliates in the most recent year: None

- 8. Changes, Stock Trades and Stock Pledges, in Shareholdings by Directors, Supervisors, Executive Officers, and Shareholders with 10% Shareholdings or More in the Most Recent Year and as of the Date of the Publication of this Annual Report
  - (1) Changes in Shareholdings of Directors, Supervisors, Executive Officers, and Major Shareholders

|                                                                     |                                                                          | 20                                | )23                                          |                                   | 024<br>April 2)                              |

#### (7) Market Price, Net Worth, Earnings, and Dividends per Share During the Most Recent Two Years

Note 1: Dividends per Share will be finalized after ratification at the 2024 shareholders' meeting.

Note 2: Price / Earnings Ratio = Average Market Price / Earnings per Share

Note 3: Price / Dividend Ratio = Average Market Price / Cash Dividends per Share

Note 4: Cash Dividend Yield Rate = Cash Dividends per Share / Average Market Price

#### (8) Dividend Policy and Implementation Status

#### A. Dividend policy

If WNC shows a year-end earnings surplus, it firstly pays taxes in full, and then makes up any accumulated losses. Thereafter a 10% appropriation of the remaining amount shall be set aside towards the legal reserve, unless the amount in the legal reserve is already equal to or greater than the total paid-in capital. Thereafter an amount shall be set aside or reserved as a special reserve in accordance with related laws, regulations, or provisions of the competent authorities. Distribution of the remaining profit after setting aside the abovementioned amounts, together with the balance of the unappropriated retained earnings at the beginning of this period, shall be proposed, with no less than 10% as dividends to shareholders, by the Board of Directors and ratified at the shareholders' meeting.

In consideration that WNC is involved in a capital- and technologically-intensive industry and in consideration that WNC is expanding and to ensure its continued and steady growth, a long-term investment plan must be adopted. Therefore, WNC adopts a residual dividend policy as its dividend policy. The cash dividends shall not be less than 10% of the total dividends.

#### B. Proposed distribution of dividends

The proposal for the distribution of 2023 profits of cash dividends of NT\$6.0 per share, as listed in the table below, was passed at the meeting of the Board on March 6, 2024. The proposal will be implemented after ratification during the Shareholders' Meeting to be held on May 31, 2024.

|                                                                                                               | Unit: NT\$      |
|---------------------------------------------------------------------------------------------------------------|-----------------|

| Shareholder dividends and bonuses (Cash dividend: NT\$6.0 per share)                                          | (2,909,663,424) |
| Unappropriated retained earnings at the end of the period                                                     | 6,888,317,681   |

#### **Earnings Appropriation Statement for Year 2023**

C. Descriptions of any expected significant changes to dividend policies: None

## (9) The impact of stock dividends distribution proposed in this shareholders' meeting toward WNC's business performance and EPS: N/A

#### (10) Profit-Sharing Bonuses for Employees and Directors

A. Percentage and scope specified in the Articles of Incorporation:

If WNC shows an annual profit (the profit herein indicates the pretax profit without deducting the profit-sharing bonuses for employees and directors), the profit will be appropriated in accordance with the following. However, the amount to make up any accumulated losses shall be set aside:

- a. No less than 5% as profit-sharing bonuses for employees; where such bonuses are distributed by shares or as cash; employees of controlled companies, with qualifications set by the Board of Directors, can be included;
- b. No more than 1% as directors' profit-sharing bonuses in cash.
- B. The accounting treatment if there is a difference between the actual distribution and the estimated basis for calculating profit-sharing bonuses for employees and directors, and the shares as stock bonus for employees:

If the actual amounts subsequently paid differ from the above estimated amounts, the difference will be recorded in the year paid as a change in accounting estimate.

- C. Profit-sharing bonuses distribution approved by the Board of Directors
  - a. The profit-sharing bonuses for 2023 approved by the Board of Directors is NT\$583.259 million for employees and NT\$53.024 million for directors. There is no difference between the estimated expense and the proposed amounts approved by the Board of Directors.
  - b. Ratio of stock bonuses for employees to the net income of the parent-company-only financial statements:  $N\!/\!A$

D. The actual distribution of the employees' profit-sharing bonuses and directors' profit-sharing bonuses during the previous year (including the distributed shares, amount, and stock price): If there is a difference between the proposed amount, the difference, reason, and processing status shall be described.

| Proposed amount approved by the Board | Actual distribution<br>amount (Note)                      |

|                                          | 3. If WNC's overall performance indicators<br>fail to rank among the top 2/3 of<br>companies in the network<br>communications industry, it is<br>considered, in principle, that the vesting<br>conditions are not met. However, if the<br>employee who has been granted RSAs<br>has made important contributions to the<br>company and if the employee obtains an<br>A or above twice in their performance<br>assessment results in the same year,<br>WNC's remuneration committee may<br>propose a different number of vested<br>shares within the total number of RSAs<br>granted to the employee during the year.<br>Such a proposal shall be approved by the<br>Board of Directors before it can be<br>applied. In this case, WNC's overall<br>performance indicators will be excluded<br>as one of the vesting conditions. |                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | With the exception of inheriting stock<br>awards, employees receiving RSAs shall not<br>sell, pledge, transfer, gift to others, assign, or<br>otherwise dispose of their RSAs before<br>meeting the vesting conditions. Once<br>employees meet the vesting conditions, the<br>RSAs will be sent to employees' settlement<br>account via a trust account in accordance<br>with the stipulations in the security trust<br>agreement.                                  |

7. Status of New Share Issuance in Connection with Mergers and Acquisitions: None

#### 8. Financing Plans and Implementation

#### (1) Cash capital increase in 2023 through the issuance of new common shares for cash:

- A. Description of the plan
  - a. The total amount required for this project: NT\$4,240,000,000.
  - b. Source of funds: A total of 40,000,000 shares were issued. The par value of each share is NT\$10 with an issue price of NT\$106, raising a total of NT\$4,240,000,000.

c. The plan item and estimated progress of fund spending:

#### b. Increase in operational funds

The average interest rate of WNC's bank loans is 3.32%. Based on this rate, it is estimated that WNC is able to reduce its interest expenses by NT\$664,000 in 2023, and NT\$7,968,000 every year afterwards. This can reduce WNC's interest expenses and enhance its financial structure.

# **Five. Overview of Business Operations**

#### 1. Business Content

#### (1) Business Scope

A. Main business services

- CC01060 Wired Communication Mechanical Equipment Manufacturing
- CC01070 Wireless Communication Mechanical Equipment Manufacturing
- CC01100 Controlled Telecommunications Radio-Frequency Devices and Materials Manufacturing
- CC01080 Electronics Components Manufacturing
- F401010 International Trade
- CF01011 Medical Devices Manufacturing
- F108031 Wholesale of Medical Devices
- F208031 Retail Sale of Medical Apparatus
- CC01010 Manufacture of Power Generation, Transmission and Distribution Machinery
- I301010 Information Software Services
- I301020 Data Processing Services
- I301030 Electronic Information Supply Services

Research, development, manufacturing and sales of the following products:

- a. Satellite communications products
- b. Mobile and portable communications products
- c. Products, components, semi-finished products and peripherals of medical testing equipment, medical diagnostic equipment, smart mobile aids, medical consumables, and medical information transmission systems.
- d. Network communications products, hardware and software integration solutions, and applications of related technologies.

Import/export trade services for the above-mentioned products

B. Revenue distribution

Revenue Distribution of Products by Category

|                                  |      |             | (Unit: Thousand NT\$) |
|----------------------------------|------|-------------|-----------------------|
|                                  | Year | 2023        |                       |
| Category                         |      | Amount      | Percentage (%)        |
| Wireless communications products |      | 107,293,866 | 96.85                 |
| Others                           |      | 3,494,051   | 3.15                  |
| Total                            |      | 110,787,917 | 100.00                |

#### C. Current products

#### (2) Industry Overview

A. Industry development trends and current market conditions

WNC pays great attention to industry trends in wireless technology across a range of frequency bands, and has cultivated professional competencies in high-speed wireline networks and future communications technologies. Implementation of next-generation network frameworks will drive a new wave of market growth, as shown in the following sections:

In terms of government policies, the US government has formulated plans aiming at increasing the scope of broadband infrastructure deployment. For example, the Biden administration's Infrastructure Investment and Jobs Act (IIJA) includes US\$65 billion of funding for broadband access and US\$1.7 billion of funding channeled to native American tribal governments for broadband deployment on tribal lands, as well as another US\$1.5 billion grant from the Public Wireless Supply Chain Innovation Fund. Likewise, the EU rolled out Europe's Digital Decade in 2021, with the goal that all European households be covered by a Gigabit network by 2030. These programs are anticipated to facilitate the upgrade of broadband infrastructure and accelerate the popularity of high-speed broadband networks.

For wireless communications, telecommunications companies around the world are investing heavily in next-generation 5G networks due to their ultra low latency and low power consumption characteristics. In recent years, many telecom operators have launched 5G FWA broadband services for the purpose of exploiting 5G services and existing spectrums. As of October 2023, 152 operators around the world are providing 5G FWA services.

In line with the government's policies on promotion of 5G networks, WNC has recruited top 5G talent and participated in many 5G R&D projects at home and abroad. The company's 5G open RAN solutions have passed testing by Taiwan's National Development Council and the largest telecommunications company in Taiwan, facilitating the implementation of 5G open RAN for customers in manufacturing, healthcare, education and entertainment fields. In addition, many of WNC's 5G products have obtained international certifications for wireless products, passed OTIC interoperability tests and received TIP badges, with the rest to follow soon.

According to the timelines announced by 3GPP, 5G Release 18 is scheduled to freeze in the first half of 2024. In addition, 3GPP has defined Release 18 as 5G-Advanced. Applications of 5G-Advanced will be extended to include IoT markets, such as automotive communications, which require extremely low-latency connectivity and integration of sensors based on radar, camera, LiDAR, and other technologies. Connected devices need to process much more data in a shorter period of time than in the past, which highlights the importance of AI-assisted data screening. The edge computing capabilities of GPUs, TPUs, and other high-speed processing units, combined with deep learning algorithms, will expand network applications beyond those of specialized networks. AI algorithms will enable the full utilization of the transmission capabilities and bandwidth of next-generation networks, creating many new business opportunities.

The V2X market has been growing steadily due to continued advancements in IoT technology and the ongoing deployment of 5G networks. According to a report from Techno Systems Research (TSR), 43.2 million connected vehicles were sold in 2021, and this figure is expected to reach 71.6 million by 2027. In the future, Telematics Service Providers (TSPs) will bring about new IoV services, such as car control, parking space searching, real-time traffic monitoring and route planning, rental car sharing, voice-controlled in-vehicle infotainment systems, and better automotive safety and driving assistance systems. The maturation of voice-control devices will allow them to expand from the general consumer market to the automotive industry. In connected vehicles, voice control will allow drivers and passengers to have more intuitive control of automotive entertainment systems. Smart home services may also be integrated into such systems.

The automotive industry is currently undergoing a major change, shifting its focus to Mobility as a Service (MaaS). C.A.S.E. (Connected, Autonomous, Shared, and Electric) technologies are currently the four main trends in the automotive industry, and they are driving the digitization and electrification of automobiles. Due to the challenges brought about by climate change, at the 2021 United Nations Climate Change Conference (COP26), more than 30 governments and six major

automakers signed a declaration to work towards all sales of new cars and vans being zero emissions by 2040, or by no later than 2035 in leading markets. Automotive connectivity has been developing rapidly in recent years due to the development of V2X communications technologies, related solutions from upstream chip vendors, and the implementation of 5G C-V2X standards. This has led to V2X-integrated ADAS systems becoming standard in many cars on the U.S. automotive market, filling the gaps which standard sensors cannot fill and providing drivers with more safety information such as on upcoming traffic conditions. The V2X market is expected to grow significantly, and the V2X technology will benefit all road users and reduce the number of accidents. Sensor fusion and the integration of V2X with ADAS are key for cars to quickly achieve Level 4 autonomous driving. With regard to automotive technologies, WNC's automotive modules with value-added software have gained ground with some of our key customers. Our in-cabin 60 GHz radar, along with the 3D point cloud algorithm exclusively developed by WNC, can accurately detect vital signs of occupants inside a vehicle, reducing the likelihood of safety incidents. We have also obtained ISO/SAE 21434 certification, proof of WNC's information security capabilities for automotive devices.

According to estimates from IoT Analytics, overall enterprise IoT spending grew by 18.5% YoY in 2023 to US\$238 billion and their forecast for 2024 is for 20.6% growth. With the publication of the 3GPP Release 17 specification in June 2022, Reduced Capability (RedCap), the most important standard in 5G IoT, was functionally frozen as well. This new development has made mMTC services more likely to materialize and further paved the way for the commercialization of 5G. A new study from Juniper Research forecasts there will be over 360 million 5G IoT devices using public network by 2028. In the past, factors such as inconsistent hardware and software standards and a high level of customization has impeded the mass production of IoT products. Nevertheless, with the emergence of cloud services and edge computing services in recent years, the pace of standardizing specifications of IoT hardware and communications has quickened, helping boost market acceptance of IoT products.

The integration of AI and the IoT (AIoT) will lead to rapid growth for the IoT market and create new business services. The incorporation of AIoT in the Cloud, end devices, and the internet has led to the integration of voice control and visual identification in many consumer products in recent years, turning them into smart end devices. In the future, more and more home appliances and end devices are expected to become AIoT devices. AIoT will also reduce costs and enable more flexible production for the Industrial IoT, allowing it to better adapt to rapidly changing markets. Many service operators are actively promoting 5G private networks, and cloud service providers are also providing 5G private network services, which will lead to faster growth for the IoT in the vertical applications market. As more and more governments around the world place emphasis on environmental protection issues, enterprises are also incorporating ESG concepts into their business operations. Large enterprises are required by regulations to disclose related figures, such as pollution levels, GHG emissions, and use of resources (e.g., water use and energy consumption). All these data can be easily collected with the assistance of AIoT solutions, which is likely to bring new business opportunities to the IoT market.

Three major chip vendors launched Wi-Fi 7 chips in 2022. With faster connectivity and wider bandwidth, Wi-Fi 7 will further reduce latency and allow multiple devices to transmit and receive data simultaneously. Applications of Wi-Fi 7 will also be broader, including AR/VR, smart home devices, online gaming, and telemedicine services. After more Wi-Fi 7-capable products are introduced, companies producing connected products will become more inclined to upgrade their product lines, which will bring about another wave of business opportunities. WNC became the first company in Taiwan's network communications sector to unveil a sample Wi-Fi 7 EAP router in 2022, demonstrating our cutting-edge Wi-Fi software and hardware technologies. WNC has also launched a variety of Wi-Fi 7 solutions and products for operators, including routers, extenders, XGS-PON home gateways and 5G CPEs.

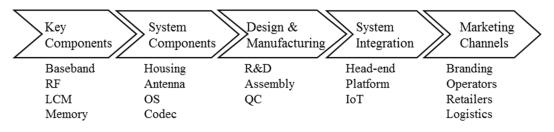

Ground communications are limited by topography. Currently, around 40% of the planet is still not covered by ground communication signals. However, low-earth orbit (LEO) satellite communications can make up for this limitation. The signals of LEO satellites can reach every corner of the planet. To create more business opportunities in the mobility field, vendors of LEO satellite ground equipment are not only aiming at fixed-line network users in rural areas, but are also targeting

Earth Stations in Motion (ESIMs), which means communications equipment on moving carriers such as large vehicles, vessels at sea, and airplanes. In the past, satellite communications was a small market because satellite communications were mainly based on proprietary technologies and required proprietary receiving terminals and satellite galaxies that cannot communicate among products from different companies. As a result, the market was unable to scale up. With ongoing collaboration between 3GPP and companies in the satellite industry for formulation of global standards, satellite communications were incorporated into 5G networks in 3GPP Rel-17, known as 5G Non-Terrestrial Networks (5G NTN). This will enable cell devices complying with the standards to connect to satellites seamlessly and reduce the needs of proprietary devices, thereby increasing the possibilities for growth in the satellite communications market. WNC has long been involved in the satellite industry and invests in the R&D of relevant technologies. With the expansion of the market and customer base, the sector provides considerable growth momentum for future development.

Geopolitical tensions and economic instability around the world persisted in 2023 due to spiraling inflation and tight monetary policies implemented by central banks. In addition, tensions between the US and China, geopolitical conflicts and fluctuating exchange rates also brought about challenges and the network communications sector was heavily impacted. In the face of these obstacles, WNC has worked closely with its customers and suppliers to reduce risks. Despite challenges ahead in 2024, WNC will continue to manage its operations more flexibly to ensure business competitiveness and monitor economic development in major economies while tapping into emerging markets to prepare for the future.

B. Industry value chain

The electronics industry is characterized by its long supply chain, numerous components, and complex cooperative-competitive partnerships. Coinciding with the integration of a variety of product categories and diversified operational strategies, members within the industry value chain have steadily increased. Recent trends demonstrate that antiquated boundaries between specialized divisions and within vertically integrated structures are becoming blurred as the complexity of products increases.

- C. Product development trends
  - a. Upgrades in wireless bandwidth

With the maturation of online streaming and extended reality (XR) technologies, there is growing demand for convenient, high-bandwidth wireless connectivity. This demand has led to the rapid growth of Wi-Fi 6/6E/7, mesh, 5G, and other high-bandwidth wireless communications technologies. 5G will be a key technology in the next decade, because it can bring about a world of ubiquitous real-time connectivity. According to a report, there were 8.5 billion mobile users and 15.7 billion IoT connections worldwide in 2023, and these numbers are expected to reach 9.2 billion and 38.9 billion respectively in 2029. Since different wireless communications technologies have different characteristics, more diverse antenna design capabilities, more precise manufacturing, and more flexible production resource allocation will be required. These capabilities will be the keys to success in the upcoming connectivity revolution.

#### b. Low Earth Orbit (LEO) satellites

The development of B5G/6G Non-Terrestrial Networks (NTN) by deploying space and highaltitude vehicles carrying communications payloads will help realize full network coverage for the planet. 85% of the Earth's surface currently does not have internet coverage, and numerous enterprises are now looking for a low-cost global connectivity solution as their need for IoT data increases. LEO satellites, which are not affected by geography or surface deployment restrictions, can provide internet connectivity to rural areas at a low cost, expanding coverage around the world. According to a 2022 report from Berg Insight, satellite IoT users are expected to grow from 3.9 million in 2021 to 21.2 million in 2026 for a CAGR of 40.3%. WNC's technical expertise in highfrequency and satellite communications will enable us to engage with satellite communications service operators in a number of ways.

#### c. Virtualization of network architecture

The disruptive technologies and developments mentioned above are all closely linked to the internet. Without the internet, it would have been difficult to develop technologies such as voice services, wireless broadband, and AI. Because many things depend on the internet, a lot of stress has been placed on network backbones around the world, and has brought people's attention to SDN/NFV and other network virtualization technologies. The implementation of virtualization technology has grown from massive data centers to include various network service platforms. Virtualization is seen as the solution that can meet the bandwidth demand in the B5G age. Using virtualization technology as a foundation enables more flexible data transformation using network slicing, allowing for a variety of new applications to be developed. Open network infrastructure along with universal hardware and virtualization will make networks more flexible and more compatible. It will also make them easier to organize, set up, and manage. The standardization of network equipment marks an expansion in scope and will pave the way for new supply chains and the establishment of an open and free internet.

#### d. Development of open-source software

Open-source organizations such as prpl Foundation and RDK are devoted to development of a universal service ecosystem for end-user devices of ISPs, including carrier-grade software frameworks such as prplWrt, OpenWrt, and RDK-B. Their purpose is to provide support for Wi-Fi routers and home gateway devices of ISPs. Through community projects and commercial software stacks, these organizations attempt to establish common standards of service ecosystems so that operators can have choices other than proprietary software and chipset solutions and will be able to introduce third-party applications at a faster pace and provide value-added services. As such, more and more carriers are paying attention to and starting to use open-source applications. WNC has the ability to deploy open-source platforms such as OpenWRT, prpIOS, and RDK and is capable of customizing them and applying them to all types of network devices. In addition, WNC has also participated in many activities held by these standard organizations to contribute to the industry.

#### D. Competitive environment

With the development of IoT, AI, big data, and new network applications such as metaverse, the demand for network products is rapidly increasing, related technologies are continuously being upgraded, and more and more peer manufacturers are flocking to new business opportunities. Nevertheless, compared to ordinary wired network products, wireless communications products possess higher technical requirements for wireless RF, antenna design, and network access verification. To fulfill an IoT project-type market that often requires diverse products requested in small quantities, within multi-element applications fields, and with high levels of customization, only manufacturers with deep experience in wireless product design and the capacity for efficient design, effective verification, and scalable mass production can occupy crucially advantageous positions in the new market.

To develop products and technologies, WNC has invested greatly in R&D talent and technological innovation with our expenditure on R&D growing healthily every year. It has also expanded its product portfolio to include wireless to wired, end user to infrastructure products while increasing its

software development capabilities. In addition, WNC has been working closely with partners from industry, government, and academic sectors to develop forward-thinking technologies while focusing on patent applications to secure an advantageous position with technologies in this highly competitive market.

The global industry value chain has been shifting rapidly after the pandemic and major countries are reshoring and nearshoring manufacturing due to geopolitical tensions, driving manufactures to implement global manufacturing strategies. WNC also expanded its manufacturing sites to shorten transportation distances for supply chain operations and enable faster product delivery. Effective management over short supply chains can enhance supply chain resilience and manufacturing quality, enabling WNC to provide more flexible and competitive services to customers in an ever-changing business landscape.

#### (3) Technology Research and Development

A. Research and development expenditures during the last fiscal year and the current fiscal year.

|                                       |           | Unit: Thousand NT\$        |
|---------------------------------------|-----------|----------------------------|
| Year                                  | 2023      | Jan. 1, 2024–Mar. 31, 2024 |
| Research and development expenditures | 4,006,750 | -                          |

#### B. Market share

From its establishment in 1996 WNC has continuously developed wireless technologies, accumulating much practical experience, and achieving the following milestones:

- a. Highest revenue of listed network communications manufacturers in Taiwan
- b. Largest worldwide supplier of satellite TV antennas
- c. Leading supplier of in-vehicle satellite radio and in-vehicle networking devices
- d. Major supplier of in-vehicle wireless modules, HF radar products, and smart meter communications solutions
- e. Preferred partner of key global chip suppliers for enterprise-level wireless communications products
- f. 30% market share of laptop built-in antennas (No. 1 globally)

In terms of mobile communications network and enterprise-level wireless devices WNC is secondto-none as a global supplier. In addition to long-term development of 3G and 4G technology the company was a pioneer in the development of 5G technology as well as being the first company to release enterprise-level Wi-Fi 6/6E products. These indicate that WNC's technological capability and product quality is recognized by customers from each industry. In the future, WNC will continue to serve its customers while following its core values.

C. Future market status and growth potential

Improvements in internet technology bring about new applications, which in turn lead to the development of various new technologies. Then, as the new technologies are commercialized, the internet requires further upgrades, forming a never-ending cycle of technological advancements. As we progress toward the goal of a completely wireless world, wireless technologies have developed from one-way control to two-way communications tools. In the future, wireless power/energy transfer will free human creativity from the constraints of power cables, leading to major advancements in product design. As a leader in broadband communications, WNC has always believed that broadband wireless technology development is a never-ending journey. Just as athletes always strive to become faster and stronger, companies are continually working to increase the transmission speed/distance and lower the power consumption of communications technologies. Through this process, we have learned how to overcome environmental, physical, and cost limitations to painstakingly craft our products. In today's overly saturated consumer electronics market, products need to become more refined to remain competitive. Service suppliers, brand companies, and system integrators are starting to emphasize ease-of-use, aesthetics, and low power consumption, because in today's world, electronics products not only need functionality, but also need to focus on various design aspects and find a balance within limitations. In the age of integration, the only companies that can survive are those who have mastered diverse technologies and have extensive experience in development. WNC has a solid foundation in wireless communications technologies, and our software development and system integration capabilities are core

competencies that our customers rely on. These unique traits and our know-how are the reasons that WNC is continuing to grow and thrive today.

- D. Competitive Advantages
  - a. Competitive advantages of WNC
    - Professional management team

The management team at WNC has accumulated many years of experience and management capability in the communications field enabling us to fully understand market changes. The management team leads all functional teams to create, practice, and continuously enhance our competitive advantages. The management team at WNC leads the company toward its customer satisfaction goals through a company culture of fundamentals advocacy, teamwork cohesion, customer focus, and value creation.

• Complete product and technology solutions

WNC applies its fundamental strengths in antenna and RF design capabilities. Those strengths are focused in the broadband, multimedia, and IoT domains and in the development of a full range of short-, medium-, and long-distance communications products. WNC has rich experience in microwave communications, digital wireless communications, antenna design, software engineering, and multimedia integration development. Through its outstanding research and development capabilities and in-depth cooperation with global industries, WNC not only provides multi-product solutions but is also able to provide complete technical services including product conception, design, verification, production, and logistics.

• Comprehensive quality management systems

WNC devotes itself to product and service quality and efficiency and has continually made improvements to its management systems. The management system certifications that WNC has obtained include: Quality-related certifications such as ISO 9001: 2015, IATF 16949: 2016, TL9000-H R5.5/M5.0, ANSI/ESD S20.20: 2014, ISO/IEC 17025: 2005, and ISO 13485 Medical devices - Quality management systems; green product certifications such as IECQ QC 080000, SONY Green Partner, and FSC<sup>TM</sup> Chain-of-Custody; ESH-related certifications such as ISO 14001: 2015, ISO 14064-1: 2006, OHSAS 18001: 2007, CNS 15506: 2011, and ISO 50001:2011; and information safety-related certifications such as ISO/IEC 27001: 2013 and AEO. WNC also continues to implement Six Sigma and Business Process Improvement (BPI) projects in order to provide the highest quality products and services to our customers. WNC established a complete customer advisory system and after-sales service to enhance customer satisfaction and maintain long-term partnerships.

• Lean cost control mechanism

Markets are continuously expanding, and WNC is able to preserve its advantage by maintaining competitive economies of scale. By its lean cost-control mechanism, WNC not only assures the company's steady profit-making capabilities but also continuously improves the company's total operational performance.

• Practical sustainability strategies

Boosting climate resilience and implementing sustainability actions are deemed WNC's key strategies. In addition to setting aggressive goals concerning carbon reduction and taking inventory of the power consumption of manufacturing equipment, WNC has also implemented measures to save energy and reduce carbon emissions and waste and formulated plans to increase renewable energy facilities and related procurements. Our new factories have obtained green building certification and we have enhanced training courses on green product design and related issues. Currently, we are drawing up plans and roadmaps to achieve carbon neutrality by 2050 and submitted an application to join RE100 in August 2003 to align with benchmark companies in the network communications industry in Taiwan and abroad. We have also announced a target of reaching 100% renewable energy by 2040. WNC has participated in the

SBTi and aims to reduce our Scope 1 and 2 GHG emissions by 42% before 2030 against a 2022 baseline, in step with the goal of carbon neutrality by 2050.

E. Future development factors and response strategies

| Туре                | Description                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |

| Favorable factors   | <ul> <li>Description</li> <li>5G and mmWave         The expansion of 5G networks is ongoing. With a need for high speed, low latency, and widespread deployment         every large operator has joined in the roll- out of commercial 5G networks. The deployment of open 5G         networks has driven the upgrade of basic network infrastructure. This next-generation virtualized infrastructure         uses universal interfaces to connect high speed/high bandwidth RF and processing units, in turn bringing about         increased business opportunities for network communications companies. Apart from its investment in 5G         technologies, WNC is also an active member of the O-RAN Alliance, contributing with its extensive knowledge         of mmWave technology. This has enabled WNC to conduct R&amp;D of 5G mmWave head-end and user-end         products from an advantageous forward position. WNC's product lines now include head-end infrastructure         products such as switches and Open RAN devices; edge infrastructure products such as private MEC devices,         RSUs, signal boosters, automotive cameras, 5G/4G modules, and CPU modules; user-end products such as 5G,         Wi-Fi, PON, LEO satellite user-end equipment and webcams; and IoT sensors, modules, and devices for IoT         applications. Of these products, IoT sensors, modules, and devices play key roles in 5G private networks.     </li> <li>AIOT and integrated networks         <ul> <li>Smart products have existed in the consumer market for some time, but in recent years, advancements in AI have         boosted the value of such products. Increasingly advanced algorithms and deep learning made possible by big         data analysis have helped smart products adapt to different usage scenarios. However, with convenience comes         new issues. Increased bandwidth loading, increased network latency, and security concerns are all issues that         need to be quickly addressed. Besides wireless network products, WNC has also ship</li></ul></li></ul> |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |
|                     | Description         Response measures                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |
|                     | • Slow economic growth<br>According to the evaluation report of the World Bank,<br>global economic growth is projected to drop to 2.4%<br>in 2024 from 2.6% in 2023 and 3% in 2022, a<br>slowdown for the third consecutive year. In addition,<br>rising geopolitical tensions are likely to bring in new<br>challenges in the near future, further exacerbating the<br>flagging global economic growth and inflation. This<br>will cause most economies to face even more stagnant<br>economic growth in 2024 and 2025.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | In the face of geopolitical risks and ever-changing<br>customer requirements, WNC has continued to expand<br>its global manufacturing capabilities to improve its<br>response time to changing demands and enhance its<br>operational resilience.                                                                                                                                                                                                                                                                                                                                                                                                       |  |  |  |
| Unfavorable factors | <ul> <li>Increased operational costs         Rising labor costs due to new regulations and the         increasing cost of materials and shipping have placed         great pressure on the entire manufacturing industry.         Global political risks and uncertainties still exist,         which may have a direct or indirect influence on the         operations and profit-earning ability of the company.     </li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | In addition to continuing optimization of its global<br>production capacity allocation to support future business<br>growth, WNC will also look to reduce its labor costs and<br>utilize flexible marketing strategies with rapid product<br>integration development capability to match the right<br>product to the right niche market while responding to<br>market demand. The above measures allow WNC to<br>pursue maximum profits, expand the scope of operations,<br>and lower manufacturing costs. Meanwhile, as operators<br>seek to reduce costs and switch from branded to<br>unbranded equipment, many new opportunities abound<br>for WNC. |  |  |  |
|                     | • Influence of exchange rates on company profits<br>Since WNC is mainly focused on export sales of<br>products, changes in exchange rates can affect the<br>profitability of the company.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | Our finance units must focus on exchange rates<br>fluctuations and the demand for capital at all times and<br>take all necessary measures to mitigate risks.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  |  |  |

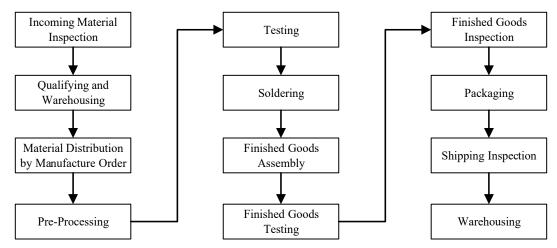

## (2) Primary Applications of Major Products and Production Processes

### A. Primary Applications

| Туре                                                    | Functions and features of products                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Main applications                                                                                                                                                                                                                                   |

#### **B.** Production Process

#### (3) Supply/Demand Status of Major Raw Materials and Components

The primary raw materials and components of WNC comprise items such as integrated circuits, storage devices, LCDs, filters, modules, chipsets, connection cables and connectors, mechanical components, dish antennas, and PCBs. WNC maintains business relations with two or more suppliers for each type of raw material or component, and, once vendors are qualified, maintains stable and favorable relationships with them.

In addition to fully controlling material supply status, WNC conducts strategic material purchases, adjusts incoming material schedules and implements second sources for materials/parts when needed. To meet customer requirements and conduct production resource planning, WNC has strict requirements regarding the source of materials, quality, and delivery.

Note: CPAs have yet to review financial figures for the first quarter of 2024.

Reason for increase/decrease in figures: WNC's business requirements

#### (5) Production Value During the Most Recent Two Years

#### Unit: Thousand Set; Thousand NT\$

| Year                             |          | 2022     |            | 2023     |          |             |
|----------------------------------|----------|----------|------------|----------|----------|-------------|
| Production<br>Major product      | Capacity | Quantity | Value      | Capacity | Quantity | Value       |
| Wireless communications products | 345,000  | 335,323  | 97,431,580 | 298,000  | 291,370  | 114,512,161 |

Note: WNC's major products are wireless communications products. The changes in capacity and quantity were primarily caused by changes in the product portfolio and the expansion of production sites/lines.

#### 4. Environmental Protection Measures

In our technology-intensive industry, WNC's main manufacturing processes cover the fields of SMT, precision assembly, product testing, and technical development. These processes produce less pollution compared to other industries. In managing waste materials, WNC has entrusted qualified suppliers that are recognized by the Environmental Protection Administration (EPA) to conduct waste clearance and processing, and to file declarations electronically in accordance with the relevant legal stipulations. In addition, we have made arrangements for our suppliers to conduct on-site audits at fixed intervals to ensure the process flows and the suppliers' processing methods are in compliance with relevant regulations. For new or changed processes, related pollution prevention facilities will be promptly built to prevent pollution-related issues from arising and ensure regulatory compliance.

WNC has been certified based on the ISO 14001 environmental management system since 2005, and conducts systematic management to ensure full implementation of operational policies and continuous improvement. WNC passed ISO 14001: 2015 certification and received a renewed certificate in November 2017. To ensure the smooth operation of management systems, WNC entrusts a certification body to conduct onsite audits at its factories on an annual basis. All sites around the globe have passed third-party audits for management systems as of November, 2023. Taiwan sites have completed their annual certification renewal and extended the validity period of certificates, while other sites have completed their annual verification and the certificates remain valid.

Following the introduction of the ISO50001 energy management system in 2017, WNC developed an energy management platform in 2018. Energy baselines are established through data collection and modular computing, which enables real-time monitoring of energy use. The system automatically distributes energy and resource usage reports, assisting monitoring and management by the responsible units so that abnormalities can be detected at an early stage. Focus is placed on high-power consumption units and equipment, enabling management to reduce consumption and waste and to achieve energy conservation, carbon reduction, and to reduce impact on the environment. Efforts to implement carbon reduction measures in factories continued. In 2023, WNC accelerated its phasing out of aged equipment and the deploying of equipment that consumes less power. All WNC's sites around the globe passed the annual ISO 50001 audits in 2023 and energy consumption at each site remains under close monitoring to ensure reasonable use of energy resources.

To accurately track the company's greenhouse gas (GHG) emissions in real time, WNC introduced an ISO 14064 GHG emissions inventory system to all its manufacturing sites and was recertified for ISO 14064: 2018 in 2020. In addition to identifying sources of carbon emissions and calculating the CO2 equivalents at all sites, WNC has pinpointed significant sources of GHG emissions. In 2023, WNC also included other indirect emission sources in the inventory process, including emissions created due to business trips, waste disposal, and transportation of materials and products. In addition, to comply with the government's carbon reduction policies and meet customer expectations, all manufacturing sites have passed annual audits for ISO 14064 as of March, 2023. In response to the launch of the Sustainable Development Roadmap of the Financial Supervisory Commission (FSC), starting 2023 WNC has included its overseas subsidiaries in the scope of the global GHG inventory plan, with verification scheduled for 2024. Additionally, to better understand and analyze the organization's carbon footprint, carbon management platform selection was restarted in 2023. A system platform will be used to manage carbon emissions from all sites and offices. Scope 3 carbon emission records will be included to serve as a basis for subsequent carbon reduction strategies and for the implementation of the Science Based Targets initiative (SBTi).

To meet corporate social responsibilities and realize environmental sustainability, WNC established shortand mid-term ESG goals in 2022 in addition to carbon and waste reduction measures such as phasing out equipment that consumes too much electricity, water recycling and waste reuse at factories.

The capacity of public incinerators in Taiwan is insufficient to meet demand while increased transportation due to relocation of production lines leads to more packaging waste. This has caused waste disposal costs to climb and companies are scrambling for waste disposal capacity. In the past, some recyclers gave rewards to WNC for recyclable waste but they are charging WNC for the service now, leading to an increase in total costs. WNC is constantly looking for new waste disposal companies in search of the most preferential unit price as a way of managing costs, and is also exploring opportunities to cooperate with upstream and downstream partners to promote recycling and reuse of waste. By doing so, WNC can pursue circular

economy concepts and also reduce waste to take some pressure off of waste storage facilities. All WNC sites began waste reduction projects in 2023. A packaging material recycling project is also being implemented. Through purchase agreements, WNC changed its packaging materials from unrecyclable plastics into recyclable forms and thereby improved the recycling rate of manufacturing waste. In 2023, the annual waste recycling rate of the WNC's plants in Taiwan has reached 89%, a 3.5% YoY growth in comparison to 2022. The waste recycling rate of all WNC sites the same year was 87.3%

A plan to install solar panels at WNC sites was launched in 2017, and green electricity was officially adopted in December 2017 in WNC headquarters. Solar panels have also been installed in other manufacturing sites and became operational in 2018. In June 2023, the S3 site in the Southern Taiwan Science Park commenced operations, with installation of a solar power generation system. Also, to reduce carbon emissions during operations, the S1 site proposed a solar power expansion plan in 2023. This involved adding additional solar panels to the rooftop solar power generation system, and is expected to be completed by April 2024 with grid connection to be finalized later in the same year.

In response to the production needs of the S1 site, WNC completed the installation of in-plant wastewater treatment facilities in August, 2020. The facilities perform real-time monitoring based on process needs, allowing the company to adjust its water pollution prevention plans in a timely manner to comply with statutory regulations.

To meet future production expansion needs, in 2023 the S1 site obtained the permit for the installation of air pollution control equipment and is preparing for related construction efforts. These measures will help WNC meet production timelines and comply with statutory regulations and ESG requirements.

(1) Total losses (including compensation) and fines for environmental pollution in the most recent fiscal year and the current fiscal year up to the date of printing of the annual report as well as possible expenses and measures relating to environmental protection in the present and future (if the aforementioned items cannot be reasonably estimated or described, the reason(s) for this should be provided):

A. Losses due to environmental pollution:

WNC did not incur any losses due to environmental pollution issues in 2023.

B. Countermeasures and possible expenses in the future:

WNC and its subsidiaries place great emphasis on environmental protection. Besides implementing pollution prevention measures internally, WNC commissions qualified vendors to process/reuse business waste in accordance with related laws and regulations. WNC will also continue to enhance internal training regarding regulations and reporting/handling processes related to environmental protection.

#### 5. Labor Relations

# (1) Benefits, continuing education, training, and pension systems for employees and their implementation status, as well as labor agreements and measures that protect employee rights:

- A. Employee benefits:
  - a. Taiwan sites:

Employees at Taiwan sites have labor insurance and National Health Insurance as required by law. WNC's Employee Welfare Committee handles matters related to employee welfare, such as distributing welfare funds and organizing activities and gatherings for employees in accordance with regulations. Other employee benefits include employee stock ownership trust, childbirth subsidies, wedding cash gifts, funeral subsidies, birthday/holiday gifts, and an online library. Employee recreation centers, reading rooms, health centers, massage services are also available at Taiwan sites. New parents are provided with newborn gift sets and maternity bags, along with facilities such as lactation rooms as well as designated parking spaces for pregnant women. Additionally, to assist employees in balancing work and family needs, flexible working hours from 8:00 a.m. to 9:00 a.m. and flexible work options are offered, creating a family-friendly work environment conducive to achieving a good work-life balance.

#### b. China sites:

As required by law, employees at WNC's China sites have comprehensive insurance coverage (five types of insurance and a mutual housing fund) as well as accident insurance. A union and an employee meal service committee have been established, and events such as dinner gatherings and arts/outdoor activities are held for employees. Other benefits include childbirth subsidies, holiday gifts, and raffle drawings. There are also employee recreation centers and reading rooms.

c. Vietnam site:

As required by labor laws, employees at WNC's Vietnam site have medical insurance, social insurance, unemployment insurance, and occupational injury insurance, and may establish a union. Other employee benefits include birthday/holiday gifts, and care given to employees who encounter family difficulties.

B. Employee education and training:

WNC places great emphasis on employee learning and encourages employees to expand their knowledge via means such as participating in external training, including conferences, seminars, and professional training and education courses. Subsidies are provided for employees taking such training. For internal training, WNC organizes face-to-face courses as well as online courses taught over Teams. Recordings of these courses are uploaded to the eHRD online learning system. 119 e-learning courses were uploaded in 2023, and 6,420 employees took these courses. WNC has also established a website for self-learning and organizes activities such as Reskill & Upskill Study Month, Quality Month, Teacher's Day and Growth Mindset on the website to create an atmosphere that encourages learning.

The five WNC colleges are led by senior managers as directors of the colleges, and they work with committees composed of experts in different fields to formulate a course framework for the five WNC colleges in accordance with WNC's business strategies, external trends, and academic and industry theories. The directors and committees have also created a course level system (levels 1–4) by referring to WNC's business processes, enabling employees to quickly grasp which course is best suited to teach them the professional knowledge they lack. To ensure course quality and learning efficacy, the teaching materials and tests used in WNC college courses are reviewed by experts in a wide range of fields. Employee test results are reviewed, and after-class surveys given out to obtain feedback on employees' satisfaction level regarding the courses, how much they learned from the courses, their thoughts on the instruction method, and suggestions regarding the courses. The feedback will be used to improve course quality. WNC colleges organized a total of 342 courses in 2023.

In 2023, the amount of time spent on training employees at Taiwan sites was 180,535 hours, of which 107,241 hours were spent on IDL employee training and 73,294 hours were spent on DL employee training. A total of 4,018 IDL employees and 4,389 DL employees underwent training during the year. Besides imparting knowledge from within WNC, joint classes were held with academia, other companies in the industry and suppliers to enhance knowledge sharing and stimulate employee growth.

#### Areas of emphasis for WNC colleges in 2023:

a. Digital Intelligence Leadership College:

The Digital Intelligence Leadership College focuses on the cultivation of skills relating to cooperation, adaptability, and sustainable growth, with the goal of giving every employee the means to be a leader. In 2023, the Digital Intelligence Leadership College organized a total of 141 courses in two categories, Management and General Knowledge, along with one lecture. Courses in the management category, such as Leadership Communication Skills as well as Performance Counseling, focus on developing management skills, and are formulated based on the management responsibilities and requirements of managers at all levels and the management skills of mid and high-level managers. Courses in the General Knowledge category, such as ESG-related courses, Experiencing WNC Culture, Data Governance, Mentorship Skills and Communication, and Ethics and Anti-Corruption, cover topics on WNC policies, organizational

culture, digital transformation, individual performance, regulatory audits and more. The elearning courses that new employees need to take during their probation periods are also in the General Knowledge category, as are skills training courses for different environmental, safety & health roles. In response to the challenges posed by the digital economy and sustainable transformation in 2023, a lecture titled AI and ESG Sustainability Transformation, Forward-Thinking for the Next Decade was organized.

b. Business College:

In accordance with WNC's operational directives and global trends, the Business College organized a total of 15 courses in 2023. High-level supervisors were invited to share their successful business strategies and experiences in interacting with customers, and industry and academic experts were also invited to share insights on industry trends and the economic environment. Through the exchange of practical experiences and interactions both internally and externally, we aim to facilitate the expansion of employees' macroscopic perspectives and experiential learning, ultimately achieving business exchanges and success.

c. Smart Manufacturing College:

In 2023, the Smart Manufacturing College organized 99 courses, with the goal of providing customers with defect-free and competitive products. The college provides courses on 6 Sigma, manufacturing processes, green product design, quality systems, equipment, smart factories and problem analysis/solving, as well as courses on training for, and application of IATF 16949, ISO 13485, IECQ QC080000, TL9000, and other quality standards.

d. Research and Development (R&D) College:

The R&D College organized 73 courses in 2023 in accordance with WNC's product technology directives. The WNC R&D Forum (WRDF) divides research and development into six primary areas, and the R&D College utilizes the forum to conduct cross-disciplinary technology exchanges and learning and invites internal/external experts to impart technological know-how and knowledge to WNC's R&D personnel, which enables R&D personnel from different fields to obtain more comprehensive perspectives and share design ideas. Besides organizing basic R&D courses, the R&D College also organizes the DFX and System Integration series of courses, which uses past cases and cross-disciplinary integration technologies to provide more comprehensive opportunities for R&D throughout the product design process. Furthermore, lectures on product carbon emission regulations and trends were organized in 2023 to cultivate awareness of green product design and forward-thinking capabilities.

e. AI College:

In December of 2019 WNC established an AI College. The College convenes information, software, R&D and automation supervisors to head up a management committee. After referencing the Institute for Information Industry's AI talent framework, the AI College organized its courses to focus on the areas of computational thinking, programming languages and AI development. In 2023 two masters' seminars, 11 online courses and the inaugural AI Hackathon were hosted. Through cross-unit AI technology exchange, innovative AI techniques have been infused into product design and workflow processes. Via a hybrid learning model, employees learn AI concepts, further grasp the connections and opportunities between AI and the company's products, and develop the ability to use knowledge acquired through hands-on practice.

- C. Pension system:
  - a. Taiwan sites:

For the benefit of employees after retirement, WNC's Taiwan sites have established regulations in accordance with the Labor Standards Act and the Labor Pension Act. These regulations cover retirement conditions, payment standards, procedures used to apply for pensions, and the payment of pensions. In addition to setting aside 6% of an employee's monthly wage as pension for eligible employees as per the Labor Pension Act, WNC has also established an Employee Retirement Reserve Funds Supervisory Committee in accordance with law. This committee allocates pension preparation funds monthly according to regulations on the appropriation and management of labor retirement reserve funds, and deposits funds at a designated financial agency, in an account under the name of the Employee Retirement Reserve Funds Supervisory Committee.

b. China sites:

WNC's China sites set aside 16% of an employee's monthly wage each month as pension for eligible employees as per the Labor Law and Social Insurance Law of the People's Republic of China.

c. Vietnam site:

WNC's Vietnam sites set aside 21.5% of an employee's monthly wage as social, medical, occupational injury, and unemployment insurance as per related social insurance laws of Vietnam.

- D. Employee-manager agreements:
  - a. Taiwan sites:

Establishment of an employee suggestions platform and optimization of the platform user experience: Employees may make suggestions by using the platform on their PCs or scanning a QR code using their cellphones. Responsible units respond on the same platform upon receiving suggestions meaning that employees can receive updates at any time.

Establishment of labor-management meetings: meetings are held each quarter for employees and managers to communicate and coordinate items related to labor-management cooperation and improvement measures that protect employee rights and enhance labor relations.

b. China sites:

For WNC's China sites, meetings between high-level supervisors and employees are arranged to regularly communicate and coordinate labor-management cooperation and other items related to the enhancement of employee rights.

c. Vietnam site:

Group agreements have been stipulated. Quarterly meetings are arranged for the company representatives to communicate with employees, so as to enhance labor relations.

- (2) Company losses due to labor disputes in the most recent year and as of the date of the publication of this annual report (including violations of the Labor Standards Act as discovered in inspections, list date of violation, violation number, legal regulation violated, content of violation, content of penalty) as well as possible expenses and response measures relating to labor disputes in the present and future (if the aforementioned items cannot be reasonably estimated or described, the reason(s) for this should be provided):
  - A. A former WNC employee surnamed Ye claimed that his layoff on the grounds of incompetence was illegal, and filed a lawsuit to confirm the existence of an employment relationship. The first, second, and third trials ruled in favor of WNC, and the judgments have become final. But Ye appealed the final decision. The appeal has been rejected, and the case is now completely finalized.
  - B. A WNC employee surnamed Lu claimed that his dismissal was illegal and filed a lawsuit to confirm the existence of an employment relationship. The first trial confirmed the employment relationship between the two parties but both sides had partial victories and partial losses. Lu appealed the decision. After both the second and third appellate courts rejected the appeals from both parties, confirming the existence of an employment relationship between them, Lu still appealed the decision. Subsequently, the appellate court rejected the appeal. With both appeals and retrials being rejected, the case is now completely finalized.
  - C. We received multiple complaints alleging workplace harassment against a former employee surnamed Yang at S2 in March 2022. After the complaint and appeal investigation, it was confirmed that harassment did occur, resulting in the termination of employment for the former employee, Yang. However, Yang claimed that his dismissal was illegal and filed a lawsuit with the Tainan District Court to confirm the existence of an employment relationship. The first trial ruled in favor of WNC, but Yang appealed the decision. The case has not yet been concluded.

D. WNC has been fined a total of NT\$100,000 for violating the Labor Standards Act in the most recent year and as of the date of the publication of this annual report. WNC has paid the fines in accordance with the deadline. The details are as follows:

| Date of<br>violation | Violation<br>number           | Legal regulation<br>violated and content<br>of violation                                                                                     | Content of<br>penalty | Possible<br>expenses<br>relating to<br>violation in<br>the present<br>and future | Response<br>measures                                                                                                          |

In summary, although WNC has lawsuits arising from labor disputes as mentioned in (1) to (3) above, cases (1) and (3) have currently been judged in favor of WNC; in addition, the amount involved in case (2) is not significant for WNC. Thus, the lawsuits will not have any major impact on WNC's finances and operations regardless of their outcome. In addition, as shown in case (4) above, the incidents where WNC was fined by the competent authority for violating the Labor Standards Act have all been rectified, and the fines paid account for a very small proportion of the company's operating income or shareholders' equity. There would be no major impact on WNC's finances or operations.

- (3) WNC has established rules and regulations regarding employee behavior and ethics and expects employees to understand the moral and ethical standards they must uphold in their work as well as their rights and duties. The rules and regulations are as follows:
  - A. WNC's Ten Beliefs and Ten Principles: Since its establishment, WNC has been very active in cultivating a positive company culture. Ten beliefs and ten principles have thus been established for all employees to follow.
  - B. Service Principles in WNC Employment Regulations: Employees shall comply with the service principles stated in WNC Employment Regulations, including principles related to company honor, team spirit, and loyalty, to enable us to gain the respect and trust of customers, suppliers, and industry players.
  - C. WNC Employment Regulations: Principles regarding human resource management and employee behavior are explicitly stated and listed in WNC Employment Regulations.
  - D. Personnel Resource Management Levels of Responsibility: This chart stipulates the authorization levels for various levels of management in WNC regarding issues related to human resources.
  - E. Workplace Sexual Harassment Prevention Measures, Complaint and Withdrawal Regulations: These regulations have been established to prevent sexual harassment, protect the dignity of employees, and ensure workplace equity.
  - F. Employee Leave Regulations: These regulations include descriptions and related rules regarding various types of employee leave.
  - G. Overtime Hours Management Measures and Employee Compensatory Leave Management Measures: These regulations list the definitions of overtime work and compensatory leave, how the hours for such work and leave are calculated, and how to apply for overtime work or compensatory leave.

- H. Implementation Measures for Annual Leave: These measures state the method by which special leave days are calculated, how unused annual leave is handled, and other related regulations.
- I. Employee Performance Management Regulations: These regulations detail the procedures for employee performance/goal management and performance evaluation. The results of performance evaluations will be used as a basis for promotions, salary increases, bonuses, and employee training/development. The results will also be used to demonstrate what is expected of employees.
- J. Management Regulations for Evaluating Employees During Their Probation Period: These procedures are used to evaluate new employees to ascertain whether their performance (including behavior) meet WNC requirements. The results of these evaluations are used to decide whether employees meet the standards of full-time employees.
- K. Regulations Governing the Posting of Announcements on the WNC Website and Employee Internet Usage: These regulations provide a set of rules for the posting of announcements on the WNC website and employee internet usage to prevent misuse of network resources.
- L. Information Security Manual and Information Security Policy Statement: The information security policy is established to ensure the security of information media, and achieving the goal of information security for the company.
- M. Regulations on Employee Rewards and Disciplinary Actions / TW Plants Incentive and Disciplinary Action Guidelines: These procedures list the standards and processes for employee rewards/disciplinary actions.
- N. Employee Resignation Procedures: These regulations stipulate how employees, supervisors, and HR personnel in charge of handling resignations shall handle the resignation process.
- O. Employee Transfer Management Regulations: These regulations stipulate how employees, supervisors, and HR personnel in charge of handling job assignments shall establish employee shift schedules and handle procedures related to internal job changes.
- P. Code of Ethical Conduct: The WNC ethical behavior code of conduct helps ensure that employee behavior complies with ethical standards and enables stakeholders to better understand WNC's ethical standards.

# (4) WNC has adopted the measures below to provide a safe work environment and ensure employee safety:

- A. WNC holds to its ESH principles. It has announced an ESH & Energy management policy and established ESH management measures. The policy and management measures provide employees with a point of reference regarding ESH compliance and management.
- B. A dedicated first-tier unit is assigned to be responsible for occupational safety and health operations in WNC sites. In accordance with regulations, each unit has established its own occupational safety and health supervisor as well as occupational safety and health management personnel. To further implement and strengthen on-site operational controls, production process supervisors and special operations supervisors are designated in compliance with applicable regulations.
- C. Management systems: WNC regularly conducts checks to ensure that it is in compliance with the ISO 14001 environmental management system standard, ISO 45001 occupational health and safety management system standard, and the CNS 45001 occupational health and safety management standards. A third-party verification agency is commissioned every year to conduct on-site audits and verification.
  - a. WNC has established a management systems committee, with WNC's CEO serving as the chairperson and the top-tier managers of WNC's business groups and business units serving as committee members. The committee convenes management and review meetings regularly and the chairperson appoints a systems management representative to oversee system operations. This ensures the effectiveness and appropriateness of the ESH-related management systems and enables continuous improvement of WNC's sustainable operations and fulfillment of its sustainability goals.

- b. WNC conducts regular compliance assessments and identification of the company's status, abides by domestic and international occupational safety and health regulations, and follows relevant trends. WNC examines ESH-related regulations, international standards, and the requirements of stakeholders to ensure compliance with relevant requirements.
- c. WNC conducts annual internal and external audits and regularly organizes training for its internal audit personnel (including initial and recurrent training). Internal and external audit plans are implemented for comprehensive review of teamwork operations of ESH management systems and improvements to this aspect are constantly made.
- d. WNC conducts risk assessments of environmental protection factors and occupational safety and health hazards, identifies the pollution and environmental impact created throughout a product's life cycle and the hazards posed to operations and the environment. WNC then establishes ESH management measures and SOPs and implements control measures, lowering impact to the environment and reducing hazards to personnel safety and health.
- e. WNC establishes ESH performance targets and management plans each year and regularly reviews and tracks implementation progress and effectiveness of such targets and plans.
- f. WNC enhances communication between internal/external units, facilitating implementation of ESH-related matters and benchmarking. WNC also establishes and maintains friendly relationships with neighboring plants and has built a support system with neighboring sites.
- g. WNC is continually implementing employee health management, health promotion, and occupational accident prevention plans, as well as monitoring the work environment and conducting emission testing and inspection to protect the safety and health of its employees and ensure that the company complies with emission standards.
- D. In accordance with regulations, WNC employs qualified and licensed personnel particular to each task, and also provides the following education and training:
  - a. Safety and health education and training for new employees.
  - b. Safety and health education and training for all WNC employees.
  - c. Training and establishing one qualified first aider for every 50 employees.
  - d. In accordance with regulations, WNC provides regular on-the-job safety management training to employees responsible for special tasks, such as fire prevention management personnel, supervisors for operations involving organic solvents, personnel in charge of operations involving radiation, operators of equipment involving high pressure gases, and forklift operators. The training provided is adjusted to fit the job requirements of different tasks.
  - e. Personnel are assigned to receive training on safety design, maintenance, and operations safety in accordance with operational and risk management requirements.
- E. Firefighting equipment safety and factory contingency plans:
  - a. WNC has established a comprehensive firefighting system, which includes alarm systems, escape tools, and firefighting equipment, in accordance with firefighting regulations.
  - b. In addition to regular inspection of firefighting equipment, WNC conducts audits from time to time to ensure the efficiency of the equipment and the systems. In accordance with regulations, qualified personnel are commissioned to conduct annual maintenance of firefighting equipment, and the maintenance results are reported to the competent authority.
  - c. A monitoring and alarm system for high-temperature/hazardous equipment has been established, and drills are conducted monthly to ensure the efficiency of real-time warning and risk response mechanisms.
  - d. WNC has implemented measures to improve electrical safety in production areas and reduce the risk of electrical fires. These measures include establishing electrical wiring guidelines, improving management in relevant areas, increasing the inspection frequency for low-voltage electrical distribution boards, and conducting regular infrared inspections of extension cords, high-temperature/hazardous equipment, and electrical wiring in areas with medium to high electrical safety risks.
  - e. Group firefighting/fire prevention training is regularly organized, abnormalities, earthquakes etc. are recorded.
  - f. Buildings are inspected for public safety every two years, and inspection results are reported to the competent authority.

- g. Fire monitoring and control measures for hot work have been implemented.
- h. WNC's participation in the civil defense force of the Hsinchu Science Park has enhanced its regional mobilization and response capabilities.
- i. WNC has established relationships with clinics and neighboring companies to enhance emergency rescue capabilities, including a system for providing first aid to injured personnel and for securing their transportation to medical care facilities.
- j. In response to the pandemic, the epidemic prevention team adjusted prevention measures as needed in response to government policies and the pandemic situation. In order to reduce the impact of plant operations interruptions or shutdowns, each unit clearly defined the operational items of each stage of the Business Continuity Plan (BCP) and carried out simulation drills, in order to minimize the impact on production.
- F. Employee health:
  - a. New employees undergo physical examinations before they report to work.
  - b. Physical examinations, including additional examination items for employees responsible for special tasks, are provided annually.
  - c. Free influenza vaccinations are provided to employees annually.
  - d. Quarterly health lectures are held to increase the health care knowledge of employees.
  - e. Health promotion activities such as cancer screenings, hiking events, and weight-loss programs are held quarterly.
  - f. Physicians make monthly visits to WNC, including on-site visits to operations sites, to provide services such as health consultation and employee reinstatement evaluation.
  - g. The water quality of water dispensers is inspected every month.
  - h. Articles on health care and disease prevention information are posted on the WNC portal site for employee reference.
  - i. Inspection of special working areas is conducted every half year to check the levels of chemical substances, organic solvents, dust, and noise. Results of these inspections are provided to employees.
- G. Mechanical equipment / personnel safety:
  - a. To lessen operational risk, protective devices are installed on all equipment, safety SOPs are provided, and equipment operators are given education and training.
  - b. Machines, equipment and jigs/fixtures that carry potential risk of injury are continually being improved, safety measures have been strengthened at the source, and acceptance inspection systems and digital sign-off systems are introduced to improve management effectiveness and efficiency. These measures help lower the incidence of occupational accidents.
  - c. Periodic maintenance and inspection of machinery to ensure stability and safety of equipment, lessening operational risk; annual inspections of dangerous machinery and equipment are carried out according to the law by qualified contractors.
  - d. Safety and health audits and inspections and recommendations on improvements are done so as to ensure operational safety.
  - e. Qualified electrical technicians are commissioned to regularly inspect and maintain high and low voltage equipment as well as regularly carry out infra-red safety testing.
  - f. Stringent safety inspections upon site entry are in place, protective gear and inventory management measures implemented, and low-hazard alternatives are promoted. These effectively reduce personnel health risks and losses due to disasters.
  - g. Chemical storage areas are established to store chemical substances, personal protective gear and other emergency equipment. Training in packaging operations, hazard awareness, and use of protective equipment is provided for operators to ensure operational safety and proper emergency response.
  - h. To protect the safety and health of employees, local exhaust systems are installed in special work areas that have quantifiable dust particles in the air or involve the use of chemical substances and organic solvents. Monitoring/inspection mechanisms are established and regularly maintained. Protective equipment is provided for employees to use.
  - i. An operations permit application mechanism is in place to identify potential risks and check for corresponding protective measures. Supervisor education is continually being improved to

enhance on-site safety and health management effectiveness. The occupational safety unit also conducts unannounced audits to ensure that control measures are effectively implemented.

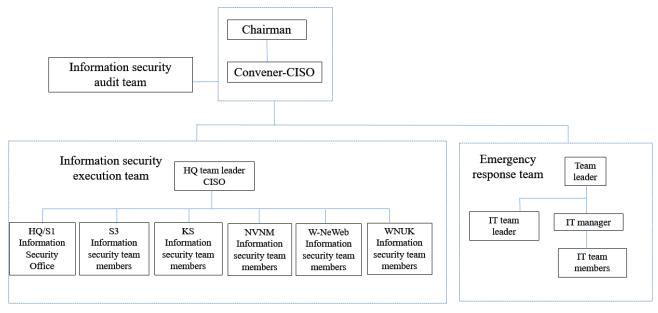

- j. Meetings with contractors are regularly held. Contractors are required to sign the Commitment to Work Safety for Contractors in WNC Plants.
- k. Subcontractors are informed of the location, operational risks, and safety standards prior to subcontractor training. A toolbox safety meeting system is implemented to enhance communications and awareness of safety before construction begins, so as to lessen contractors' and employees' operational risk.
- 1. Occupational safety and health training courses on various topics are held, and information on traffic and operational safety is posted on internal websites to increase hazard awareness, defensive driving skills, and safety of employees.
- H. Personnel safety control: WNC employees must wear their ID badges when entering/exiting WNC sites. Security personnel are stationed at the primary entrances and exits of WNC sites. They are responsible for conducting security checks, ensuring employee safety, and protecting the security of WNC property.
- I. Food safety and hygiene:
  - a. WNC selects qualified catering companies to provide catering services at WNC canteens, and these companies are required to comply with laws and regulations related to food safety and hygiene.
  - b. Catering personnel regularly undergo training relating to kitchen safety and health and emergency response measures to ensure work safety and effective management of accidents.
  - c. Catering personnel undergo regular health examinations. Personnel who have contracted pulmonary tuberculosis, hepatitis, sexually transmitted diseases, and skin diseases, or those that are carriers of contagious diseases such as typhoid fever, are prohibited from working as catering personnel.
  - d. WNC requires catering companies to use food ingredients that have passed inspection, and has compiled a key ingredients-vendor list. WNC also conducts audits on the food ingredients used in its canteens from time to time to ensure food safety.
  - e. WNC's general affairs and industrial safety personnel conduct monthly inspections of kitchens to ensure catering operations and the kitchen equipment meet safety and sanitation regulations.

#### 6. Information Security Management

WNC strictly adheres to the contracts and confidentiality agreements entered into with customers, implements control over confidential information, and has a robust information security policy in place. In 2014, WNC set up an Information Security Committee, which oversees the creation and promotion of information protection measures. The Information Security Management Review Committee is composed of top-tier supervisors of each departmental unit, with the President and CEO as the chairman of the committee and the head of the DMIS unit as the convener. An ISMS management review meeting is held every six months to ensure the promotion and implementation of information security policies and related laws and regulations, and to review implementation effectiveness and progress of information security projects and matters.

#### (1) Information Security Management Strategy and Structure

A. Information Security Risk Management Structure:

#### B. Information Security Management Policy:

- a. WNC follows the ISO/IEC 27001: 2013 standard and thus adopts the Plan-Do-Check-Act (PDCA) methodology in the establishment of an information security management system and in the maintenance of its effective operation and continuous improvement.
- b. Planning and establishment (Plan):

According to the overall strategy and goals of the company, establish an information security committee to control threats and vulnerabilities, plan risk assessment, design and build a control mechanism to establish an information security management system.

c. Implementation and operation (Do):

According to evaluation results, establish or modify an appropriate control mechanism.

d. Monitoring and checking (Check):

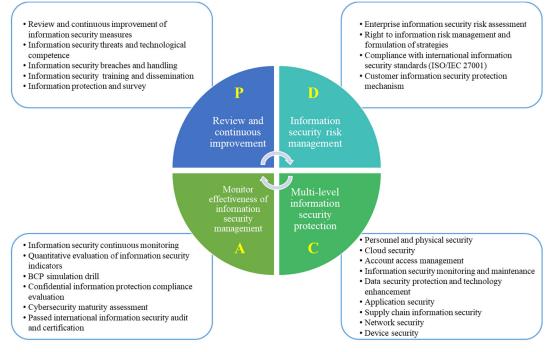

Supervise the implementation of operational items of the information security management system, and evaluate and check the effectiveness.

e. Maintenance and improvement (Act):

According to the results and recommendations of monitoring and checking, implement corrective measures, improve and implement an appropriate control mechanism to maintain the operations of the information security management system.

In addition, information security measures as well as training and reminders relating to information security are evaluated on a regular basis in accordance with performance indicators and maturity evaluation results to ensure that key confidential data is not leaked.

#### C. Management Plans:

WNC, apart from conducting the following on a yearly basis: inventory and updating of information asset lists, risk assessment, business impact analysis, disaster recovery drills, regular review of user and privileged accounts and access privileges, review of firewall rules, security awareness and training, vulnerability scanning and penetration testing, is also, in terms of management aspects, and in response to the newly announced 27001: 2022, actively executing a version replacement project with the help of an external consultant. Verification is scheduled for September, 2024. In 2023 introduction of automotive products cybersecurity development standards was completed (ISO 21434 & TISAX) along with IEC 62443-4-1 (secure development of products used in industrial automation and control systems) which is slated for verification in April, 2024. With regard to the technical aspect establishment of an SOC information security reporting mechanism, expansion of endpoint detection systems/services (MDR, XDR & MxDR) to monitor and report related information security events, building of endpoint compliance and risk management systems, and establishment of information security routines are underway. Optimization of daily information security inspection and the exception reporting platform, strengthening of supplier outsourcing development and management requirements, implementation of information security violation incident inspection and disciplinary mechanisms, ISO27001 internal and external compliance inspections, and strengthening of personnel information security awareness education training and case sharing are also ongoing. We also adopt social engineering drills and other control mechanisms as needed and continuously improve the entire information security management system to ensure the confidentiality, integrity, and availability of the company's information-related systems.

#### D. Information security management resources:

- a. Daily information security spot checks, bi-weekly information security room meetings, twice yearly ISMS management review conference.
- b. Information security protection insurance
- c. In order to embed information security concepts in every employee, employees can learn about information security through the information security promotion area on the company's internal website, and must complete information security courses every year. In addition, employees must

sign an NDA and complete an information security course as part of onboard training, including information security policy, regulations and case studies.

- d. Established high availability internal, external and production line firewalls and introduced sandboxes for threat analysis and defense.
- e. Optimized and continuously improved analysis, monitoring and investigation of suspicious behavior within horizontal and vertical traffic in intranet systems.
- f. Implemented 24/7 detection and reporting functionality via a third party threat and vulnerability detection platform as well as providing patches for vulnerabilities discovered.
- g. Optimized and strengthened WNC's outsourced SOC services and 24/7 information security monitoring items and coverage.
- h. Improved guidelines for reporting of information security incidents and established mechanisms for detecting, investigating and handling of said incidents.
- i. Re-reviewed identification of trade secrets data and monitoring mechanisms for said data.
- j. Optimized MDR/XDR/MxDR threat detection services to boost threat detection and response for key systems relating to WNC's operations.
- k. Conducted information security risk and compliance checks on endpoint computers to ensure compliance with WNC regulations so that they can connect to the company's network environment.
- 1. Continuing to conduct anti-virus software replacement and boosting of coverage.
- m. Strengthened the information security protection mechanism for customer and supplier equipment entering the factory and established a supplier information security risk level identification mechanism.

### (2) Major information security incidents

Please list losses and potential impact (such as impact to the company's operations or reputation) due to major information security incidents and the countermeasures taken in the most recent fiscal year and the current fiscal year up to the date of printing of the annual report. State the facts if such losses cannot be reasonably estimated: None

### 7. Important Contracts

| Agreement     | Counterparty                                                                                   | Period                                                              | Major Contents                                                                      | Restrictions                                           |

Analysis of items whose increase or decrease in amount are above 20% in the last two years:

1. "Long-term debts to property, plant, and equipment" increased mainly due to an increase in shareholder equity caused by an increase in cash capital.

2. "Quick ratio" increased mainly due to decreases in inventory and accounts payable.

3. "Interest coverage ratio" decreased mainly due to an increase in bank loans and impact from rising interest rates.

4. "Cash flow adequacy ratio" increased mainly due to an increase in net cash flow in business operations.

5. "Cash flow ratio" and "cash reinvestment ratio" increased mainly due to a change from negative to positive net cash flow in operational activities.

Source: Consolidated financial statements audited by a CPA; 2024 Q1 financial information has not been reviewed by a CPA Note 1: Net cash flow generated from operating activities was negative and has no analytical value.

Note 2: Net cash flow generated from operating activities with cash dividends deducted was negative and has no analytical value.

### (2) Parent-Company-Only Financial Analysis

Analysis of items whose increase or decrease in amount are above 20% in the last two years:

1. "Long-term debts to property, plant, and equipment" increased mainly due to an increase in shareholder equity caused by an increase in cash capital.

2. "Quick ratio" increased mainly due to decreases in inventory and accounts payable.

3. "Interest coverage ratio" decreased mainly due to an increase in bank loans and impact from rising interest rates.

4. "Cash flow adequacy ratio" increased mainly due to an increase in net cash flow in business operations.

5. "Cash flow ratio" and "cash reinvestment ratio" increased mainly due to a change from negative to positive net cash flow in operational activities.

Source: Parent-company-only financial statements audited by a CPA

Note 1: Net cash flow generated from operating activities was negative and has no analytical value.

Note 2: Net cash flow generated from operating activities with cash dividends deducted was negative and has no analytical value.

### Formulas used for calculating the figures in the above table are as follows:

- 1. Financial ratio
  - (1) Total liabilities to total assets = Total liabilities/total assets
  - (2) Long-term debts to property, plant and equipment = (Net equity + non-current liabilities)/net property, plant and equipment
- 2. Ability to pay off debt
  - (1) Current ratio = Current assets/current liabilities
  - (2) Quick ratio = (Current assets inventory prepaid expenses)/current liabilities
  - (3) Interest coverage ratio = Net income before interest and taxes/interest expenses
- 3. Ability to operate
  - Accounts receivable (including accounts receivable and notes receivable from operations) turnover = Net sales/average accounts receivable (including accounts receivable and notes receivable from operations) balance
  - (2) Accounts receivable turnover days = 365/accounts receivable turnover
  - (3) Inventory turnover = Cost of goods sold/average inventory
  - (4) Accounts payable (including accounts payable and notes payable from operations) turnover = Cost of goods sold/average accounts payable (including accounts payable and notes payable from operations) balance
  - (5) Average number of days to sell inventory = 365/inventory turnover
  - (6) Property, plant and equipment turnover = Net sales/net fixed assets
  - (7) Total assets turnover = Net sales/total assets
- 4. Earnings ability
  - (1) Return on assets = [Profit after tax + interest expense  $\times$  (1 effective tax rate)]/average total assets
  - (2) Return on equity = Profit after tax/average net equity
  - (3) Net income ratio = Net income/net operating revenue
  - (4) Earnings per share (EPS) = (Net income attributable to shareholders of the parent preferred stock dividends)/weighted average of outstanding shares
- 5. Cash flow
  - (1) Cash flow ratio = Net cash flows generated from operating activities/current liabilities
  - (2) Cash flow adequacy ratio = Net cash flows generated from operating activities in the most recent five years/(capital expenditure + increase in inventory + cash dividends) in the most recent five years
  - (3) Cash reinvestment ratio = (Net cash flows generated from operating activities cash dividends)/(gross property, plant and equipment + long-term investments + other non-current assets + working capital)
- 6. Leverage
  - (1) Operating leverage = (Net operating revenue variable operating cost and expense)/net operating income
  - (2) Financial leverage = Net operating income/(net operating income interest expenses)

### 3. 2023 Audit Committee's Review Report

The Board of Directors has prepared the Wistron NeWeb Corporation 2023 business report, financial statements, and the profit distribution proposal. Grace Lu and Emily Tseng from the CPA firm KPMG were retained to audit the financial statements of Wistron NeWeb Corporation and have issued an audit report relating to the financial statements. The business report, financial statements, and the profit distribution proposal have been reviewed and determined to be correct and accurate by the Audit Committee of Wistron NeWeb Corporation. According to Article 14-4 of the Securities and Exchange Act and Article 219 of the Company Act, I hereby submit this report.

Wistron NeWeb Corporation, 2024 Annual Shareholders' Meeting

Chairman of the Audit Committee: Karen Hsin

March 6, 2024

### 4. 2023 Consolidated Financial Statements and CPA Audit Report:

Refer to Appendix 1 for details

5. 2023 Parent Company Only Financial Statements and CPA Audit Report:

Refer to Appendix 2 for details

6. The Company should disclose the financial impact to the Company if the Company and its affiliated companies have incurred any financial or cash flow difficulties in the most recent year and as of the date of the publication of this Annual Report: None

Analysis of items whose increase or decrease in amount are above 20%:

1. "Intangible assets" increased mainly due to increases in miscellaneous intangible assets.

2. "Other assets" increased mainly due to an increase in the rating of financial assets measured at fair value through other comprehensive income.

3. "Non-current liabilities" decreased mainly due to the continued conversion of corporate bonds into common stock.

4. "Capital surplus" increased mainly due to an increase in share premium through issuance of shares to increase cash capital and the conversion of convertible corporate bonds.

5. "Other equity" increased mainly due to an increase in the rating of financial assets measured at fair value through other comprehensive income, which led to an increase in unrealized gains (losses) from financial assets measured at fair value through other comprehensive income.

### 2. Financial Performance Analysis (Consolidated)

Financial Performance Analysis

Analysis of items whose increase or decrease in amounts are above 20%:

1. "Operating income," "income before income tax," "income tax" and "net income" increased mainly due to the

increase in revenue and operating income.

2. "Total non-operating income and expenses" decreased mainly due to an increase in financial costs.

# The estimated sales quantities and the basis of the estimation, which may influence the company's finance and business in the future, and strategies in response:

WNC's products cover a wide range of applications, with large price differentials across diverse products. Therefore, it's not appropriate to use sales quantity as a basic metric. WNC, as a leader in the integration of wired and wireless communications technologies, will continue devoting resources into new technologies and new product development to retain its leading position in the industry. WNC accelerates upgrades of cross-platform hardware and software integration capabilities and provides continuous development of key communications technologies. With years of experience in antenna design, system integration and applicable interface development, WNC aims to provide professional and flexible communications solutions for the IoT. We will continue promoting Industry 4.0 from a macro management perspective to strengthen operational management efficiency and competitiveness.

### 3. Cash Flow Analysis

### (1) Cash Flow Analysis for the Last Fiscal Year:

| _ |              |                               |                             |                          |                | Uni                     | t: Thousand NT\$        |  |
|---|--------------|-------------------------------|-----------------------------|--------------------------|----------------|-------------------------|-------------------------|--|
|   | Beginning    | Net cash flows generated from | Cash flows of investing and | Effect of                | Ending<br>cash |                         |                         |  |
|   | cash balance | operating<br>activities       | financing<br>activities     | exchange rate<br>changes | balance        | Investing<br>activities | Financing<br>activities |  |
|   | 4,282,803    | 7,144,013                     | (3,343,803)                 | (168,243)                | 8,061,104      | -                       | -                       |  |

A. Cash flow analysis:

a. The positive net cash flows generated from operating activities of NT\$7.144 billion was mainly due to a decrease in inventory amount.

- b. The negative net cash flows used in investing activities of NT\$3.344 billion were mainly due to purchase of new equipment and payments for new plant construction.
- c. The positive net cash flows in financing activities of NT\$146 million were mainly due to issuing new shares to increase cash capital, repaying bank loans and issuing cash dividends.
- B. Remedial Actions for Liquidity Shortfall: None.

### (2) Cash Flow Projection for the Next Year:

WNC's policy is to maintain stable cash flows. It regularly assesses its account cash balance and the cash flows of its operating activities, investment activities, and financing activities, and also assesses the status of the financial market, carefully planning and managing its cash flows to ensure the sufficiency and suitability of capital required for business operations.

### 4. Effects of Significant Capital Expenditures on Financial Operations

WNC's major capital expenditures in recent years consist primarily of production and automated equipment purchases as well as construction of production sites. Capital expenditure in 2022 and 2023 amounted to NT\$3,592.192 million and NT\$3,031.573 million, respectively, with the main sources of capital being WNC's own capital, loans from banks and cash capital from issuance of new shares. WNC has expanded the production capacity of its production sites in the Southern Taiwan Science Park and Vietnam to meet the requirements of its global production capacity deployment and long-term business development plans and to enhance its long-term competitiveness, which in turn will likely benefit WNC's finances and long-term business operations.

### 5. Policy for Investment

WNC's policy for investment is to target long-term strategic investment. In 2023, investment loss recognized under the equity method was NT\$7.376 million. WNC disposed of all equity for the investment in August 2023 and the gain on disposal of investments was NT\$15.616 million.

In the future, WNC will continue to carefully evaluate the investment plan for adherence to this principle of long-term strategic investment.

### 6. Risk Management

# (1) How do interest rate, exchange rate, or inflation influence WNC's profits and losses, and how can it manage concomitant risks?

|                  | Unit: Thousand NT\$ |
|------------------|---------------------|
| Item             | 2023                |
| Interest income  | 43,306              |
| Interest expense | 596,041             |
| Exchange gain    | 206,859             |

1.2.700

WNC had around NT\$8.06 billion in cash as of the end of 2023; we invested the surplus funds after considerable evaluation of the risks involved while closely monitoring fluctuations in bank lending rates regularly to reduce interest rate risks.

Approximately 98.44% of WNC's revenue was from export sales, and most of the export-sale amounts were quoted in U.S. dollars. Most of the material-purchasing amounts were also quoted in U.S. dollars. Therefore, the majority of WNC's currency exchange risk can be reduced and offset by regular import/export activities (a natural hedge). Other small amounts of foreign currencies can be exchanged to NT dollars depending on capital needs or market situations.

There was no major inflation influence on WNC during the past year.

The action plans to cope with the impact from interest rates, exchange rates, and inflation are:

- A. Further mutually offset foreign assets and liabilities to avert risk.
- B. Make plans and arrangements in advance for fund yields and borrowing costs in light of WNC's business anticipation and funds requirements.
- C. Use auxiliary tools, such as derivative financial products, to avoid risks under proper risk guidelines.

# (2) What were the major reasons for WNC to engage in high-risk or leveraged investments, make loans, make guarantees, or buy derivatives? What were the reasons for gains or losses in these and what are the future measures for response?

WNC has not engaged in any high-risk or highly leveraged investments in the past year. It has not loaned funds or endorsed or entered into guarantees for any parties other than the subsidiaries wholly owned by itself, and no loss has been incurred.

WNC executed derivatives transactions under the related regulations of the company, and the transactions were within our business scope. The goal of such transactions is to avoid most market price risks.

Looking ahead, WNC will adhere to its existing principles and will not make high-risk and highly leveraged investments. We will only loan to other parties or endorse and enter into guarantees for other parties under WNC's applicable regulations. Derivatives transactions will be performed strictly in compliance with the Rules and Procedures for Derivative Transactions set forth by WNC.

### (3) Future R&D and Expected R&D Investment

### B. Revenue to be invested in research and development

WNC will continue to invest in equipment for the above-mentioned products and recruit outstanding research and development personnel for innovation and development in order to maintain a leading role in the technologies involved, taking full advantage of market opportunities. In view of this, it is estimated that 4% of WNC's revenues will be invested in research and development in 2024.

### (4) The impact of legal and regulatory changes on WNC

Significant policy and law changes internationally and domestically will be understood by the related responsible personnel and appropriate response measures will be enacted.

### (5) Impact of technological (including information security risks) and industrial changes on WNC

To protect WNC and its customers' confidential information (including trade secrets and intellectual property) and reduce various types of losses and operational impact, WNC's headquarters, manufacturing sites in Hsinchu Science Park, Southern Taiwan Science Park, Vietnam, and China, and subsidiaries in the United States and United Kingdom have acquired ISO/IEC 27001 information security management system certification (valid from October 6, 2023 to October 6, 2025), developed information security risk assessment and management processes, and adopted an Information Security Policy that regulates operating procedures to manage account password access privileges, manages account holder access, manages portable storage devices, protects information system security, manages information backup and restoration, controls confidential information, and classifies and protects the documents of all departments. These security measures serve to avoid the improper accessing of and tampering with the company's information systems and prevent the theft or leakage of the company or its customers' trade secrets and intellectual property.

Although WNC has established the aforementioned policies, processes, and information security control measures, we still cannot guarantee that controls or important operating information systems can completely circumvent the impact of new risks and cyberattacks. These attacks may destroy company operations or attempt to steal the company's trade secrets and other sensitive information by illegally hacking into our Intranet systems or our supply chain networks. When under cyberattack, relevant information systems may lose important information or cause service suspension. WNC continuously adopts the PDCA cycle to check and evaluate applicable regulations and operating procedures so as to ensure their appropriateness and effectiveness. WNC will continue to improve its business continuity plans and information systems, and reduce the time it takes to resume normal operations.

The Digital Information Management Division installs internal cloud-based R&D platforms for centralizing the storage and management of R&D information to protect the company's R&D results and confidential information and to provide a safe and secure space for information access and exchange. We also initiate trade secret inventory operations that involve identifying and organizing each department's trade secrets and to remind employees of and confirm their access and custody measures. WNC sees suppliers as partners who are vital to the success of the company. In addition to having suppliers sign a confidentiality agreement, we also expanded the applicable scope of supplier evaluations in 2023, and will continue to adopt supplier questionnaires, define key suppliers and conduct audits on suppliers' compliance status, experience sharing activities, and review and improvement plans to encourage suppliers to actively support and comply with our information security policies and regulations.

In 2023, we conducted the annual ISO 27001 internal/external audit and risk assessments, carried out operational impact analysis, and performed recovery drills according to our business continuity plans formulated at the start of 2023. We also conducted an expanded BCP drill involving multiple sites and production units. A red team exercise was carried out to enhance our anti-virus/anti-hacker response measures and drills, and a simulated DR drill involving WNCERP cloud backup was also completed to help improve our threat intelligence analysis services so we can better evaluate the network security of our information systems. In addition, through mechanisms such as intelligence analysis and threat hunting, we continue to conduct preemptive detection and prevention of issues relating to geopolitical events and external information security incidents, and carry out projects relating to enhancing our information security protection network.

In 2024, geopolitical tensions will continue to pose serious challenges. As usage of IoT/OT and other connected devices and adoption of external cloud services such as IaaS, PaaS and SaaS have become more commonplace, the challenges to information security have increased, and we've had to expand the scope of our information security risk assessment and management. WNC has continued to strengthen controls and protective measures in both management aspects and technical aspects. In terms of the management aspect, we have commissioned external consultants to help us meet the requirements of ISO 27001: 2022 and target to boost the information security awareness of company employees by integrating external resources to expanding the scope of phishing and social engineering drills. In terms of the technical aspect, we will continue to integrate an intrusion and behavior detection joint defense system, enhance the visualization of vulnerabilities through conducting vulnerability scans on servers

and webpages, and implement inspection systems and processes for secure codes used in systems and product development to boost the transparency of information security, build a multi-level defense network, and reduce internal/external risks to ensure continuity of operations.

Other technology and industry advancements in recent years have not directly and materially impacted the company's finance and businesses. Nevertheless, due to fierce market competition, we obtained ISO 21434 and TISAX certification in 2023 in response to customer requirements; these international standards are related to product safety design and production control procedures for automotive products. In addition, due to the information security requirements of our products, we started implementing a product safety development management system based on IEC62443-4-1 standards in September 2023.

### (6) Impact of corporate image change on risk management and the related action plan

N/A. There has been no change to WNC's corporate image.

### (7) Possible risks relative to the expected gains from acquisitions and their solutions

N/A. WNC does not have any acquisition plans.

### (8) Possible risks relative to the expected gains of plant facility expansion and related solutions

A feasibility study and financial analysis is conducted by a designated task force for all plant facility expansions to understand all scenarios and prepare appropriate countermeasures.

### (9) Supply and distribution concentration

There is no concentration risk pertaining to suppliers and customers.

# (10) The impact of share transfers made by directors, supervisors or shareholders with greater than 10% shareholdings on WNC and any relevant countermeasures

None

### (11) Impact of management changes on WNC and action plans

Major business plans are properly evaluated and then presented as the result of an overall assessment of the industry and market conditions by WNC's professional executive officers and executed after approval by the Board of Directors. WNC has established a complete and organized business structure with each department being distinguished by their assigned responsibilities and duties. The management strategy is fully applied through the implementation of an internal management system and communication between each department. Management is therefore efficient, business results are assured, and the risk and negative impact of management changes on company operations are reduced significantly.

- (12) Where (1) WNC and/or any company director, any company supervisor, the general manager, any person with actual responsibility for the firm, any major shareholder holding a stake of greater than 10%, and/or any company or companies controlled by WNC are involved in litigious and non-litigious matters that have been concluded by means of a final and unappealable judgment or are still under litigation and (2) where such a dispute could materially affect shareholders' equity or the price of WNC's stock, the facts of the dispute, amount of money at stake in the dispute, the date of the litigation's commencement, the main parties in the dispute, and the status of the dispute as of the date of printing of this annual report:
  - A. In March 2022, WNC filed a civil lawsuit with the United States District Court for the Southern District of New York against Genesis Networks Telecom Services, LLC (hereinafter referred to as "Genesis") and its affiliated company GNET, asking for repayment of accounts payable and interest as well as any legal expenses pertaining to the lawsuit. In July 2023, the aforementioned court passed a summary judgement that the defendant is liable for paying the entirety of the accounts payable owed to WNC, and thus WNC successfully won this lawsuit.
  - B. On November 25, 2021, WNC purchased equipment from YU-CHEN SYSTEM TECHNOLOGY CORP. (hereinafter referred to as "YCS"). Due to the fact that the purchased equipment was unable to pass acceptance checks, after several rounds of negotiations, WNC sent a legal attest letter to

YCS on February 23, 2023 requesting contract rescission and restoration to status quo ante. WNC filed a lawsuit with the Taiwan Hsinchu District Court in May 2023, and at present the case is under review by the court. The value of the claim in the lawsuit is estimated to be between NT\$ 7 and 10 million.

As the monetary value involved in the aforementioned lawsuit is within manageable range and not considered significant for WNC, the lawsuit will not have any major impact on WNC's finances or operations regardless of its outcome.

### (13) Other risks

None

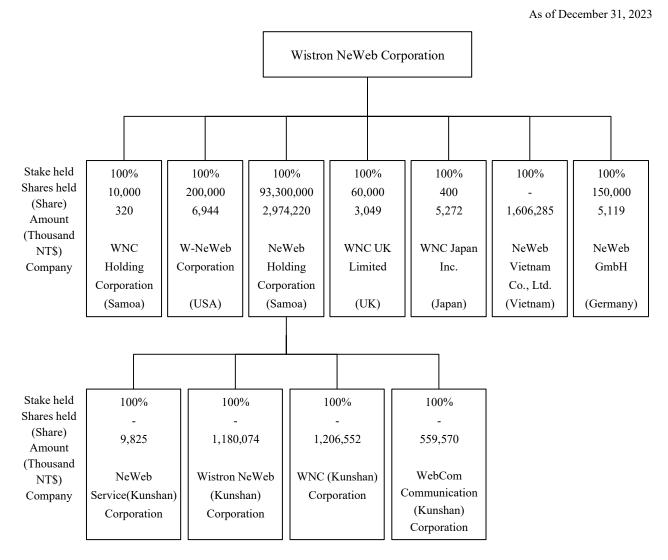

### 7. Other Important Matters

None

# **Eight. Special Disclosure**

### 1. Summary of Affiliated Companies

### (1) Organizational Chart

### (2) Information Disclosure Statement for Affiliated Companies in Accordance with the "Criteria Governing Preparation of Affiliation Reports, Consolidated Business Reports and Consolidated Financial Statements of Affiliated Enterprises":

Consolidated Financial Statements of Affiliated Companies

### **Representation Letter**

The entities that are required to be included in the consolidated financial statements of affiliated companies of Wistron NeWeb Corporation as of and for the year which ended December 31, 2023, under the Criteria Governing Preparation of Affiliation Reports, Consolidated Business Reports and Consolidated Financial Statements of Affiliated Enterprises are the same as those included in the consolidated financial statements prepared in conformity with the International Financial Reporting Standard 10, "Consolidated Financial Statements" that have been certified by the Financial Supervisory Commission, R.O.C. The information required to be disclosed is included in the consolidated financial statements. Consequently, Wistron NeWeb Corporation has not prepared a separate set of consolidated financial statements for affiliated companies.

Company Name: Wistron NeWeb Corporation

Chairman: Haydn Hsieh

Date: March 6, 2024

### (3) Business Scope of WNC and Its Affiliated Companies

The business scope of WNC and its affiliated companies includes the design, research and development, production, and sales of networking and communications products, as well as services for the products.

### **Independent Auditors' Report**

To the Board of Directors Wistron NeWeb Corporation:

### Opinion

We have audited the consolidated financial statements of Wistron NeWeb Corporation and its subsidiaries ("the Group"), which comprise the consolidated balance sheets as of December 31, 2023 and 2022, the consolidated statements of comprehensive income, changes in equity and cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of material accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2023 and 2022, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the International Financial Reporting Standards ("IFRSs"), International Accounting Standards ("IFRIC") or the former Standing Interpretations Committee ("IFRIC") or the former Standing Interpretations Committee ("SIC") endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

### **Basis for Opinion**

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the year ended December 31, 2023. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. Based on our judgment, the key audit matters should be reflected in our report are as follow:

1. Revenue recognition from contracts with customers

Please refer to Note 4(16) "Summary of Significant Accounting Policies – Revenue from contract with customers", and Note 6(20) "Explanation of Significant Accounts – Revenue from contracts with customers" to the consolidated financial statements.

Description of key audit matters:

The customers of the Group are spread globally. Due to differences in technology, markets, economy, or legal environment, the degree of control over customers is relatively complex. The timing of revenue recognition for sales may vary due to different trading terms with customers. The risk of revenue recognized in the incorrect period may arise as of the balance sheet date. Therefore, recognizing revenue at the correct time is one of the key audit matters for our audit.

How the matter was addressed in our audit:

Our principal audit procedures included: Testing the design and implementation of the main internal controls related to the timing of revenue recognition; engaging with computer auditing experts to participate in engagement planning and risk assessment and to assist in relevant tests; selecting sales transactions within the period before and after the balance sheet date to test whether revenue had been recognized in the appropriate period.

2. Valuation of Inventories

Please refer to Note 4(8) "Summary of Significant Accounting Policies – Inventories", Note 5 "Significant Accounting Assumptions and Judgments, and Major Sources of Estimation Uncertainty", and Note 6(3) "Explanation of Significant Accounts – Inventories, net" to the consolidated financial statements.

### Description of key audit matters:

The Group mainly engages in the research and development, as well as the production of wireless communication products, wherein its inventories are measured at the lower of cost and net realizable value. Due to the rapid changes in telecommunication industry, the old models produced by the Group may quickly be replaced with new ones, resulting in a risk in which the carrying value of inventories may be higher than its net realizable value. The net realizable value of inventory, which is tentative and might be subject to significant fluctuations, is mainly determined based on the assumptions of the estimated selling price of the products within a specific time horizon. Therefore, the valuation of inventories is one of the key audit matters for our audit.

How the matter was addressed in our audit:

Our principal audit procedures included: Obtaining the inventory aging report and checking the accuracy with the general ledger; testing the accuracy of the aging of inventory based on the available documents of the last valid transaction; understanding the management's method of calculating the net realizable value, and to perform testing by vouching relevant documents to the testing samples; evaluate the reasonableness of the accounting policy for inventory write-down or slow-moving provision, and making an assessment of their adequacy for aging inventories ; as well as considering the appropriateness of the Group's disclosures in the accounts.

### **Other Matter**

Wistron NeWeb Corporation has prepared its parent-company-only financial statements as of and for the years ended December 31, 2023 and 2022, on which we have issued an unmodified opinion.

# Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the IFRSs, IASs, IFRC, SIC endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including members of the Audit Committee) are responsible for overseeing the Group's financial reporting process.

### Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

- 1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- 5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient and appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Chien-Hui Lu and Mei-Yu Tseng.

KPMG

### **Notes to Readers**

The accompanying consolidated financial statements are intended only to present the consolidated financial position, financial performance and cash flows in accordance with the accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such consolidated financial statements are those generally accepted and applied in the Republic of China.

The independent auditors' report and the accompanying consolidated financial statements are the English translation of the Chinese version prepared and used in the Republic of China. If there is any conflict between, or any difference in the interpretation of the English and Chinese language independent auditors' report and consolidated financial statements, the Chinese version shall prevail.

### (English Translation of Consolidated Financial Statements Originally Issued in Chinese) Wistron NeWeb Corporation and Subsidiaries

Notes to the Consolidated Financial Statements

For the Years Ended December 31, 2023 and 2022

# (amounts expressed in Thousands of New Taiwan Dollars, except for per share information and unless otherwise noted)

### 1. Company history

Wistron NeWeb Corporation (the "Company") was founded in Hsinchu, Republic of China (R.O.C.), on December 7, 1996. The registered address of the Company's office is 20 Park Avenue II, Hsinchu Science Park, Hsinchu 308, Taiwan, R.O.C. The Company's ordinary shares were publicly listed on the Taiwan Stock Exchange on September 22, 2003.

The consolidated financial statements comprises the Company and its subsidiaries (together referred to as the "Group") and the Company's interest in associates. The Group is engaged mainly in the research, development, manufacturing and sales of the following products, including wired communication equipment, wireless communication networking equipment, electronic components, regulated telecommunication radio frequency equipment, medical devices, electric power generation, transmission and distribution machinery, satellite communication systems, mobile and portable communication products, products, components, semi-finished products and peripherals of medical testing equipment, medical diagnostic equipment, smart mobile aids, medical consumables, medical information transmission systems, Information and communications technology (ICT) products, software and hardware integration solutions information software services, data processing services, and application services of electronic data supply.

### 2. Approval date and procedures of the consolidated financial statements

These consolidated financial statements were authorized for issue by the Board of Directors on March 6, 2024.

### 3. New standards, amendments and interpretations adopted:

(1) The impact of the International Financial Reporting Standards ("IFRSs") endorsed by the Financial Supervisory Commission, R.O.C. ("FSC") which have already been adopted.

The Group has initially adopted the following new amendments, which do not have a significant impact on its consolidated financial statements, from January 1, 2023:

- Amendments to IAS 1 "Disclosure of Accounting Policies"
- Amendments to IAS 8 "Definition of Accounting Estimates"
- Amendments to IAS 12 "Deferred Tax related to Assets and Liabilities arising from a Single Transaction"

The Group has initially adopted the new amendment from which do not have a significant impact on its consolidated financial statements, from May 23, 2023.

• Amendments to IAS 12 "International Tax Reform – Pillar Two Model Rules"

(2) The impact of IFRS endorsed by the FSC but not yet effective

The Group assesses that the adoption of the (following) new amendments, effective for annual period beginning on January 1, 2024, would not have a significant impact on its consolidated financial statements:

- Amendments to IAS 1 "Classification of Liabilities as Current or Non-current"
- Amendments to IAS 1 "Non-current Liabilities with Covenants"
- Amendments to IAS 7 and IFRS 7 "Supplier Finance Arrangements"
- Amendments to IFRS 16 "Lease Liability in a Sale and Leaseback"
- (3) The impact of IFRSs issued by IASB but not yet endorsed by the FSC

The Group does not expect the following new and amended standards, which have yet to be endorsed by the FSC, to have a significant impact on its consolidated financial statements:

- Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture"
- IFRS 17 "Insurance Contracts" and amendments to IFRS 17 "Insurance Contracts"
- Amendments to IFRS 17 "Initial Application of IFRS 17 and IFRS 9 Comparative Information"
- Amendments to IAS 21 "Lack of Exchangeability"

### 4. Summary of material accounting policies

The material accounting policies applied in the preparation of these consolidated financial statements are summarized as follows. Except for those described individually, the significant accounting policies have been applied consistently to all periods presented in these consolidated financial statements.

(1) Statement of compliance

The consolidated financial statements have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" (hereinafter referred to as the Regulations) and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations endorsed and issued into effect by the Financial Supervisory Commission, R.O.C..

- (2) Basis of preparation
  - A. Basis of measurement

The consolidated financial statements have been prepared on a historical cost basis except for the following material items in the balance sheets:

(a) Financial assets at fair value through profit or loss (FVTPL) are measured at fair value;

- (b) Financial assets at fair value through other comprehensive income (FVOCI) are measured at fair value; and,
- (c) The net defined benefit liabilities are measured as the fair value of the plan assets, less, the present value of the defined benefit obligation.
- B. Functional and presentation currency

The functional currency of each Group entity is determined based on the primary economic environment in which the entity operates. The consolidated financial statements are presented in New Taiwan Dollars (TWD), which is the Company's functional currency. Unless otherwise noted, all financial information presented in TWD has been rounded to the nearest thousand.

- (3) Basis of consolidation
  - A. Principle of preparation of the consolidated financial statements

The consolidated financial statements comprise the Company and the entities controlled by the Company (its subsidiaries). The Company controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its control over the entity.

The financial statements of the subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

Intra-group balances and transactions, and any unrealized income and expenses arising from intra-group transactions are eliminated in preparing the consolidated financial statements.

Changes in the Group's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

B. List of subsidiaries in the consolidated financial statements

The list of subsidiaries is included in the consolidated financial statements:

|                     |                                     |                                                                            | Percentage of Ownership |                   |

C. List of subsidiaries which are not included in the consolidated financial statements: None.

### (4) Foreign currency

A. Foreign currency transactions

Transactions in foreign currencies are translated into the functional currencies at the exchange rates at the dates of the transactions. At the end of each subsequent reporting period (hereinafter referred to as the reporting date), monetary items denominated in foreign currencies are retranslated into the functional currencies using the exchange rate at that date. Non-monetary items denominated in foreign currencies that are measured at fair value are translated into the functional currencies using the exchange rate at the fair value are translated into the functional currencies using the exchange rate at the date that the fair value was determined. Non-monetary items denominated in foreign currencies that are measured based on historical cost are translated using the exchange rate at the date of transaction. Foreign currency differences arising from retranslation are recognized in profit or loss except for the differences in equity instruments at FVOCI, which are recognized in other comprehensive income.

### B. Foreign operations

The assets and liabilities of foreign operations are translated to TWD using the exchange rates at the reporting date with the exception of shareholders' equity, which is translated at historical cost rates, and income and expenses, which are translated to TWD at the average rate for the period. Foreign currency differences are recognized in other comprehensive income.

### (5) Classification of current and non-current assets and liabilities

The Group classifies an asset as current when any one of the following requirements is met. Assets that are not classified as current are non-current assets.

- A. It expects to realize the asset, or intends to sell or consume it, in its normal operating cycle;
- B. It holds the asset primarily for the purpose of trading;
- C. It expects to realize the asset within twelve months after the reporting period; or
- D. The asset is cash or cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

The Group classifies a liability as current when any one of the following requirements is met. Liabilities that are not classified as current are non-current liabilities.

- A. It expects to settle the liability in its normal operating cycle;
- B. It holds the liability primarily for the purpose of trading;
- C. The liability is due to be settled within twelve months after the reporting period; or
- D. It does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by issuing equity instruments do not affect its classification.
- (6) Cash and cash equivalents

Cash comprise cash, cash in bank and checking deposits. Cash equivalents are short-term and highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits which meet the above definition and held for the purpose of meeting short-term cash commitments rather than for investment or other purposes are classified as cash equivalents.

(7) Financial instruments

Accounts receivable are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Group becomes a party to the contractual provisions of the instrument. A financial asset (unless it is an accounts receivable without a significant financing component) or financial liability is initially measured at fair value plus, transaction costs that are directly attributable to its acquisition or issue. Accounts receivable without a significant financing component are initially measured at the transaction price.

A. Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

On initial recognition, a financial asset is classified as measured at: amortized cost, FVOCI and FVTPL.

The Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

(a) Financial assets at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amounts outstanding.

These assets are subsequently measured at amortized cost, which is the amount at which the financial asset is measured at initial recognition, plus/minus, the cumulative amortization using the effective interest method, adjusted for any loss allowance. Interest income, foreign exchange gains and losses, as well as impairment, are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

(b) Financial assets at FVOCI

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an instrument-by-instrument basis.

A financial asset measured at FVOCI is initially recognized at fair value, plus any directly attributable transaction costs. These assets are subsequently measured at fair value. Whereas dividends derived from equity investments are recognized as income in profit or loss, unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses of financial assets measured at FVOCI are recognized in other comprehensive income. On derecognition, gains and losses accumulated in other comprehensive income of equity investments are reclassified to retain earnings instead of profit or loss.

Dividend income derived from equity investments is recognized on the date that the Group's right to receive payment is established, which in the case of quoted securities is normally the ex-dividend date.

(c) Financial assets measured at FVTPL

All financial assets not classified as amortized cost or FVOCI described as above are measured at FVTPL. On initial recognition, the Group may irrevocably designate a financial asset, which meets the requirements to be measured at amortized cost or at FVOCI, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.

(d) Impairment of financial assets

The Group recognizes loss allowances for expected credit loss (ECL) on financial assets measured at amortized cost (including cash and cash equivalents, receivables, other financial assets and refundable deposits).

The Group measures loss allowances at an amount equal to lifetime ECL, except for the following which are measured as 12-month ECL:

- · debt securities that are determined to have low credit risk at the reporting date ; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowance for accounts receivable are always measured at an amount equal to lifetime ECL.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12-month after the reporting date (or a shorter period if the expected life of the instrument is less than 12-months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment as well as forward-looking information.

The Group considers a debt security to have low credit risk when its credit risk rating is equivalent to the globally understood definition of investment grade which is considered to be BBB- or higher per Standard & Poor's, Baa3 or higher per Moody's or twA or higher per Taiwan Ratings.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 90 days past due.

The Group considers a financial asset to be in default when the financial asset is more than 180 days past due and the borrower is unlikely to pay its credit obligations to the Group in full.

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls. The difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive. ECLs are discounted at the effective interest rate of the financial asset.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amounts of the assets.

The gross carrying amount of a financial asset is written off either partially or in full to the extent that there is no realistic prospect of recovery. The Group individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Group expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

(e) Derecognition of financial assets

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

- B. Financial liabilities and equity instruments
  - (a) Classification of debt or equity

Debt and equity instruments issued by the Group are classified as financial liabilities or equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

(b) Equity transaction

Equity instruments refer to surplus equities of the assets after the deduction of all the debts for any contracts. Equity instruments issued are recognized as the amounts of consideration received less the direct cost of issuing.

(c) Compound financial instruments

Compound financial instruments issued by the Group comprise convertible bonds (TWD) that can be converted to share capital at the option of the holder, where the number of shares to be issued is fixed.

The liability component of a compound financial instrument is recognized initially at the fair value of a similar liability that does not have an equity conversion option. The equity component is recognized initially at the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. Any directly attributable transaction costs are allocated to the liability and equity components in proportion to their initial carrying amounts.

Subsequent to initial recognition, the liability component of a compound financial instrument is measured at amortized cost using the effective interest method. The equity component of a compound financial instrument is not re-measured subsequent to initial recognition.

Interest related to the financial liability is recognized in profit or loss. On conversion, the financial liability is reclassified to equity, and no gain or loss is recognized.

(d) Financial liabilities

Financial liabilities not classified as held-for-trading, or designated as at FVTPL, which comprise loans and borrowings, accounts payable, and other payables, are measured at fair value plus any directly attributable transaction cost at the time of initial recognition. Subsequent to initial recognition, they are measured at amortized cost calculated using the effective interest method.

(e) Derecognition of financial liabilities

The Group derecognizes a financial liability when its contractual obligations has been discharged or cancelled, or has expired. The Group also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount of a financial liability extinguished and the consideration paid is recognized in profit or loss.

(f) Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amounts presented in the statement of balance sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

### (8) Inventories

Inventories are measured at the lower of cost or net realizable value. The cost of inventories is based on the standard cost method and includes expenditure and other costs incurred in bringing them to their existing location and condition. In the case of manufactured inventories and work in process, the cost includes an appropriate share of direct labors and production overheads based on normal operating capacity. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

#### (9) Investment in associates

Associates are those entities over which the Group has a significant influence and the authority to participate in the financial and operating policy decisions of the investees but not to the extent of controlling or joint controlling over those policies.

Investments in associates are accounted for using the equity method and are recognized initially at cost. The cost of the investment includes transaction costs. The carrying amount of the investment in associates includes goodwill arising from the acquisition less any accumulated impairment losses.

The consolidated financial statements include the Group's share of the profit or loss and other comprehensive income of equity-accounted investees, after adjustments to align their accounting policies with those of the Group, from the date that significant influence commences until the date that significant influence ceases.

Unrealized gains and losses resulting from transactions between the Group and an associate are recognized only to the extent of unrelated Group's interests in the associate. When the Group's share of losses of an associate equals or exceeds its interests in an associate, it discontinues recognizing its share of further losses. After the recognized interest is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

The Group discontinues the use of the equity method and measures the retained interest at fair value from the date when its investment ceases to be an associate. The difference between the fair value of retained interest and proceeds from disposing, and the carrying amount of the investment at the date the equity method was discontinued is recognized in profit or loss. The Group accounts for all the amounts previously recognized in other comprehensive income in relation to that investment on the same basis as would have been required if the associates had directly disposed of the related assets or liabilities. If a gain or loss previously recognized in other comprehensive income would be reclassified to profit or loss (or retained earnings) on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (or retained earnings) when the equity method is discontinued.

- (10) Property, plant and equipment
  - A. Recognition and measurement

Items of property, plant and equipment are measured at cost, less accumulated depreciation and any accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

B. Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

### C. Depreciation

Depreciation is calculated on the cost of an asset less its residual value and is recognized in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment. If the useful life of a component is different from that of other parts of the asset, the component depreciation should be provided separately.

If there is reasonably certainty that the lessee will obtain ownership by the end of the lease term, the period of expected use is the useful life of the asset.

The estimated useful lives for the current and comparative years of significant items of property, plant and equipment are as follows:

- (a) Buildings: 3 to 50 years
- (b) Machinery and equipment: 1 to 6 years
- (c) Research and development equipment: 5 to 6 years
- (d) Other equipment: 3 to 10 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

D. Reclassification to investment property

A property is reclassified to investment property at its carrying amount when the use of the property changes from owner-occupied to investment property.

### (11) Investment property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services, or for administrative purposes. Investment property is measured at cost on initial recognition, and subsequently at cost, less accumulated depreciation and accumulated impairment losses. Depreciation expense is calculated based on the depreciation method, useful life, and residual value which are the same as those adopted for property, plant and equipment.

Any gain or loss on disposal of an investment property (calculated as the difference between the net proceeds from disposal and the carrying amount) is recognized in profit or loss.

Rental income from investment property is recognized as non-operating income on a straight line basis over the term of the lease.

### (12) Leases

### A. Identifying a lease

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

- (a) the contract involves the use of an identified asset this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified; and
- (b) the Group has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- (c) the Group has the right to direct the use of an asset if either:
  - i. the Group has the right to the direct use of the identified asset when it has the decision-making rights that are most relevant to the changes on how and for what purpose the asset is used throughout the period.
  - ii. the decision on how, and for what purpose, the asset is used is predetermined,
    - (i) the Group has the right to operate the asset, without the supplier having the right to change those operating instructions; or
    - (ii) the Group designed the asset in a way that predetermines how, and for what purpose, it will be used.

At inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices. However, for the leases of land and buildings in which it is a lessee, the Group has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

B. As a lessee

The Group recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be reliably determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

(a) fixed payments (including in-substance fixed payments);

- (b) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- (c) amounts expected to be payable under a residual value guarantee; and
- (d) payments for purchase or termination options that are reasonably certain to be exercised.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when:

- (a) there is a change in future lease payments arising from the change in an index or rate; or
- (b) there is a change in the Group's estimate of the amounts expected to be payable under a residual value guarantee; or
- (c) there is a change in the assessment regarding the purchase option; or
- (d) there is a change in the assessment on whether the Group will exercise an extension or a termination option; or
- (e) there is any lease modifications

When the lease liability is remeasured, other than lease modification, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

When the lease liability is remeasured to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease, the Group accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize in profit or loss any gain or loss relating to the partial or full termination of the lease.

The Group has elected not to recognize the right-of-use assets and lease liabilities for its offices, which qualify as short-term leases, as well as its other equipments, which qualify as short-term leases and low-value asset leases. The relevant lease payments and is recognized in expense on a straight-line basis during the lease period.

As a practical expedient, the Group elects not to assess whether all rent concessions that meets all the following conditions are lease modifications or not:

- (a) the rent concessions occurring as a direct consequence of the COVID-19 pandemic;
- (b) the change in lease payments that resulted in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- (c) any reduction in lease payments that affects only those payments originally due on, or before, June 30, 2022; and
- (d) there is no substantive change in other terms and conditions of the lease.

In accordance with the practical expedient, the effect of the change in the lease liability is reflected in profit or loss in the period in which the event or condition that triggers the rent concession occurs.

C. As a lessor

When the Group acts as a lessor, it determines at lease commencement whether each lease is a finance lease or an operating lease. To classify each lease, the Group makes an overall assessment of whether the lease transfers to the lessee substantially all of the risks and rewards of ownership incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then the lease is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

If an arrangement contains lease and non-lease components, the Group applies IFRS 15 to allocate the consideration in the contract.

- (13) Intangible assets
  - A. Research and development

Expenditure on research activities is recognized in profit or loss as incurred.

Development expenditure is capitalized only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and the Group intends to, and has sufficient resources to, complete development and to use or sell the asset. Otherwise, it is recognized in profit or loss as incurred. Subsequent to initial recognition, development expenditure is measured at cost, less accumulated amortization and any accumulated impairment losses.

Other intangible assets that are acquired by the Group and have finite useful lives are measured at cost less accumulated amortization and any accumulated impairment losses.

B. Subsequent expenditure

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. Other expenditure is recognized in profit or loss as incurred.

C. Amortization

Amortization is calculated over the cost of the asset, less its residual value, and is recognized in profit or loss on a straight-line basis over 1 to 5 years for intangible assets.

Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

#### (14) Impairment of non-financial assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than inventories and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amounts are estimated.

The recoverable amounts of an asset or cash-generating unit (CGU) are the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount.

#### (15) Provisions

A provision is recognized if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

A provision for warranties is recognized when the underlying products are sold. The provision is based on historical warranty data.

(16) Revenue from contract with customers

Revenue is measured based on the consideration to which the Group expects to be entitled in exchange for transferring goods or services to a customer. The Group recognizes revenue when it satisfies a performance obligation by transferring control of a good or a service to a customer. The accounting policies for the Group's main types of revenue are explained below:

A. Sale of goods

The Group recognizes revenue when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Group has objective evidence that all criteria for acceptance have been satisfied.

When the Group offers volume discounts to its customers, revenue from these sales is recognized based on the price specified in the contract, net of the estimated volume discounts. Accumulated experience is used to estimate the discounts, using the expected value method, and revenue is only recognized to the extent that it is highly probable that a significant reversal will not occur. A refunded liability is recognized for expected volume discounts payable to customers in relation to sales made. No element of financing is deemed present as the sales are made with a credit term, which is consistent with the market practice.

The Group reduces revenue by the amounts of expected returns and recognizes a refund liability and a right to the returned goods. Accumulated experience is used to estimate such returns at the time of sale at a portfolio level (expected value method). Because the number of products returned has been steady for years, it is highly probable that a significant reversal in the cumulative revenue recognized will not occur. At each reporting date, the Group reassesses the estimated amounts of expected returns.

The Group's obligation to provide a refund for faulty product under the standard warranty terms is recognized as a provision for warranty; please refer to note 6(11).

A receivable is recognized when the goods are delivered as this is the point in time that the Group has a right to an amount of consideration that is unconditional.

#### B. Rendering of services

Some of the manufacturing and sales contracts of the Group include pre-production activities such as researching, developing, designing and testing of new products. Revenue from providing services is recognized in the accounting period in which the services are rendered. For fixed-price contracts, revenue is recognized based on the actual service provided to the reporting date as a proportion of the total services to be provided.

Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by management. In case of fixed-price contracts, the customer pays the fixed amounts based on a payment schedule. If the services rendered by the Group exceed the payment, a contract asset is recognized. If the payments exceed the services rendered, a contract liability is recognized.

If the contract includes an hourly fee, revenue is recognized in the amounts to which the Group has a right to invoice. Customers are invoiced on a monthly basis and a consideration is payable when invoiced.

C. Financing components

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Group does not adjust any of the transaction prices for the time value of money.

#### (17) Government grants

Government grants are recognized as deferred income at fair value and then be recognized in profit on a straight-line basis if there is reasonable assurance that they will be received and the Group will comply with the conditions associated with the grant.

### (18) Employee benefits

A. Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided.

B. Defined benefit plans

The Company's net obligation in respect of defined benefit plans is calculated separately for each the plan by estimating the amounts of future benefit that employees have earned in the current and prior periods, discounting that amounts and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income, and accumulated in retained earnings within equity. The Company determines the net interest expense on the net defined benefit liability for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability. Net interest expense and other expenses related to defined benefit plans are recognized in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit or loss. The Company recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

C. Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amounts expected to be paid if the Company has a present legal or constructive obligation to pay this amounts as a result of past service provided by the employee and the obligation can be estimated reliably.

#### (19) Share-based payment transactions

The grant-date fair value of equity-settled share-based payment arrangements granted to employees is generally recognized as an expense, with a corresponding increase in equity, over the vesting period of the awards. The amounts recognized as an expense is adjusted to reflect the number of awards for which the related service and non-market performance conditions are expected to be met, such that the amounts ultimately recognized is based on the number of awards that meet the related service and non-market performance.

For share-based payment awards with non-vesting conditions, the grant-date fair value of the sharebased payment is measured to reflect such conditions, and there is no true-up for differences between the expected and the actual outcomes.

#### (20) Income tax

Income taxes comprise current taxes and deferred taxes. Except for expenses related to business combinations or recognized directly in equity or other comprehensive income, all current and deferred taxes shall be recognized in profit or loss.

The Group has determined that the global minimum top-up tax – which it is required to pay under Pillar Two legislation – is an income tax in the scope of IAS 12. The Group has applied a temporary mandatory relief from deferred tax accounting for the impacts of the top-up tax and accounts for it as a current tax when it is incurred.

Current taxes comprise the expected tax payables or receivables on the taxable profits (losses) for the year and any adjustment to the tax payable or receivable in respect of previous years. The amounts of current tax payables or receivables are the best estimate of the tax amounts expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred taxes arise due to temporary differences between the carrying amounts of assets and liabilities for reporting purposes and their respective tax bases. Deferred taxes are recognized except for temporary differences related to investments in subsidiaries to the extent that the Group is able to control the timing of the reversal of the temporary differences, and it is probable that they will not reverse in the foreseeable future.

Deferred taxes are measured at tax rates that are expected to be applied to temporary differences when they reserve, using tax rates enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities may be offset against each other if the following criteria are met:

- A. The entity has the legal right to settle tax assets and liabilities on a net basis; and
- B. the taxing of deferred tax assets and liabilities fulfills one of the scenarios below:
  - (a) levied by the same taxing authority; or
  - (b) levied by different taxing authorities, but where each such authority intends to settle tax assets and liabilities (where such amounts are significant) on a net basis every year of the period of expected asset realization or debt liquidation, or where the timing of asset realization and debt liquidation is matched.

Deferred tax assets are recognized for the unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which the can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realized; such reductions are reversed when the probability of future taxable profits improves.

### (21) Earnings per share

The Group discloses the Company's basic and diluted earnings per share attributable to ordinary shareholders of the Company. The calculation of basic earnings per share is based on the profit attributable to the ordinary shareholders of the Company divided by the weighted-average number of ordinary shares outstanding. The calculation of diluted earnings per share is based on the profit attributable to ordinary shareholders of the Company, divided by the weighted-average number of ordinary shares outstanding after adjustment for the effects of all dilutive potential ordinary shares, such as convertible bonds payable, unvested restricted stock awards and employee remuneration through the issuance of shares.

#### (22) Operating segment information

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the Group). Operating results of the operating segment are regularly reviewed by the Group's chief operating decision maker to make decisions about resources to be allocated to the segment and to assess its performance. Each operating segment consists of standalone financial information.

#### 5. Material accounting assumptions and judgments, and major sources of estimation uncertainty

The preparation of the consolidated financial statements in conformity with the Regulations and the IFRSs endorsed by the FSC requires management to make judgments, estimations and assumptions that affect the application of the accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimations.

Management continues to monitor the accounting estimations and assumptions. Management recognizes any changes in the accounting estimations during the period in which the estimates are revised and in any future periods affected.

#### Valuation of inventories

Inventories are stated at the lower of cost or net realizable value, and the Group uses judgments and estimates to determine the net realizable value of inventory for obsolescence and unmarketable items at the reporting date. It also writes down the cost of inventories to net realizable value. The net realizable value of the inventory is mainly determined based on the assumptions of the estimated selling price of the products within a specific time horizon. However, due to the rapid industrial transformation, the above estimation may have a significant change. Please refer to note 6(3) for further description of the valuation of inventories.

The Group's accounting policies and disclosures include the fair value measurement for financial assets and liabilities. The Group determines the fair value using the independent data sources which reflect the current market condition and confirming the data available are independent, reliable, in consistent with other sources and represent the exercisable price. The Group also periodically assesses the evaluation model, performs retrospective tests, and updates inputs together with any other necessary fair value adjustment for the evaluation model in order to ensure the reasonableness of the results of the valuation.

The Group evaluates the assets and liabilities using the observable market inputs. The hierarchy of the fair value depends on the valuation techniques used and is categorized as follows:

Level 1: quoted prices (unadjusted) in active markets for identified assets or liabilities.

- Level 2: inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

For the assumption used in fair value measurement, please refer to note 6(23) of the financial instruments.

### 6. Explanation of significant accounts

(1) Cash and cash equivalents

|                                          | De | December 31,<br>2022 |           |
|------------------------------------------|----|----------------------|-----------|
| Cash, cash in bank and checking deposits | \$ | 3,817,868            | 3,798,923 |
| Time deposits                            |    | 4,243,236            | 483,880   |
|                                          | \$ | 8,061,104            | 4,282,803 |

Please refer to note 6(23) for the disclosure of foreign currency risk of the financial assets and liabilities.

### (2) Financial assets

A. Financial assets at fair value through other comprehensive income (FVOCI):

Equity instruments at FVOCI

|                         | December 31,<br>2023 |         |  |
|-------------------------|----------------------|---------|--|
| Current:                |                      |         |  |
| Domestic listed stocks  | \$<br>2,907,931      | 911,734 |  |
| Non-current:            |                      |         |  |
| Foreign unlisted stocks | \$<br>56,724         | 89,179  |  |

These investments in equity instruments not held for trading, and therefore, are accounted for as FVOCI.

The Group sold its shares in NeWave Sensor Solutions, LLC at a fair value of \$50,494 in the third quarter of 2023, resulting in a gain of \$19,044 that was reclassified from other comprehensive income to retained earnings.

B. Notes receivable, accounts receivable (including related parties), net:

|                                             | December 31,<br>2023 |            | December 31,<br>2022 | January 1,<br>2022 |

| Notes receivable                            | \$                   | 525,897    | 15,028               | 504,109            |
| Accounts receivable                         |                      | 22,628,665 | 21,994,882           | 14,779,988         |
| Accounts receivable from<br>related parties |                      | 146,213    | 75,485               | 207,520            |
|                                             |                      | 23,300,775 | 22,085,395           | 15,491,617         |
| Less: loss allowance                        |                      | (316,292)  | (377,230)            | (87,908)           |
|                                             | \$                   | 22,984,483 | 21,708,165           | 15,403,709         |

The Group applies the simplified approach to provide for its loss allowance used for expected credit loss, which permit the use of lifetime expected loss provision for its receivables. To measure the expected credit loss, receivables have been grouped based on the shared credit risk characteristics and the days past due, as well as incorporated forward looking information, including macroeconomic and relevant industry information. The expected loss allowance was determined as follows:

|                                            | Not<br>past due      |           |       | Past due<br>91 to 180<br>days | Past due<br>more than<br>181 days | Total      |

Investment property comprises buildings that are leased to third parties under operating leases, including properties that are held as right-of-use assets, as well as properties that are owned by the Company. The property is reclassified from property, plant and equipment to investment property based on its book value at the time of change of use. For related information (including rental income and direct operating expenses incurred), please refer to note 6(14).

The fair value measurement of investment property is calculated using the replacement cost method and income approach. The replacement cost method is measured by the construction costs for reconstructing the same building using the identical or similar building materials of the original building, less the accumulated depreciation of the building. Income approach determines the fair value of the investment property based on the aggregate of the expected future cash flows and the associated profit and period-end value for each period, adjusted by using the appropriate discount rates. The fair value measurement for the investment properties has been categorized as a Level 3 fair value based on the input to the valuation technique used.

As of December 31, 2023, the Group's investment properties were not pledged as collateral.

Please refer to note 6(23) for the disclosure of interest risk and liquidity risk.

C. Government low interest loans

As of December 31, 2023 and 2022, the accumulated amounts of preferential interest rate loans from the banks by the Company under the "Action Plan for Welcoming Overseas Taiwanese Businesses to Return to Invest in Taiwan" were \$3,652,700 and \$2,628,400, respectively. The difference between the recognized loan calculated using the market interest rate, and the actual repayment preferential interest rate measured in accordance with the government grants, had been recognized as deferred income. Please refer to note 6(10). If the Company fails to meet the conditions in the above project during the loan period, with the National Development Fund terminating the grants, the Company shall pay the original interest rate, plus the annual interest rate.

(10) Deferred income

|                  | For the years ended December 31, |       |        |
|------------------|----------------------------------|-------|--------|
|                  | 20                               | 23    | 2022   |
| Interest expense | \$                               | 9,910 | 12,466 |

The Company issued 28,000 shares of three year unsecured convertible bonds with 0% interest rate in Taiwan on June 27, 2022, each with a face value of \$100,000 and an effective interest rate of 0.93% on the original debt component.

The conversion price was \$74.5 per share at the time of issuance. The conversion price would be adjusted according to the formula stated in provisions of issuance if the conversion price of the Company's ordinary shares is adjusted in accordance with the terms of issuance. The convertible bond was issued without replace clause. As the distribution of cash dividends, the above conversion price was adjusted down to \$68.5 per share since July 18, 2023; and as the capital increase by cash, the above conversion price was adjusted down to \$67.2 per share since November 30, 2023.

From the day following the 3rd month after the issuance date (September 28, 2022) to the 40th day before the maturity date (May 18, 2025), if the outstanding balance of the convertible bonds is less than 10% of the total face value of the bonds, the Company may redeem the outstanding bonds within 5 business days after the call date of the bonds by cash at the face value of the bonds.

Except for the conversion of the convertible bonds into the Company's ordinary shares by the holders of the bond, or the early redemption of the bonds by the Company in accordance with this regulation, or the cancellation of the bonds by the Company through purchase from the securities company, the Company will repay 100% of the face value of the bonds in cash at maturity.

### (13) Lease liabilities

The carrying amounts of lease liabilities were as follows:

|             | December 31,     | December 31, |  |
|-------------|------------------|--------------|--|
|             | 2023             | 2022         |  |
| Current     | \$ <u>45,004</u> | 55,615       |  |
| Non-current | \$1,530,330      | 1,554,544    |  |

For the maturity analysis, please refer to note 6(23).

The amounts recognized in profit or loss were as follows:

| For the years ended December 31. |        |                                              |
|----------------------------------|--------|----------------------------------------------|
|                                  | 2023   | 2022                                         |
| \$                               | 18,211 | 18,386                                       |
| \$                               | 56,816 | 68,904                                       |
| \$                               | 4,086  | 3,197                                        |

The amounts recognized in the statement of cash flows for the Company were as follows:

|                               | For the years ended December 31, |         |         |
|-------------------------------|----------------------------------|---------|---------|
|                               |                                  | 2023    | 2022    |
| Total cash outflow for leases | \$                               | 141,664 | 147,044 |

A. Real estate leases

The Group leases land and buildings for its office spaces and staff dormitory. The leases of land typically run for 20 to 50 years, and the office spaces and staff dormitory for 2 to 5 years. Some leases include an option to renew the lease for an additional period of the same duration after the end of the contract term.

The Group sub-leases some of its right-of-use assets under operating leases. Please refer to note 6(14).

Some leases of land and office spaces contain extension options exercisable. These leases are negotiated and monitored by local management, and accordingly, contain a wide range of different terms and conditions. The extension options held are exercisable only by the Group and not by the lessors. In which lessee is not reasonably certain to use an optional extended lease term, payments associated with the optional period are not included within lease liabilities.

The lease payment of the land contract depends on the assessed present value setting by the local district, and the additional construction cost incurred once a year of the public facilities is settled after amortization Management adjustment.

#### B. Other leases

The Group leases other equipment, with lease terms of 3 to 4 years. In some cases, the Group has options to purchase the assets at the end of the contract term.

In addition, the Group has elected not to recognize the right-of-use assets and lease liabilities for its office spaces and other equipment, which qualifies as short-term leases and low-value asset leases.

### (14) Operating lease

The investment property leased out by the Company has been classified as operating leases, because it does not transfer substantially all of the risks and rewards incidental to the ownership of the assets. Please refer to note 6(7) that sets out information about the operating leases of investment property.

A maturity analysis of lease payments, showing the undiscounted lease payments to be received after the reporting date, are as follows:

|                                   | Dec | ember 31,<br>2023 |
|-----------------------------------|-----|-------------------|
| Less than one year                | \$  | 107,070           |
| One to two years                  |     | 4,461             |
| Total undiscounted lease payments | \$  | 111,531           |

In 2023, the rental income, and the direct expenses (including repairs and maintenance), generated from investment property amounted to \$53,535 and \$626 respectively.

### (15) Employee benefits

### A. Defined benefit plans

The present value of the defined benefit obligation and the fair value adjustments of the plan assets for the Company were as follows:

|                                                 | Dee | cember 31,<br>2023 | December 31,<br>2022 |  |
|-------------------------------------------------|-----|--------------------|----------------------|--|
| Present value of the defined benefit obligation | \$  | 338,914            | 330,697              |  |
| Fair value of plan assets                       |     | (209,202)          | (205,973)            |  |
| Net defined benefit liabilities                 | \$  | 129,712            | 124,724              |  |

The Company makes defined benefit plan contributions to the pension fund account at Bank of Taiwan that provides pensions for employees upon retirement. The plans (covered by the Labor Standards Law) entitle a retired employee to receive an annual payment based on years of service and average salary for the six months prior to retirement.

#### Composition of plan assets (a)

The Company allocates pension funds in accordance with the Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund, and such funds are managed by the Bureau of Labor Funds, Ministry of Labor (hereinafter referred to as the Bureau of Labor Funds). Minimum earnings shall be no less than the earnings attainable from two-year time deposits with interest rates offered by local banks.

The Company's Bank of Taiwan labor pension reserve account balance amounted to \$209,202 as of December 31, 2023. For information on the utilization of the labor pension fund assets including the asset allocation and yield rate of the fund, please refer to the website of the Bureau of Labor Funds.

Movements in the present value of the defined benefit obligation (b)

The movements in the present value of the defined benefit obligation of the Company for the years ended December 31, 2023 and 2022 were as follows:

|                                                                                             | For the years ended December 3 |         |          |  |

| Fair value of plan assets as of December 31                            | \$                               | 209,202 | 205,973 |  |

(d) Expenses recognized in profit or loss

The Company's expenses recognized in profit or losses for the years ended December 31, 2023 and 2022, were as follows:

|                                                     | For the years ended December 31 |       |       |  |
|-----------------------------------------------------|---------------------------------|-------|-------|--|
|                                                     |                                 | 2023  | 2022  |  |
| Current service costs                               | \$                              | 621   | 882   |  |
| Net interest on the net defined benefit liabilities |                                 | 2,125 | 1,058 |  |
|                                                     | \$                              | 2,746 | 1,940 |  |

(e) Remeasurements of the net defined benefit liabilities recognized in other comprehensive income

The Company's remeasurements of the net defined benefit liabilities recognized as accumulated in other comprehensive income for the years ended December 31, 2023 and 2022 were as follows:

|                                      | For the years ended December 31, |           |           |  |
|--------------------------------------|----------------------------------|-----------|-----------|--|
|                                      |                                  | 2023      | 2022      |  |
| Cumulative amounts as of January 1   | \$                               | (215,415) | (257,986) |  |
| Recognized for the period            |                                  | (8,909)   | 42,571    |  |
| Cumulative amounts as of December 31 | \$                               | (224,324) | (215,415) |  |

(f) Actuarial assumptions

The following are the Company's significant actuarial assumptions of the present value of the defined benefit obligation at the reporting date:

|                             | December 31,<br>2023 | December 31, 2022 |
|-----------------------------|----------------------|-------------------|
| Discount rate               | 1.625 %              | 1.750 %           |
| Future salary increase rate | 5.000 %              | 5.000 %           |

The Company expects to make a contribution of \$7,309 to its defined benefit plans in the following year, beginning December 31, 2023.

The weighted-average duration of the defined benefit obligation is 13.18 years.

#### (g) Sensitivity analysis

If there is a change in the actuarial assumptions as of the December 31, 2023 and 2022 the impact on the defined benefit obligation would be as follows:

|                             | Impact on the defined benefit<br>obligation |           |                |  |  |
|-----------------------------|---------------------------------------------|-----------|----------------|--|--|
|                             | Incre                                       | ase 0.25% | Decrease 0.25% |  |  |
| December 31, 2023           |                                             |           |                |  |  |
| Discount rate               | \$                                          | (8,937)   | 9,272          |  |  |
| Future salary increase rate |                                             | 8,801     | (8,526)        |  |  |
| December 31, 2022           |                                             |           |                |  |  |
| Discount rate               | \$                                          | (9,285)   | 9,666          |  |  |
| Future salary increase rate |                                             | 9,190     | (8,885)        |  |  |

Reasonably possible changes to one of the relevant actuarial assumptions on the reporting date, holding other assumptions remain constant, would have affected the defined benefit obligation by the amounts shown above. In practical, the relevant actuarial assumptions are correlated to each other.

The approach used in recognizing the net defined liability in the balance sheets is the same as the one used in developing the sensitivity analysis and the relevant actuarial assumptions in the current and previous years.

B. Defined contribution plans

In accordance with the provisions of the Labor Pension Act, the Company should contribute 6% of its employees' monthly wages to their labor pension personal accounts of the Bureau of Labor Insurance, Ministry of Labor (hereinafter referred to as the Bureau of Labor Insurance). Under this defined contribution plan, the Company contributes a fixed amount to the Bureau of Labor Insurance without additional legal or constructive obligations. The total pension costs of the Group's overseas subsidiaries under their respective defined contribution plan are recognized in accordance with their local regulations.

The Group's pension costs under the defined contribution plan were \$370,641 and \$338,393 for the years ended December 31, 2023 and 2022, respectively.

### (16) Income tax

A. Income tax expense:

The amounts of income tax expense (benefit) for the years ended December 31, 2023 and 2022 were as follows:

|                                                   | For the years ended December 3 |           |           |  |  |
|---------------------------------------------------|--------------------------------|-----------|-----------|--|--|

### C. Deferred tax assets and liabilities

(a) Unrecognized deferred tax liabilities

As of December 31, 2023 and 2022, the temporary differences associated with investments in subsidiaries were not recognized as deferred income tax liabilities as the Company has the ability to control the reversal of these temporary differences which are not expected to reverse in the foreseeable future.

|                                                                                     | December 31,<br>2023 | December 31,<br>2022 |
|-------------------------------------------------------------------------------------|----------------------|----------------------|
| The temporary differences associated with investments in subsidiaries (tax amount): |                      |                      |
| Unrecognized deferred tax liabilities                                               | \$ <u>(851,270</u> ) | (788,078)            |

(b) Recognized deferred tax assets and liabilities

Deferred tax assets:

- D. The Company's tax returns have been examined by the tax authorities through 2020.
- (17) Capital and other equity interest
  - A. Issuance and cancellation of ordinary shares

As of December 31, 2023 and 2022, the authorized capital of the Company amounted to \$8,000,000, both of which included the amount of \$250,000 reserved for employee share options; the issued capital amounted to \$4,824,441 and \$3,958,091 respectively.

For the year ended December 31, 2020, the Company redeemed the restricted stocks awarded to its employees due to failure in meeting their performance indicators. As of December 31, 2023, the Company redeemed and cancelled 223 thousand shares of restricted stock awarded to its employees, wherein the registration procedures have been completed during the same period. Moreover, as of December 31, 2022, the Company redeemed and cancelled 763 thousand and 750 thousand shares of restricted stock, respectively, awarded to its employees, wherein the registration procedures of the cancelled shares have been completed as of December 31, 2023, except for the remaining 13 thousand shares, which have yet to be completed, and the amount has been recorded as share capital awaiting retirement. In addition, the Company issued 9,982 thousand shares of restricted stock awarded to its employees for the year ended December 31, 2023.

For the year ended December 31, 2023, the Company issued 30,048 thousand shares at face value due to the exercise of the right to convert corporate bonds; except for the 2,132 thousand shares, which have been recorded as capital collected in advance, the relevant registration procedures for the remaining 27,916 thousand shares have been completed during the same period. For the year ended December 31, 2022, the Company issued 8,974 thousand shares at face value due to the exercise of the right to convert corporate bonds, wherein the relevant registration procedures have yet to be and have been completed as of December 31, 2022 and 2023, respectively, resulting in the amount to be reclassified from capital collected in advance to ordinary share capital.

The Company conducted a cash capital increase by issuing 40,000 thousand shares, at a face value and an issuance price of \$10 and \$106 per share, respectively, amounting to \$4,235,000 thousand (after deducting the total issuance cost), with the base date set on November 30, 2023, based on a resolution approved by the Board of Directors on May 10, 2023 and FSC (with Ruling No. 1120356180) on September 28, 2023. All registration procedures have been completed as of the reporting date. In addition with the regulations, the Company recognises the cash capital increase as a remuneration cost of \$87,500 thousand for the retained shares subscribed by the employees.

#### B. Capital surplus

The Company's capital surplus was as follows:

|                                     | December 31,<br>2023 |            | December 31,<br>2022 |
|-------------------------------------|----------------------|------------|----------------------|
| Capital surplus – premium           | \$                   | 6,857,951  | 2,837,961            |
| Convertible bonds payable – premium |                      | 3,740,040  | 1,898,203            |
| Treasury stock sold to employees    |                      | 100,454    | 100,454              |
| Due to donated assets received      |                      | 150        | 128                  |
| Capital surplus from merger         |                      | 36,653     | 36,653               |

| Employee share options              |                      | 5,575      |                      |
|                                     | \$                   | 11,905,097 | 5,129,386            |

~ 4

In accordance with the R.O.C. Company Act, the capital surplus generated from the premium of stock issuance and donation may only be used to offset accumulated deficits. In addition, when the Company incurred no deficit, such capital surplus may be distributed as cash or stock dividends. Pursuant to the R.O.C. Regulations Governing the Offering and Issuance of Securities Issuers, the total sum of the capital surplus capitalized per annum shall not exceed 10% of the paid-in capital.

#### C. Retained earnings

(a) Legal reserve

If the Company incurs no loss, the reserve may be distributed as cash or stock dividends for the portion in excess of 25% of the paid-in capital.

(b) Special reserve

By choosing to apply exemptions granted under IFRS 1 during the Company's first-time adoption of the IFRSs endorsed by the FSC, cumulative translation adjustments under shareholders' equity shall be reclassified as retained earnings at the adoption date. The increase in retained earnings occurring before the adoption date due to the first-time adoption of IFRS Accounting Standards endorsed by the FSC amounted to \$136,043. In accordance with Ruling No. 1010012865 issued by the FSC on April 6, 2012, a net increase in retained earnings due to the first-time adoption of the IFRSs endorsed by the FSC shall be reclassified as a special reserve during earnings distribution, and when the relevant asset is used, disposed of, or reclassified, this special reserve shall be reversed as distributable earnings proportionately. The carrying amounts of special reserve amounted to \$108,123 as of December 31, 2023 and 2022.

In accordance with the guidelines of the above Ruling, a portion of current-period earnings and undistributed prior-period earnings shall be reclassified as a special reserve during earnings distribution. The amounts to be reclassified should be equal to the difference between the total net current-period reduction of special reserve resulting from the first time adoption of the IFRSs endorsed by the FSC and the carrying amounts of other shareholders' equity as stated above. Similarly, a portion of undistributed priorperiod earnings shall be reclassified as a special reserve (which does not qualify for earnings distribution) to account for cumulative changes to other shareholders' equity pertaining to prior periods due to the first-time adoption of the IFRSs endorsed by the FSC. Amounts of subsequent reversals pertaining to the net reduction of other shareholders' equity shall qualify for additional distributions. Pursuant to the meeting held on June 7, 2023 and June 10, 2022, respectively, the shareholders' Company appropriated (reversed) its of shareholders' equity amounting to \$(197,092) and \$82,620, respectively, as special reserve.

(c) Earnings distribution

According to the Company's Articles of Incorporation, if the Company shows a year-end earnings, it shall first pay miscellaneous taxes and make up any accumulated losses. Thereafter, a 10% appropriation of the remaining amount shall be set aside for legal reserve, unless the amount in the legal reserve is already equal to or greater than the total paid-in capital. Thereafter, an amount shall be set aside or reversed as a special reserve in accordance with related laws, regulations, or provisions of the competent authorities. Distribution of the remaining profit after setting aside the abovementioned amounts, together with the balance of the unappropriated retained earnings of the previous year, with no less than 10% as dividends to shareholders, shall be proposed by the Board of Directors to be approved at the shareholders' meeting.

The following are the appropriations of earnings in 2022 and 2021 which were approved by the shareholders' meeting held on June 7, 2023 and June 10, 2022, respectively:

|                            | 2022 |                           | 2021            |                              |                 |
|----------------------------|------|---------------------------|-----------------|------------------------------|-----------------|
|                            |      | ount per<br>share<br>TWD) | Total<br>amount | Amount<br>per share<br>(TWD) | Total<br>amount |
| Appropriation of earnings: |      |                           |                 |                              |                 |
| Legal reserve              |      |                           | 315,577         |                              | 118,287         |
| Special reserve            |      |                           | (197,092)       |                              | 82,620          |
| Cash dividends             | \$   | 4.8414                    | 2,024,042       | 2.1001                       | 832,551         |
|                            |      | \$                        | 2,142,527       |                              | 1,033,458       |

The appropriation of retained earnings is consistent with the resolutions approved by the Board of Directors. The related information is available on the Market Observation Post System website.

The appropriation of earnings in 2023 proposed by the Board of Directors on March 6, 2024, is to be presented for approval in annual shareholders' meeting. The related information will be available on the Market Observation Post System website after the resolution meeting.

#### (18) Share-based payment

A. Information about the Company's equity-settled share-based payment transactions for the years ended December 31, 2023 and 2022, was as follows:

| Adjusted exercise price<br>(TWD) | 0                | 0              | 106                                                               |

Note: Employees are entitled to receive restricted stock in the first, second and third year (from the grant date) of their service. The restricted stock awards will be granted only if the overall performance target and the personal performance target are reached.

#### B. Restricted stock awards

Pursuant to the resolutions made during the shareholders' meeting hold on June 5, 2019, the Company issued the restricted stock awards to those full-time employees who conformed to the Company's requirements. These restricted stock awards have been registered and approved by the Securities and Futures Bureau of the FSC. On May 11, 2020, the Board of Directors approved a resolution to issue 7,400 thousand shares of restricted stock awards to its employees, with the effective date of the capital increase set on August 3, 2020.

Pursuant to the resolutions made during the shareholders' meeting hold on June 7, 2023, the Company issued the restricted stock awards to those full-time employees who conformed to the Company's requirements. These restricted stock awards have been registered and approved by the Securities and Futures Bureau of the FSC. On November 1, 2023, the Board of Directors approved a resolution to issue 9,982 thousand shares of restricted stock awards to its employees, with the effective date of the capital increase set on December 5, 2023. The related registrations of the increase of share capital have already been completed. Unless the vesting conditions have been met, the restricted stock awards may not be sold, pledged, transferred, hypothecated or otherwise disposed of. Holders of restricted stock awards are entitled to the same rights as the Company's existing ordinary shareholders, except for those restricted stock awards are held in trust and have vesting conditions. Also, the Company has the right to take back all unvested shares without compensation and to cancel all restricted stock awards issued to employees who fail to comply with the vesting condition.

For the years ended December 31, 2022, 763 thousand shares of the restricted stock awards issued to employees on August 3, 2020 have expired, and therefore, were cancelled, resulting in the amount of \$7,626 to be recognized as the capital surplus.

For the years ended December 31, 2023, 223 thousand shares of the restricted stock awards issued to employees on August 3, 2020 have expired, and therefore, were cancelled, resulting in the amount of \$2,233 to be recognized as the capital surplus. As the vesting period ended in 2023, the Company decided to retrieve its restricted stock awards for its employees who failed to meet certain requirements, as well as its cash dividends of \$674, which was generated from the above-mentioned restricted stock awards and was recognized as retained earnings.

As of December 31, 2023 and 2022, the Company has deferred the compensation cost arising from the issuance of restricted stock awards amounting to \$1,157,813 and \$75,328, respectively. Such deferred amounts were recorded as deduction of other equity.

C. The Company used Black-Scholes method in measuring the fair value of the share-based payment at the grant date. The measurement inputs were as follows:

|                             | 2023                                                     |

The Company conducted a cash capital increase by issuing 40,000 thousand shares, with the approval of the Board of Directors on May 10, 2023. Moreover, 12.5% of the above new shares to be issued, which consisted of 5,000 thousand shares, will be preferentially subscribed by the employees of the Company in accordance with the Article 267 of the Company Act. If the employees waived the amount of shares subscription or undersubscribed, the Chairman of the Board will be authorized to negotiate with specific persons to subscribe for the remaining shares. In accordance with the provisions of IFRS2 "Share Based Payment", the Company shall measure the fair value of the equity commodities granted on the date of payment at \$17.5 per share, amounting to \$87,500 thousand, to be recognized as a remuneration cost at the grant date.

For details on notes and accounts receivable and loss allowance, please refer to note 6(2).

The change in the balance of contract liabilities is the difference between the time frame in the performance obligation to be satisfied and the payment to be received.

The amounts of revenue recognized for the years ended December 31, 2023 and 2022, that were included in the contract liability balance at the beginning of the period were \$705,694 and \$469,536, respectively.

(21) Remuneration to employees and directors

The Company's Articles of Incorporation require that profits (income before tax, excluding remuneration to employees and directors) shall first be used to offset against any deficit, and the remainder, if any, should be distributed as follows:

- A. No less than 5%, by shares or in cash, as employee remuneration; employees of controlled companies who meet specific requirements set by the Board of Directors can also be included.
- B. No more than 1% as director's remuneration in cash to directors.

The remunerations to employees amounted to \$583,259 and \$453,224, as well as the remunerations to directors amounted to \$53,024 and \$41,202 for the years ended December 31, 2023 and 2022, respectively. These amounts were calculated using the Company's net income before tax without the remunerations to employees and directors for each period, multiplied by the percentage which is stated under the Company's Article of Incorporation. These remunerations were expensed under operating costs or expenses for each period. If there are any subsequent adjustments to the actual remuneration amounts after the Board of Directors, the adjustment will be regarded as changes in accounting estimates and will be reflected in profit or loss in the following year. There were no differences between the aforesaid amounts of employees' and directors' remuneration approved by the Board of Directors and the amounts in the consolidated financial statements of 2023 and 2022. Shares distributed to employees as employees' remuneration are calculated based on the closing price of the Company's shares on the day before the approval by the Board of Directors.

For the year ended December 31, 2022, the remunerations to employees and directors amounted to \$453,224 and \$41,202, respectively, which were both paid in cash. The appropriation of remunerations is consistent with the resolutions approved by the Board of Directors. The related information is available on the Market Observation Post System website.

### (23) Financial instruments

- A. Credit risk
  - (a) Credit risk exposure

The carrying amounts of financial assets represents the maximum amounts exposed to credit risk.

(b) Credit risk concentration

The major customers of the Group are centralized in the network communications industry. To minimize credit risk, the Group continuously evaluates the customer's financial positions, purchases a trade credit insurance and asks the counterpart to provide the guarantee or assurance, if necessary. Besides, the Group monitors and reviews the recoverable amount of the trade receivables periodically to ensure the uncollectible amount are recognized appropriately as impairment loss. As of December 31, 2023 and 2022, 45.48% and 28.23%, respectively, of trade receivables (including related parties) were concentrated on five major customers. Thus, credit risk is significantly centralized.

(c) Credit risk of receivables

For credit risk exposure of receivables, please refer to note 6(2). No loss allowances were recognized under other financial assets at amortized cost.

B. Liquidity risk

The followings are the contractual maturities of financial liabilities, including estimated interest payments but excluding the impact of netting agreements, except for notes and accounts payable (including related parties), salary and bonus payable and other accrued expenses:

|                                                                                           | Carrying<br>amount                     | Contractual<br>cash flows          | Within 1<br>year | 1~5<br>years                      | More than<br>5 years |

### (b) Sensitivity analysis

The Group's exposure to foreign currency risk arises from the translation of the foreign currency exchange gains and losses on cash and cash equivalents, receivables, short-term loans, notes and accounts payable (including related parties), and other accrued expenses that are denominated in foreign currency.

A fluctuation in the TWD/USD exchange rate on December 31, 2023 and 2022, with other factors remaining constant, would have influenced the comprehensive income for the years ended December 31, 2023 and 2022 as illustrated below:

|                   | Range of the                             |            | For the years ended December 31, |          |  |  |
|-------------------|------------------------------------------|------------|----------------------------------|----------|--|--|
|                   | fluctuations                             |            | 2023                             | 2022     |  |  |
| TWD exchange rate | Depreciation of TWD 1<br>against the USD | \$ <u></u> | (42,311)                         | (81,786) |  |  |
|                   | Appreciation of TWD 1<br>against the USD | \$         | 42,311                           | 81,786   |  |  |

### (c) Foreign exchange gains or losses on monetary items

Information on the foreign exchange gains or losses, including these realized and unrealized by the Group's monetary items, was as follows:

|     | F         | For the years ended December 31, |          |              |  |  |  |  |
|-----|-----------|----------------------------------|----------|--------------|--|--|--|--|
|     | 202       | 23                               | 202      | 22           |  |  |  |  |
|     | Foreign   |                                  | Foreign  |              |  |  |  |  |
|     | exchange  |                                  | exchange |              |  |  |  |  |
|     | gains     | Average rate                     | gains    | Average rate |  |  |  |  |
| TWD | \$206,859 | 31.16                            | 453,815  | 29.81        |  |  |  |  |

### D. Interest rate analysis

The Group's interest rate exposure regarding its financial assets and liabilities has been disclosed in the note of financial risk management.

The following sensitivity analysis is based on the exposure to interest rate risk of the derivative and non-derivative instruments on the reporting date. For variable-rate instruments, the sensitivity analysis assumes the variable-rate liabilities are outstanding for the whole year on the reporting date. The exposure to changes in interest rates (assuming all other variables are constant) would have influenced the comprehensive income for the years ended December 31, 2023 and 2022, as illustrated below:

|                      | Range of the   | For t     | he years ended | December 31, |
|----------------------|----------------|-----------|----------------|--------------|
|                      | fluctuations   |           | 2023           | 2022         |
| Annual interest rate | Increase of 1% | <u>\$</u> | (55,663)       | (59,874)     |
|                      | Decrease of 1% | \$        | 55,663         | 59,874       |

### E. Other market price risk

If the price of equity securities in the reporting date rises or falls by 1%, and the other variables remain constant, the annual other comprehensive income would have increase or decrease by \$29,533 and \$9,831 for the years ended December 31, 2023 and 2022, respectively.

- F. Fair value of financial instruments
  - (a) Categories of financial instruments and fair value

The fair value of financial assets at FVOCI is measured on a recurring basis. The Group's carrying amounts and the fair value of financial assets and liabilities (including information for fair value hierarchy, but excluding financial instruments whose fair values approximate the carrying amounts, and lease liabilities, since the disclosures of fair value are not required), were as follows:

|                                                        |                     | Dec       | ember 31, 20 | 23      |           |  |
|--------------------------------------------------------|---------------------|-----------|--------------|---------|-----------|--|
|                                                        | Carrying            |           | Fair value   |         |           |  |
|                                                        | amount              | Level 1   | Level 2      | Level 3 | Total     |  |
| Financial assets at FVOCI                              |                     |           |              |         |           |  |

(b) Valuation techniques for financial instruments not measured at fair value

The Group estimates its financial instruments not measured at fair value using the following methods and assumptions:

Fair value measurement for financial assets and financial liabilities measured at amortized cost will be based on the latest quoted price and agreed-upon price if these prices are available in active markets. When market value is unavailable, the fair value of financial assets and financial liabilities is evaluated based on the discounted cash flow of the financial assets and financial liabilities.

(c) Valuation techniques for financial instruments that are measured at fair value

The Group held its financial instruments presented as domestic listed stocks and bonds payable, which are measured at fair value according to standard provisions and conditions; the fair value is measured using the quoted prices in an active market.

Except for the above financial instruments with an active market, the Group estimated the fair value of the remaining financial instruments by using the valuation techniques or quoted price from a competitor. The valuation technique is used to arrive at their fair value, for which the market transaction prices of the similar companies and market conditions are considered.

- (d) Transfer between level 1 and level 2: None.
- (e) Reconciliation of level 3 fair values:

| Balance as of December 31, 2022                                 | \$                      | 89,179                                                               |

The total gains and losses mentioned above were recognized in "Unrealized gains or losses from investments in equity instruments measured at FVOCI".

(f) Quantified information on significant unobservable inputs (Level 3) used in fair value measurement

The Group's financial instruments that use Level 3 inputs to measure fair value include financial assets at FVOCI – equity investments.

The Group classified the equity investments without an active market as recurring level 3 fair values in the fair value hierarchy due to the use of significant unobservable inputs. The significant unobservable inputs of the equity investments without an active market are independent, therefore, there is no correlation between them.

Inter-relationship

Quantified information of significant unobservable inputs was as follows:

| Item                                                                              | Valuation<br>technique | Significant unobservable<br>inputs                                                                                                                                                                                                                                                                                                                | between significant<br>unobservable inputs<br>and fair value<br>measurement                                                                                                                                                                                                          |

### (24) Financial risk management

A. Overview

The Group is exposed to the following risks due to usage of financial instruments:

- (a) Credit risk
- (b) Liquidity risk
- (c) Market risk

This note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk. Further quantitative disclosures are included throughout these consolidated financial statements.

### B. Objectives and policies for managing risk

Other than derivative financial instruments, the main financial instruments of the Group are cash and cash equivalents that are used to maintain a balance between continuity of funding and flexibility. The other financial assets and liabilities held by the Group, include accounts receivable and payable, which are generated from operating activities.

In accordance with a reviewed policy, the Group will not engage in derivative financial instruments for the purpose of speculation.

### C. Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's cash and cash equivalents, receivables, beneficiary certificates— mutual funds, and investments.

The Group deposits its cash and cash equivalents in various creditworthy financial institutions. Beneficiary certificates that were issued by various creditworthy entities and financial institutions. As a result, the Group believes that there is no concentration of credit risk in cash and cash equivalents and beneficiary certificates.

The Group continuously evaluates the credit policy, which includes insurance limits and credit ratings of its customers. The Group performs a periodic evaluation on its uncollected accounts receivable. Before delivery it also needs to assess the creditworthy of the customers. To reduce credit risk, The Group evaluates the collectability of accounts receivable and provides adequate reserves for bad debts, if necessary.

The Group hedges the risk through financial instruments, and primarily uses selected financial instruments and specific banks. For foreign exchange instruments, the Group mainly uses spot and forward exchange contracts, and if necessary, it uses other derivative financial instruments approved by the Board of Directors.

The Group's policy is to provide financial guarantees only to wholly owned subsidiaries. For related information about endorsement guarantee, please refer to note 13.

D. Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. There is no liquidity risk of being unable to raise capital to settle contract obligations since the Group have sufficient capital and working capital to fulfill the contract obligations.

### E. Market risk

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate because of changes in market prices. Market risk comprises foreign currency risk, interest rate risk, and other price risk (such as risk related to equity instruments).

(a) Interest rate risk

Interest rate risk is the risk that the fair value of a financial instrument will fluctuate due to changes in market interest rates. The Group's exposures to risk from changes in interest rates arise primarily from the Group's bank loans with variable interest rates.

(b) Foreign currency risk

Foreign currency risk is the risk that fluctuations in foreign currency exchange rates will adversely affect the future cash flow and fair value of financial instruments. The Group's exposure to the risk of changes in foreign currency exchange rates relates primarily to the Group's operating activities (when revenue or expense is denominated in a currency different from the Group's functional currency) and the Group's net investments in foreign subsidiaries.

To achieve foreign currency risk management, the Group hedges its forecast sales and purchases over the following three months. The Group also hedges certain trades without considering limits of time.

When the nature of a hedge is not an economic one, the period of the derivatives should correspond to the period of the hedged items according to the Group's policies to maximize hedge effectiveness.

The Company holds net foreign currency borrowings to hedge the fluctuation risk arises from the translation of USD, EUR and GBP due to foreign currency transactions.

(c) Other market price risks

The Company manages equity investments, both singly and as a whole, by diversification of investments and sets a limitation on the amount of equity securities. Information on equity securities transactions within the portfolio has to be provided to the top management of the Company regularly, and all great buy and sell decisions should be reviewed and approved by the Board of Directors.

### (25) Capital management

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios to support its business and maximize owner value.

The Group is in a technology and capital-intensive industry, and to fit in with its long-term scheme for stable and long-term growth, it is critical for the Group to undertake a conservative dividend policy. According to the Company's articles of incorporation, cash dividends should not be less than 10% of the sum of cash dividends and stock dividends.

There were no changes in the Group's approach to capital management during the year ended December 31, 2023.

The Group's debt-to-capital ratio at the reporting date was as follows:

|                                 | December 31,<br>2023 |             | December 31,<br>2022 |
|---------------------------------|----------------------|-------------|----------------------|
| Total liabilities               | \$                   | 38,721,123  | 45,521,756           |
| Less: cash and cash equivalents |                      | (8,061,104) | (4,282,803)          |
| Net debt                        | \$ <u> </u>          | 30,660,019  | 41,238,953           |
| Total equity                    | \$                   | 30,491,552  | 20,356,191           |
| Debt-to-capital ratio           |                      | 100.55%     | 202.59%              |

The decrease in debt-to-capital ratio on December 31, 2023 due to the new issue of common shares and the conversion of convertible bonds to ordinary shares, resulting in increase in the Company's equity.

(26) Financing activities of non-cash transactions

The Group's investing and financing activities which did not affect the current cash flow in the years ended December 31, 2023 and 2022, were as follows:

- A. For right-of-use assets under leases, please refer to note 6(6).
- B. For conversion of convertible bonds to ordinary shares, please refer to note 6(17).
- C. Reconciliation of liabilities arising from financing activities were as follows:

|                                                                                           |    |                   |             | Non-cash o                      |                  |                   |
|-------------------------------------------------------------------------------------------|----|-------------------|-------------|---------------------------------|------------------|-------------------|
|                                                                                           | J  | anuary 1,<br>2023 | Cash flow   | Foreign<br>exchange<br>movement | Other<br>changes | December 31, 2023 |

Note: The Group disposed its entire equity interests in WQN in August 2023, resulting in WQN to become a non-related party of the Group thereafter.

### (2) Significant related-party transactions

A. Operating revenue

|                                                  | For t | the years ended | December 31, |
|--------------------------------------------------|-------|-----------------|--------------|
| <b>Related Party Categories</b>                  |       | 2023            | 2022         |
| Entity with significant influence over the Group | \$    | 1,674           | 560          |
| Other related parties                            |       | 359,827         | 271,269      |
|                                                  | \$    | 361,501         | 271,829      |

The selling prices for sales to related parties were determined by the products' fair market value, with collection terms were mainly net 90 days after delivery which were similar to those for unrelated customers.

### B. Purchases

|                                                  | For t | the years ended | December 31, |
|--------------------------------------------------|-------|-----------------|--------------|
| <b>Related Party Categories</b>                  |       | 2023            | 2022         |
| Entity with significant influence over the Group | \$    | 52,956          | 11,468       |
| Other related parties                            |       | 183,932         | 147,070      |
| Associate                                        |       | 54,941          | 87,126       |
|                                                  | \$    | 291,829         | 245,664      |

The purchasing prices for purchases from related parties were similar to those for unrelated vendors, with payment terms were mainly net 90 days after delivery and net 90 days from the end of the month of when invoice is issued, which were similar to those offered to unrelated vendors.

C. Accounts receivable from related parties

### 13. Additional disclosures:

(1) Information on significant transactions:

The following is the information on significant transactions required by the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" for the Group:

- A. Financings provided: None.
- B. Endorsement/guarantee provided: Please refer to Table 1.
- C. Marketable securities held (excluding investment in subsidiaries, associates and joint ventures): Please refer to Table 2.
- D. Marketable securities acquired and disposed of at costs or prices of at least NT\$300 million or 20% of the paid-in capital: Please refer to Table 3.
- E. Acquisition of individual real estate properties at costs of at least NT\$300 million or 20% of the paid-in capital: Please refer to Table 4.
- F. Disposal of individual real estate properties at prices of at least NT\$300 million or 20% of the paid-in capital: None.
- G. Total purchases from or sales to related parties of at least NT\$100 million or 20% of the paidin capital: Please refer to Table 5.
- H. Receivables from related parties amounting to at least NT\$100 million or 20% of the paid-in capital: Please refer to Table 6.
- I. Information about the derivative financial instruments transaction: None.
- J. The business relationship between the parent and the subsidiaries and significant transactions between them: Please refer to Table 7.
- (2) Information on investees (excluding Information on Investees in Mainland China): Please refer to Table 8.
- (3) Information on investment in Mainland China:
  - A. The names of investees in Mainland China, the main businesses and products, and other information: Please refer to Table 9(1).
  - B. Limitation on investment in Mainland China: Please refer to Table 9(2).
  - C. Significant transactions:

The significant intercompany transactions with the subsidiary in Mainland China, which were disclosed in the "Information on significant transactions".

(4) Information of major shareholder:

(Shares)

| Shaushaldar?a Nama  | Shareholding | Total Shares | Ownership<br>Democrate Sci |
|---------------------|--------------|--------------|----------------------------|
| Shareholder's Name  |              | Owned        | Percentage                 |
| Wistron Corporation |              | 96,089,042   | 19.82 %                    |

Note: Major shareholders holding 5% ownership or more.

### 14. Segment information:

(1) General information

The Group operates predominantly in one industry segment which includes the research and development, manufacture, and sale of satellite communication systems and of mobile and portable communication equipment.

The segment financial information is found in the consolidated financial statements. For sales to other than consolidated entities and income before income tax, please see the consolidated statements of comprehensive income. For assets, please see the consolidated balance sheets.

(2) Products and services information

Please refer to note 6(20) on information regarding products and geographical markets for the years ended December 31, 2023 and 2022.

(3) Geographic information

In presenting information on the basis of geography, segment revenue is based on the geographical location of customers, and non-current assets are based on the geographical location of the assets.

|                     | D  | ecember 31,<br>2023 | December 31,<br>2022 |
|---------------------|----|---------------------|----------------------|
| Non-current assets: |    |                     |                      |
| Americas            | \$ | 79,694              | 23,945               |
| Europe              |    | 107                 | 1,719                |
| Asia                |    | 13,873,602          | 12,628,995           |
|                     | \$ | 13,953,403          | 12,654,659           |

The above non-current assets include property, plant and equipment, right-of-use assets, investment property, intangible assets, and other non-current assets.

Please refer to note 6(20) for the revenues from external customers for the years ended December 31, 2023 and 2022.

(4) Major customer information:

The amounts of sales to individual customers representing greater than 10% of the revenues were as follows:

|            |                      | 2023              |           | 2022              |

Note 1: The relation between guarantor and guarantee and their endorsement should be disclosed as one of the following:

- An entity that is with business relationship.
   Subsidiary which owned more than 50 percent by the guarantor.
   An investee owned more than 50 percent in total by both the guarantor and its subsidiary.
   An investee owned more than 90 percent by the guarantor or its subsidiary.
   Fulfillment of contractual obligations by providing mutual endorsements and guarantor for peer or joint builders in order to undertake a construction project.
   An entity that is guaranteed and endorsed by all capital contributing shareholders in proportion to their shareholding percentages.
   The companies in the same industry provide among themselves joint and several securities for a performance guarantee of a sales contract for per-construction homes pursuant to the Consumer Protection Act for each other.
  - Note 2: The total amount of the endorsement/guarantee provided by the Company for any single who has, directly or indirectly, 100% voting shares of the Company shall not exceed 30% of the Company's net worth.
    - Note 3: The total amount of the endorsement/guarantee provided by the Company shall not exceed the financial statements of the Company's net worth.

### Thom D 24-• 1 H T on the Daront and the Cubridiarias and Cianifias Doloti The During

- For transaction amount accounted for as asset or hability, the ratio is calculated based on the closing balance amount of the consolidated total assets.
   For transaction amount accounted for as profit or loss, the ratio is calculated based on the accumulated amount at the end of the financial period of the consolidated total sales revenue.
- Note 4: The characters of business transactions between the parent company and its subsidiaries only disclose the sales and accounts receivable data, and the relative purchases as well as the accounts payable will not be included. Note 5: The amount of significant transaction should exceed 1 percent of the consolidated operating revenue or total assets.

### **Independent Auditors' Report**

To the Board of Directors Wistron NeWeb Corporation:

### Opinion

We have audited the parent-company-only financial statements of Wistron NeWeb Corporation(" the Company"), which comprise the parent-company-only balance sheet as of December 31, 2023 and 2022, the parent-company-only statement of comprehensive income, changes in equity and cash flows for the years then ended, and notes to the parent-company-only financial statements, including a summary of material accounting policies.

In our opinion, the accompanying parent-company-only financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2023 and 2022, and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

### **Basis for Opinion**

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Norm of Professional Ethics for Certified Public Accountant of and we have fulfilled our other ethical responsibilities in accordance with these requirement. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the parent-company-only financial statements for the year ended December 31, 2023. These matters were addressed in the context of our audit of the parent-company-only financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. Based on our judgment, the key audit matters should be reflected in our report are as follow:

1. Revenue recognition from contracts with customers

Please refer to Note 4(16) "Summary of Significant Accounting Policies – Revenue from contract with customers", and Note 6(20) "Explanation of Significant Accounts – Revenue from contracts with customers" to the parent-company-only financial statements.

Description of key audit matters:

The customers of the Company are spread globally. Due to differences in technology, markets, economy, or legal environment, the degree of control over customers is relatively complex. The timing of revenue recognition for sales may vary due to different trading terms with customers. The risk of revenue recognized in the incorrect period may arise as of the balance sheet date. Therefore, recognizing revenue at the correct time is one of the key audit matters for our audit.

How the matter was addressed in our audit:

Our principal audit procedures included: Testing the design and implementation of the main internal controls related to the timing of revenue recognition; engaging with computer auditing experts to participate in engagement planning and risk assessment and to assist in relevant tests; selecting sales transactions within the period before and after the balance sheet date to test whether revenue had been recognized in the appropriate period.

2. Valuation of Inventories

Please refer to Note 4(7) "Summary of Significant Accounting Policies – Inventories", Note 5 "Significant Accounting Assumptions and Judgments, and Major Sources of Estimation Uncertainty", and Note 6(3) "Explanation of Significant Accounts – Inventories, net" to the parent-company-only financial statements.

Description of key audit matters:

The Company mainly engages in the research and development, as well as the production of wireless communication products, wherein its inventories are measured at the lower of cost and net realizable value. Due to the rapid changes in telecommunication industry, the old models produced by the Company may quickly be replaced with new ones, resulting in a risk in which the carrying value of inventories may be higher than its net realizable value. The net realizable value of inventory, which is tentative and might be subject to significant fluctuations, is mainly determined based on the assumptions of the estimated selling price of the products within a specific time horizon. Therefore, the valuation of inventories is one of the key audit matters for our audit.

How the matter was addressed in our audit:

Our principal audit procedures included: Obtaining the inventory aging report and checking the accuracy with the general ledger; testing the accuracy of the aging of inventory based on the available documents of the last valid transaction; engaging with computer auditing experts to participate in engagement planning and risk assessment, to understand the management's method of calculating the net realizable value, and to perform testing by vouching relevant documents to the testing samples; evaluating the reasonableness of the accounting policy for inventory write-down or slow-moving provision, and making an assessment of their adequacy for aging inventories; as well as considering the appropriateness of the Company's disclosures in the accounts.

### Responsibilities of Management and Those Charged with Governance for the Parent-Company-Only Financial Statements

Management is responsible for the preparation and fair presentation of the parent-company-only financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and for such internal control as management determines is necessary to enable the preparation of parent-company-only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent-company-only financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including members of the Audit Committee) are responsible for overseeing the Company's financial reporting process.

### Auditors' Responsibilities for the Audit of the Parent-Company-Only Financial Statements

Our objectives are to obtain reasonable assurance about whether the parent-company-only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent-company-only financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

- 1. Identify and assess the risks of material misstatement of the parent-company-only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the parent-company-only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the parent-company-only financial statements, including the disclosures, and whether the parent-company-only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient and appropriate audit evidence regarding the financial information of the investment in entities accounted for using equity method to express an opinion on the parent-company-only financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the parent-company-only financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Chien-Hui Lu and Mei-Yu Tseng.

### (English Translation of Parent-Company-Only Financial Statements Originally Issued in Chinese) Wistron NeWeb Corporation

### Notes to the Financial Statements

### For the Years Ended December 31, 2023 and 2022

### (amounts expressed in Thousands of New Taiwan Dollars, except for per share information and unless otherwise noted)

### 1. Company history

Wistron NeWeb Corporation (the "Company") was founded in Hsinchu, Republic of China (R.O.C.), on December 7, 1996. The registered address of the Company's office is 20 Park Avenue II, Hsinchu Science Park, Hsinchu 308, Taiwan, R.O.C. The Company's ordinary shares were publicly listed on the Taiwan Stock Exchange on September 22, 2003.

The Company is engaged mainly in the research, development, design, testing, manufacturing and sales of wired communication equipment, wireless communication networking equipment, electronic components, regulated telecommunication radio frequency equipment, medical devices, satellite communication systems, mobile and portable communication equipment, products, components, semi-finished products and peripherals of medical testing equipment, medical diagnostic equipment, smart mobile aids, medical consumables, medical information transmission systems, Information and communications technology (ICT) products, software and hardware integration solutions information software services, data processing services, and application services of electronic data supply.

### 2. Approval date and procedures of the financial statements

The parent-company-only financial statements were authorized for issue by the Board of Directors on March 6, 2024.

### 3. New standards, amendments and interpretations adopted:

(1) The impact of the International Financial Reporting Standards ("IFRSs") endorsed by the Financial Supervisory Commission, R.O.C.("FSC") which have already been adopted.

The Company has initially adopted the following new amendments, which do not have a significant impact on its parent-company-only financial statements, from January 1, 2023:

- Amendments to IAS 1 "Disclosure of Accounting Policies"
- Amendments to IAS 8 "Definition of Accounting Estimates"
- Amendments to IAS 12 "Deferred Tax related to Assets and Liabilities arising from a Single Transaction"

The Company has initially adopted the new amendment, which do not have a significant impact on its parent-company-only financial statements, from May 23, 2023:

• Amendments to IAS 12 "International Tax Reform—Pillar Two Model Rules"

(2) The impact of IFRS issued by the FSC but not yet effective

The Company assesses that the adoption of the following new amendments, effective for annual period beginning on January 1, 2024, would not have a significant impact on its parent-company-only financial statements:

- Amendments to IAS 1 "Classification of Liabilities as Current or Non-current"
- Amendments to IAS 1 "Non-current Liabilities with Covenants"
- Amendments to IAS 7 and IFRS 7 "Supplier Finance Arrangements"
- Amendments to IFRS 16 "Lease Liability in a Sale and Leaseback"
- (3) The impact of IFRSs issued by IASB but not yet endorsed by the FSC

The Company does not expect the following new and amended standards, which have yet to be endorsed by the FSC, to have a significant impact on its parent-company-only financial statements:

- Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture"
- IFRS 17 "Insurance Contracts" and amendments to IFRS 17 "Insurance Contracts"
- Amendments to IFRS 17 "Initial Application of IFRS 17 and IFRS 9 Comparative Information"
- Amendments to IAS 21 "Lack of Exchangeability"

### 4. Summary of material accounting policies

The significant accounting policies applied in the preparation of these parent-company-only financial statements are summarized as follows. Except for those described individually, the significant accounting policies have been applied consistently to all periods presented in these parent-company-only financial statements.

(1) Statement of compliance

The parent-company-only financial statements have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" (hereinafter referred to as the Regulations).

- (2) Basis of preparation
  - A. Basis of measurement

The parent-company-only financial statements have been prepared on a historical cost basis except for the following material items in the balance sheets:

- (a) Financial assets at fair value through profit or loss (FVTPL) are measured at fair value;
- (b) Financial assets at fair value through other comprehensive income (FVOCI) are measured at fair value; and,

- (c) The net defined benefit liabilities are measured as the fair value of the plan assets, less, the present value of the defined benefit obligation.
- B. Functional and presentation currency

The functional currency of the Company is determined based on the primary economic environment in which the entity operates. The parent-company-only financial statements are presented in New Taiwan Dollars (TWD), which is the Company's functional currency. Unless otherwise noted, all financial information presented in TWD has been rounded to the nearest thousand.

- (3) Foreign currency
  - A. Foreign currency transactions

Transactions in foreign currencies are translated into the functional currencies at the exchange rates at the dates of the transactions. At the end of each subsequent reporting period (hereinafter referred to as the reporting date), monetary items denominated in foreign currencies are retranslated into the functional currencies using the exchange rate at that date. Non-monetary items denominated in foreign currencies that are measured at fair value are translated into the functional currencies using the exchange rate at the fair value are translated into the functional currencies using the exchange rate at the fair value was determined. Non-monetary items denominated in foreign currencies that are measured based on historical cost are translated using the exchange rate at the date of transaction. Foreign currency differences arising from retranslation are recognized in profit or loss except for the differences in equity instruments at FVOCI, which are recognized in other comprehensive income.

B. Foreign operations

The assets and liabilities of foreign operations are translated to TWD using the exchange rates at the reporting date with the exception of shareholders' equity, which is translated at historical cost rates, and income and expenses, which are translated to TWD at the average rate for the period. Foreign currency differences are recognized in other comprehensive income.

(4) Classification of current and non-current assets and liabilities

The Company classifies an asset as current when any one of the following requirements is met. Assets that are not classified as current are non-current assets.

- A. It expects to realize the asset, or intends to sell or consume it, in its normal operating cycle;
- B. It holds the asset primarily for the purpose of trading;
- C. It expects to realize the asset within twelve months after the reporting period; or
- D. The asset is cash or cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

The Company classifies a liability as current when any one of the following requirements is met. Liabilities that are not classified as current are non-current liabilities.

- A. It expects to settle the liability in its normal operating cycle;
- B. It holds the liability primarily for the purpose of trading;
- C. The liability is due to be settled within twelve months after the reporting period; or
- D. It does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by issuing equity instruments do not affect its classification.
- (5) Cash and cash equivalents

Cash comprise cash, cash in bank and checking deposits. Cash equivalents are short-term and highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits which meet the above definition and held for the purpose of meeting short-term cash commitments rather than for investment or other purposes are classified as cash equivalents.

(6) Financial instruments

Accounts receivable are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument. A financial asset (unless it is an accounts receivable without a significant financing component) or financial liability is initially measured at fair value plus, transaction costs that are directly attributable to its acquisition or issue. Accounts receivable without a significant financing component are initially measured at the transaction price.

A. Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

On initial recognition, a financial asset is classified as measured at: amortized cost, FVOCI and FVTPL.

The Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

(a) Financial assets at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

• it is held within a business model whose objective is to hold assets to collect contractual cash flows; and

• its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at amortized cost, which is the amount at which the financial asset is measured at initial recognition, plus/minus, the cumulative amortization using the effective interest method, adjusted for any loss allowance. Interest income, foreign exchange gains and losses, as well as impairment, are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

(b) Financial assets at FVOCI

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an instrument-by-instrument basis.

A financial asset measured at FVOCI is initially recognized at fair value, plus any directly attributable transaction costs. These assets are subsequently measured at fair value. Whereas dividends derived from equity investments are recognized as income in profit or loss, unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses of financial assets measured at FVOCI are recognized in other comprehensive income. On derecognition, gains and losses accumulated in other comprehensive income of equity investments are reclassified to retain earnings instead of profit or loss.

Dividend income derived from equity investments is recognized on the date that the Company's right to receive payment is established, which in the case of quoted securities is normally the ex-dividend date.

(c) Financial assets measured at FVTPL

All financial assets not classified as amortized cost or FVOCI described as above are measured at FVTPL. On initial recognition, the Company may irrevocably designate a financial asset, which meets the requirements to be measured at amortized cost or at FVOCI, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.

(d) Impairment of financial assets

The Company recognizes loss allowances for expected credit loss (ECL) on financial assets measured at amortized cost (including cash and cash equivalents, receivables, other financial assets and refundable deposits).

The Company measures loss allowances at an amount equal to lifetime ECL, except for the following which are measured as 12-month ECL:

· debt securities that are determined to have low credit risk at the reporting date ; and

• other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowance for accounts receivable are always measured at an amount equal to lifetime ECL.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12-month after the reporting date (or a shorter period if the expected life of the instrument is less than 12-months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment as well as forward-looking information.

The Company considers a debt security to have low credit risk when its credit risk rating is equivalent to the globally understood definition of investment grade which is considered to be BBB- or higher per Standard & Poor's, Baa3 or higher per Moody's or twA or higher per Taiwan Ratings.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 90 days past due.

The Company considers a financial asset to be in default when the financial asset is more than 180 days past due and the borrower is unlikely to pay its credit obligations to the Company in full.

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls. The difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive. ECLs are discounted at the effective interest rate of the financial asset.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

The gross carrying amount of a financial asset is written off either partially or in full to the extent that there is no realistic prospect of recovery. The Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

(e) Derecognition of financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

- B. Financial liabilities and equity instruments
  - (a) Classification of debt or equity

Debt and equity instruments issued by the Company are classified as financial liabilities or equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

(b) Equity transaction

Equity instruments refer to surplus equities of the assets after the deduction of all the debts for any contracts. Equity instruments issued are recognized as the amount of consideration received less the direct cost of issuing.

(c) Compound financial instruments

Compound financial instruments issued by the Company comprise convertible bonds (denominated in New Taiwan Dollars) that can be converted to share capital at the option of the holder, where the number of shares to be issued is fixed.

The liability component of a compound financial instrument is recognized initially at the fair value of a similar liability that does not have an equity conversion option. The equity component is recognized initially at the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. Any directly attributable transaction costs are allocated to the liability and equity components in proportion to their initial carrying amounts.

Subsequent to initial recognition, the liability component of a compound financial instrument is measured at amortized cost using the effective interest method. The equity component of a compound financial instrument is not re-measured subsequent to initial recognition.

Interest related to the financial liability is recognized in profit or loss. On conversion, the financial liability is reclassified to equity, and no gain or loss is recognized.

(d) Financial liabilities

Financial liabilities not classified as held-for-trading, or designated as at FVTPL, which comprise loans and borrowings, accounts payable, and other payables, are measured at fair value plus any directly attributable transaction cost at the time of initial recognition. Subsequent to initial recognition, they are measured at amortized cost calculated using the effective interest method.

(e) Derecognition of financial liabilities

The Company derecognizes a financial liability when its contractual obligations has been discharged or cancelled, or has expired. The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount of a financial liability extinguished and the consideration paid is recognized in profit or loss.

(f) Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount presented in the statement of balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

(7) Inventories

Inventories are measured at the lower of cost or net realizable value. The cost of inventories is based on the standard cost method and includes expenditure and other costs incurred in bringing them to their existing location and condition. In the case of manufactured inventories and work in process, the cost includes an appropriate share of direct labors and production overheads based on normal operating capacity. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

(8) Investment in associates

Associates are those entities over which the Company has a significant influence and the authority to participate in the financial and operating policy decisions of the investees but not to the extent of controlling or joint controlling over those policies.

Investments in associates are accounted for using the equity method and are recognized initially at cost. The cost of the investment includes transaction costs. The carrying amount of the investment in associates includes goodwill arising from the acquisition less any accumulated impairment losses.

The parent-company-only financial statements include the Company's share of the profit or loss and other comprehensive income of equity-accounted investees, after adjustments to align their accounting policies with those of the Company, from the date that significant influence commences until the date that significant influence ceases.

Unrealized gains and losses resulting from transactions between the Company and an associate are recognized only to the extent of unrelated Company's interests in the associate. When the Company's share of losses of an associate equals or exceeds its interests in an associate, it discontinues recognizing its share of further losses. After the recognized interest is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Company has incurred legal or constructive obligations or made payments on behalf of the associate.

The Company discontinues the use of the equity method and measures the retained interest at fair value from the date when its investment ceases to be an associate. The difference between the fair value of retained interest and proceeds from disposing, and the carrying amount of the investment at the date the equity method was discontinued is recognized in profit or loss. The Group accounts for all the amounts previously recognized in other comprehensive income in relation to that investment on the same basis as would have been required if the associates had directly disposed of the related assets or liabilities. If a gain or loss previously recognized in other comprehensive income would be reclassified to profit or loss (or retained earnings) on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (or retained earnings) when the equity method is discontinued.

(9) Investment in subsidiaries

The Company's subsidiaries are accounted for using the equity method when preparing their parentcompany-only financial statements. Under the equity method, profit, other comprehensive income and equity in the parent-company-only financial statements are equivalent to those of the profit, other comprehensive income and equity which are contributed to the owners of the parent in the consolidated financial statements.

The changes in the parent's interest in its subsidiaries that do not result in a loss of control are accounted as equity transactions.

- (10) Property, plant and equipment
  - A. Recognition and measurement

Items of property, plant and equipment are measured at cost, less accumulated depreciation and any accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

B. Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

### C. Depreciation

Depreciation is calculated on the cost of an asset less its residual value and is recognized in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment. If the useful life of a component is different from that of other parts of the asset, the component depreciation should be provided separately.

If there is reasonably certainty that the lessee will obtain ownership by the end of the lease term, the period of expected use is the useful life of the asset.

The estimated useful lives for the current and comparative years of significant items of property, plant and equipment are as follows:

- (a) Buildings: 3 to 50 years
- (b) Machinery and equipment: 1 to 6 years
- (c) Research and development equipment: 5 to 6 years
- (d) Other equipment: 3 to 5 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

D. Reclassification to investment property

A property is reclassified to investment property at its carrying amount when the use of the property changes from owner-occupied to investment property.

(11) Investment property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services, or for administrative purposes. Investment property is measured at cost on initial recognition, and subsequently at cost, less accumulated depreciation and accumulated impairment losses. Depreciation expense is calculated based on the depreciation method, useful life, and residual value which are the same as those adopted for property, plant and equipment.

Any gain or loss on disposal of an investment property (calculated as the difference between the net proceeds from disposal and the carrying amount) is recognized in profit or loss.

Rental income from investment property is recognized as non-operating income on a straight line basis over the term of the lease.

### (12) Leases

A. Identifying a lease

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (a) the contract involves the use of an identified asset this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified; and
- (b) the Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- (c) the Company has the right to direct the use of an asset if either:
  - i. the Company has the right to the direct use of the identified asset when it has the decision-making rights that are most relevant to the changes on how and for what purpose the asset is used throughout the period.
  - ii. the decision on how, and for what purpose, the asset is used is predetermined,
    - (i) the Company has the right to operate the asset, without the supplier having the right to change those operating instructions; or
    - (ii) the Company designed the asset in a way that predetermines how, and for what purpose, it will be used.

At inception or on reassessment of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices. However, for the leases of land and buildings in which it is a lessee, the Company has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

B. As a lessee

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be reliably determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

(a) fixed payments (including in-substance fixed payments);

- (b) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- (c) amounts expected to be payable under a residual value guarantee; and
- (d) payments for purchase or termination options that are reasonably certain to be exercised.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when:

- (a) there is a change in future lease payments arising from the change in an index or rate; or
- (b) there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee; or
- (c) there is a change in the assessment regarding the purchase option; or
- (d) there is a change in the assessment on whether the Company will exercise an extension or a termination option; or
- (e) there is any lease modifications.

When the lease liability is remeasured, other than lease modification, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

When the lease liability is remeasured to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease, the Company accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize in profit or loss any gain or loss relating to the partial or full termination of the lease.

The Company has elected not to recognize the right-of-use assets and lease liabilities for its offices, which qualify as short-term leases, as well as its office spaces and other equipment, which qualify as short-term leases and low-value asset leases. The relevant lease payments and is recognized in expense on a straight-line basis during the lease period.

As a practical expedient, the Company elects not to assess whether all rent concessions that meets all the following conditions are lease modifications or not:

- (a) the rent concessions occurring as a direct consequence of the COVID-19 pandemic;
- (b) the change in lease payments that resulted in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- (c) any reduction in lease payments that affects only those payments originally due on, or before, June 30, 2022; and
- (d) there is no substantive change in other terms and conditions of the lease.

In accordance with the practical expedient, the effect of the change in the lease liability is reflected in profit or loss in the period in which the event or condition that triggers the rent concession occurs.

C. As a lessor

When the Company acts as a lessor, it determines at lease commencement whether each lease is a finance lease or an operating lease. To classify each lease, the Company makes an overall assessment of whether the lease transfers to the lessee substantially all of the risks and rewards of ownership incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then the lease is an operating lease. As part of this assessment, the Company considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

If an arrangement contains lease and non-lease components, the Company applies IFRS 15 to allocate the consideration in the contract.

- (13) Intangible assets
  - A. Research and development

Expenditure on research activities is recognized in profit or loss as incurred.

Development expenditure is capitalized only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and the Company intends to, and has sufficient resources to, complete development and to use or sell the asset. Otherwise, it is recognized in profit or loss as incurred. Subsequent to initial recognition, development expenditure is measured at cost, less accumulated amortization and any accumulated impairment losses.

Other intangible assets that are acquired by the Company and have finite useful lives are measured at cost less accumulated amortization and any accumulated impairment losses.

B. Subsequent expenditure

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. Other expenditure is recognized in profit or loss as incurred.

C. Amortization

Amortization is calculated over the cost of the asset, less its residual value, and is recognized in profit or loss on a straight-line basis over 1 to 5 years for intangible assets.

Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

### (14) Impairment of non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets (other than inventories and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit (CGU) is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount.

### (15) Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

A provision for warranties is recognized when the underlying products are sold. The provision is based on historical warranty data.

(16) Revenue from contract with customers

Revenue is measured based on the consideration to which the Company expects to be entitled in exchange for transferring goods or services to a customer. The Company recognizes revenue when it satisfies a performance obligation by transferring control of a good or a service to a customer. The accounting policies for the Company's main types of revenue are explained below:

A. Sale of goods

The Company recognizes revenue when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Company has objective evidence that all criteria for acceptance have been satisfied.

When the Company offers volume discounts to its customers, revenue from these sales is recognized based on the price specified in the contract, net of the estimated volume discounts. Accumulated experience is used to estimate the discounts, using the expected value method, and revenue is only recognized to the extent that it is highly probable that a significant reversal will not occur. A refunded liability is recognized for expected volume discounts payable to customers in relation to sales made. No element of financing is deemed present as the sales are made with a credit term, which is consistent with the market practice.

The Company reduces revenue by the amount of expected returns and recognizes a refund liability and a right to the returned goods. Accumulated experience is used to estimate such returns at the time of sale at a portfolio level (expected value method). Because the number of products returned has been steady for years, it is highly probable that a significant reversal in the cumulative revenue recognized will not occur. At each reporting date, the Company reassesses the estimated amount of expected returns.

The Company's obligation to provide a refund for faulty product under the standard warranty terms is recognized as a provision for warranty; please refer to note 6(11).

A receivable is recognized when the goods are delivered as this is the point in time that the Company has a right to an amount of consideration that is unconditional.

### B. Rendering of services

Some of the manufacturing and sales contracts of the Company include pre-production activities such as researching, developing, designing and testing of new products. Revenue from providing services is recognized in the accounting period in which the services are rendered. For fixed-price contracts, revenue is recognized based on the actual service provided to the reporting date as a proportion of the total services to be provided.

Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by management. In case of fixed-price contracts, the customer pays the fixed amount based on a payment schedule. If the services rendered by the Company exceed the payment, a contract asset is recognized. If the payments exceed the services rendered, a contract liability is recognized.

If the contract includes an hourly fee, revenue is recognized in the amount to which the Company has a right to invoice. Customers are invoiced on a monthly basis and a consideration is payable when invoiced.

C. Financing components

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Company does not adjust any of the transaction prices for the time value of money.

### (17) Government grants

Government grants are recognized as deferred income at fair value and then be recognized in profit on a straight-line basis if there is reasonable assurance that they will be received and the Company will comply with the conditions associated with the grant.

### (18) Employee benefits

A. Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided.

B. Defined benefit plans

The Company's net obligation in respect of defined benefit plans is calculated separately for each the plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income, and accumulated in retained earnings within equity. The Company determines the net interest expense on the net defined benefit liability for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability. Net interest expense and other expenses related to defined benefit plans are recognized in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit or loss. The Company recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

C. Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(19) Share-based payment transactions

The grant-date fair value of equity-settled share-based payment arrangements granted to employees is generally recognized as an expense, with a corresponding increase in equity, over the vesting period of the awards. The amount recognized as an expense is adjusted to reflect the number of awards for which the related service and non-market performance conditions are expected to be met, such that the amount ultimately recognized is based on the number of awards that meet the related service and non-market performance date.

For share-based payment awards with non-vesting conditions, the grant-date fair value of the sharebased payment is measured to reflect such conditions, and there is no true-up for differences between the expected and the actual outcomes.

(20) Income tax

Income taxes comprise current taxes and deferred taxes. Except for expenses related to business combinations or recognized directly in equity or other comprehensive income, all current and deferred taxes shall be recognized in profit or loss.

Current taxes comprise the expected tax payables or receivables on the taxable profits (losses) for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payables or receivables are the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred taxes arise due to temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases. Deferred taxes are recognized except for temporary differences related to investments in subsidiaries to the extent that the Company is able to control the timing of the reversal of the temporary differences, and it is probable that they will not reverse in the foreseeable future.

Deferred taxes are measured at tax rates that are expected to be applied to temporary differences when they reserve, using tax rates enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities may be offset against each other if the following criteria are met:

- A. The entity has the legal right to settle tax assets and liabilities on a net basis; and
- B. the taxing of deferred tax assets and liabilities fulfills one of the scenarios below:
  - (a) levied by the same taxing authority; or
  - (b) levied by different taxing authorities, but where each such authority intends to settle tax assets and liabilities (where such amounts are significant) on a net basis every year of the period of expected asset realization or debt liquidation, or where the timing of asset realization and debt liquidation is matched.

Deferred tax assets are recognized for the unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which the can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realized; such reductions are reversed when the probability of future taxable profits improves.

### (21) Earnings per share

The Company discloses the Company's basic and diluted earnings per share attributable to ordinary shareholders of the Company. The calculation of basic earnings per share is based on the profit attributable to the ordinary shareholders of the Company divided by the weighted-average number of ordinary shares outstanding. The calculation of diluted earnings per share is based on the profit attributable to ordinary shareholders of the Company, divided by the weighted-average number of ordinary shares outstanding after adjustment for the effects of all dilutive potential ordinary shares, such as convertible bonds payable, unvested restricted stock awards and employee remuneration through the issuance of shares.

### (22) Operating segment information

The Company has disclosed operating segment information in consolidated financial statements. Hence, this information is not required to be disclosed in these parent-company-only financial statements.

### 5. Material accounting assumptions and judgments, and major sources of estimation uncertainty

The preparation of the parent-company-only financial statements in conformity with the Regulations and requires management to make judgments, estimations, and assumptions that affect the application of the accounting policies and the reported amount of assets, liabilities, income, and expenses. Actual results may differ from these estimations.

Management continues to monitor the accounting estimations and assumptions. Management recognizes any changes in the accounting estimations during the period in which the estimates are revised and in any future periods affected.

### Valuation of inventories

Inventories are stated at the lower of cost or net realizable value, and the Company uses judgments and estimates to determine the net realizable value of inventory for obsolescence and unmarketable items at the reporting date. It also writes down the cost of inventories to net realizable value. The net realizable value of the inventory is mainly determined based on the assumptions of the estimated selling price of the products within a specific time horizon. However, due to the rapid industrial transformation, the above estimation may have a significant change. Please refer to note 6(3) for further description of the valuation of inventories.

The Company's accounting policies and disclosures include the fair value measurement for financial assets and liabilities. The Company determines the fair value using the independent data sources which reflect the current market condition and confirming the data available are independent, reliable, in consistent with other sources and represent the exercisable price. The Company also periodically assesses the evaluation model, performs retrospective tests, and updates inputs together with any other necessary fair value adjustment for the evaluation model in order to ensure the reasonableness of the results of the valuation.

The Company evaluates the assets and liabilities using the observable market inputs. The hierarchy of the fair value depends on the valuation techniques used and is categorized as follows:

Level 1: quoted prices (unadjusted) in active markets for identified assets or liabilities.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

For the assumption used in fair value measurement, please refer to note 6(23) of the financial instruments.

### 6. Explanation of significant accounts

(1) Cash and cash equivalents

|                                          | De | cember 31,<br>2023 | December 31,<br>2022 |  |
|------------------------------------------|----|--------------------|----------------------|--|

| Time deposits                            |    | 2,600,000          |                      |  |
|                                          | \$ | 5,701,002          | 2,346,498            |  |

Please refer to note 6(23) for the disclosure of foreign currency risk of the financial assets and liabilities.

### (2) Financial assets

A. Financial assets at fair value through other comprehensive income (FVOCI):

Equity instruments at FVOCI

|                         | Dece       | ember 31,<br>2023 | December 31,<br>2022 |
|-------------------------|------------|-------------------|----------------------|
| Current:                |            |                   |                      |
| Domestic listed stocks  | \$ <u></u> | 2,907,931         | 911,734              |
| Non-current:            |            |                   |                      |
| Foreign unlisted stocks | \$         | 56,724            | 89,179               |

These investments in equity instruments not held for trading, and therefore, are accounted for as FVOCI.

The Group sold its shares in NeWave Sensor Solutions, LLC at a fair value of \$50,494 in the third quarter of 2023, resulting in a gain of \$19,044 that was reclassified from other comprehensive income to retained earnings.

### B. Accounts receivable (including related parties), net:

|                                          | D         | ecember 31,<br>2023 | December 31,<br>2022 | January 1,<br>2022 |
|------------------------------------------|-----------|---------------------|----------------------|--------------------|
| Current:                                 |           |                     |                      |                    |
| Accounts receivable                      | \$        | 15,158,826          | 16,346,124           | 10,354,198         |
| Accounts receivable from related parties |           | 12,203,269          | 9,700,696            | 2,950,178          |
|                                          |           | 27,362,095          | 26,046,820           | 13,304,376         |
| Less: loss allowance                     |           | (316,292)           | (377,230)            | (87,908)           |
|                                          | <u>\$</u> | 27,045,803          | 25,669,590           | 13,216,468         |

The Company applies the simplified approach to provide for its loss allowance used for expected credit loss, which permit the use of lifetime expected loss provision for its receivables. To measure the expected credit loss, receivables have been grouped based on the shared credit risk characteristics and the days past due, as well as incorporated forward looking information, including macroeconomic and relevant industry information. The expected loss allowance determined as follows:

| December 31, 2023                             | Not<br>past due      | Past due<br>within 60<br>days | Past due<br>61 to 90<br>days | Past due<br>91 to 180<br>days | Past due<br>more than<br>181 days | Total      |
|-----------------------------------------------|----------------------|-------------------------------|------------------------------|-------------------------------|-----------------------------------|------------|

### (4) Investments accounted for using equity method

A summary of the Company's financial information for investments accounted for using the equity method at the reporting date was as follows:

|              | December 31,        | December 31, |
|--------------|---------------------|--------------|
|              | 2023                | 2022         |
| Subsidiaries | \$ <u>9,544,028</u> | 9,107,781    |

Share of profit of subsidiaries accounted for using equity method were as follows:

|     | For t | he years ended | December 31, |
|-----|-------|----------------|--------------|
|     |       | 2023           | 2022         |
| ies | \$    | 549,109        | 364,066      |

Please refer to consolidated financial statements for the year ended December 31, 2023, for the subsidiaries information.

In order to simplify the operating structure of the Group, NVNM merged with NVN, a fully-owned subsidiary of the Company, on April 15, 2022, wherein the NVNM became the sole existing company thereafter, based on the resolution approved during the Company's board meeting held on December 15, 2021.

In order to simplify the operating structure of the Group, WNCH reduced its share capital and retained earnings, with the total amount of \$97,461, being remitted to the Company in September 2023. In addition, NEWH implemented a capital reduction and return capital to the Company amounted to \$300,105 in January 2022.

NVNM conducted a cash capital increase amounting to USD25,000, of which, the relevant investment funds of USD 12,000 and USD 13,000 were remitted to NVNM in November 2023, and January 2024, respectively, based on a resolution approved during the Company's meeting held on November 2, 2022.

Investment property comprises buildings that are leased to third parties under operating leases, including properties that are held as right-of-use assets, as well as properties that are owned by the Company. The property is reclassified from property, plant and equipment to investment property based on its book value at the time of change of use. For related information (including rental income and direct operating expenses incurred), please refer to note 6(14).

The fair value measurement of investment property is calculated using the replacement cost method and income approach. The replacement cost method is measured by the construction costs for reconstructing the same building using the identical or similar building materials of the original building, less the accumulated depreciation of the building. Income approach determines the fair value of the investment property based on the aggregate of the expected future cash flows and the associated profit and period-end value for each period, adjusted by using the appropriate discount rates. The fair value measurement for the investment properties has been categorized as a Level 3 fair value based on the input to the valuation technique used.

Oth an

As of December 31, 2023, the Company investment properties were not pledged as collateral.

Please refer to note 6(23) for the disclosure of interest risk and liquidity risk.

C. Government low interest loans

As of December 31, 2023 and 2022, the accumulated amounts of preferential interest rate loans from the banks by the Company under the "Action Plan for Welcoming Overseas Taiwanese Businesses to Return to Invest in Taiwan" were \$3,652,700 and \$2,628,400, respectively. The difference between the recognized loan calculated using the market interest rate, and the actual repayment preferential interest rate measured in accordance with the government grants, had been recognized as deferred income. Please refer to note 6(10). If the Company fails to meet the conditions in the above project during the loan period, with the National Development Fund terminating the grants, the Company shall pay the original interest rate, plus the annual interest rate.

(10) Deferred income

| Equity element – conversion options (recorded in capital surplus – share options) | \$ <u></u> | 1,613              | 76,294               |
|                                                                                   | For        | the years end      | ed December 31,      |
|                                                                                   |            | 2023               | 2022                 |

The Company issued 28,000 shares of three-year unsecured convertible bonds with 0% interest rate in Taiwan on June 27, 2022, each with a face value of \$100,000 and an effective interest rate of 0.93% on the original debt component.

9,910

12,466

\$

The conversion price was \$74.5 per share at the time of issuance. The conversion price would be adjusted according to the formula stated in provisions of issuance if the conversion price of the Company's ordinary shares is adjusted in accordance with the terms of issuance. The convertible bond was issued without replace clause. As the distribution of cash dividends, the above conversion price was adjusted down to \$68.5 per share since July 18, 2023; and as the capital increase by cash, the above conversion price was adjusted down to \$67.2 per share since November 30, 2023.

From the day following the 3rd month after the issuance date (September 28, 2022) to the 40th day before the maturity date (May 18, 2025), if the outstanding balance of the convertible bonds is less than 10% of the total face value of the bonds, the Company may redeem the outstanding bonds within 5 business days after the call date of the bonds by cash at the face value of the bonds.

Except for the conversion of the convertible bonds into the Company's ordinary shares by the holders of the bond, or the early redemption of the bonds by the Company in accordance with this regulation, or the cancellation of the bonds by the Company through purchase from the securities company, the Company will repay 100% of the face value of the bonds in cash at maturity.

### (13) Lease liabilities

The carrying amounts of lease liabilities were as follows:

|             | December 31,<br>2023 | December 31,<br>2022 |
|-------------|----------------------|----------------------|
| Current     | \$36,994             | 33,024               |
| Non-current | \$                   | 1,551,552            |

For the maturity analysis, please refer to note 6(23).

The amounts recognized in profit or loss were as follows:

|                                                                                                  | For the years ended December 31 |        |        |
|--------------------------------------------------------------------------------------------------|---------------------------------|--------|--------|
|                                                                                                  |                                 | 2023   | 2022   |
| Interest on lease liabilities                                                                    | <u>\$</u>                       | 17,097 | 17,264 |
| Expenses relating to short-term leases                                                           | \$                              | 39,453 | 34,354 |
| Expenses relating to leases of low-value assets, excluding short-term leases of low-value assets | \$                              | 3,124  | 2,197  |

The amounts recognized in the statement of cash flows for the Company were as follows:

|                              | For the years ended December 31, |        |        |
|------------------------------|----------------------------------|--------|--------|
|                              | 20                               | )23    | 2022   |
| Total cash outflow for lease | \$                               | 96,282 | 86,972 |

A. Real estate leases

The Company leases land and buildings for its office spaces and staff dormitory. The leases of land typically run for a period for 20 years, and the office spaces and staff dormitory for 3 to 5 years. Some leases include an option to renew the lease for an additional period of the same duration after the end of the contract term.

The Company sub-leases some of its right-of-use assets under operating leases. Please refer to note 6(14).

Some leases of land and office spaces contain extension options exercisable. These leases are negotiated and monitored by local management, and accordingly, contain a wide range of different terms and conditions. The extension options held are exercisable only by the Company and not by the lessors. In which lessee is not reasonably certain to use an optional extended lease term, payments associated with the optional period are not included within lease liabilities.

The lease payment of the land contract depends on the assessed present value setting by the local district, and the additional construction cost incurred once a year of the public facilities is settled after amortization Management adjustment. This fee usually occurs once a year.

B. Other leases

The Company leases other equipment, with lease terms of 3 to 4 years. In some cases, the Company has options to purchase the assets at the end of the contract term.

In addition, the Company has elected not to recognize the right-of-use assets and lease liabilities for its office spaces and other equipment, which qualifies as short-term leases and low-value asset leases.

(14) Operating lease

The investment property leased out by the Company has been classified as operating leases, because it does not transfer substantially all of the risks and rewards incidental to the ownership of the assets. Please refer to note 6(7) that sets out information about the operating leases of investment property.

A maturity analysis of lease payments, showing the undiscounted lease payments to be received after the reporting date, are as follows:

|                                   | Dec | ember 31,<br>2023 |
|-----------------------------------|-----|-------------------|
| Less than one year                | \$  | 107,070           |
| One to two years                  |     | 4,461             |
| Total undiscounted lease payments | \$  | 111,531           |

In 2023, the rental income, and the direct expenses (including repairs and maintenance), generated from investment property amounted to \$53,535 and \$626 respectively.

### (15) Employee benefits

### A. Defined benefit plans

The present value of the defined benefit obligation and the fair value adjustments of the plan assets for the Company were as follows:

|                                                 | Dee | cember 31,<br>2023 | December 31,<br>2022 |
|-------------------------------------------------|-----|--------------------|----------------------|
| Present value of the defined benefit obligation | \$  | 338,914            | 330,697              |
| Fair value of plan assets                       |     | (209,202)          | (205,973)            |
| Net defined benefit liabilities                 | \$  | 129,712            | 124,724              |

The Company makes defined benefit plan contributions to the pension fund account at Bank of Taiwan that provides pensions for employees upon retirement. The plans (covered by the Labor Standards Law) entitle a retired employee to receive an annual payment based on years of service and average salary for the six months prior to retirement.

(a) Composition of plan assets

The Company allocates pension funds in accordance with the Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund, and such funds are managed by the Bureau of Labor Funds, Ministry of Labor (hereinafter referred to as the Bureau of Labor Funds). Minimum earnings shall be no less than the earnings attainable from two-year time deposits with interest rates offered by local banks.

The Company's Bank of Taiwan labor pension reserve account balance amounted to \$209,202 as of December 31, 2023. For information on the utilization of the labor pension fund assets including the asset allocation and yield rate of the fund, please refer to the website of the Bureau of Labor Funds.

### (b) Movements in the present value of the defined benefit obligation

The movements in the present value of the defined benefit obligation of the Company for the years ended December 31, 2023 and 2022 were as follows:

|                                                                                             | For the years ended December 31, |         |          |

(e) Remeasurements of the net defined benefit liabilities recognized in other comprehensive income

The Company's remeasurements of the net defined benefit liabilities recognized as accumulated in other comprehensive income for the years ended December 31, 2023 and 2022 were as follows:

|                                     | For the years ended December 31, |           |           |  |
|-------------------------------------|----------------------------------|-----------|-----------|--|
|                                     |                                  | 2023      | 2022      |  |
| Cumulative amount as of January 1   | \$                               | (215,415) | (257,986) |  |
| Recognized for the period           |                                  | (8,909)   | 42,571    |  |
| Cumulative amount as of December 31 | \$                               | (224,324) | (215,415) |  |

### (f) Actuarial assumptions

The following are the Company's significant actuarial assumptions of the present value of the defined benefit obligation at the reporting date:

|                             | December 31, 2023 | December 31, 2022 |
|-----------------------------|-------------------|-------------------|
| Discount rate               | 1.625 %           | 1.750 %           |
| Future salary increase rate | 5.000 %           | 5.000 %           |

The Company expects to make a contribution of \$7,309 to its defined benefit plans in the following year, beginning December 31, 2023.

The weighted-average duration of the defined benefit obligation is 13.18 years.

(g) Sensitivity analysis

If there is a change in the actuarial assumptions as of the December 31, 2023 and 2022 the impact on the defined benefit obligation would be as follows:

|                             | Impact on the defined benefit<br>obligation |           |                |
|-----------------------------|---------------------------------------------|-----------|----------------|
|                             | Incre                                       | ase 0.25% | Decrease 0.25% |
| December 31, 2023           |                                             |           |                |
| Discount rate               | \$                                          | (8,937)   | 9,272          |
| Future salary increase rate |                                             | 8,801     | (8,526)        |
| December 31, 2022           |                                             |           |                |
| Discount rate               | \$                                          | (9,285)   | 9,666          |
| Future salary increase rate |                                             | 9,190     | (8,885)        |

Reasonably possible changes to one of the relevant actuarial assumptions on the reporting date, holding other assumptions remain constant, would have affected the defined benefit obligation by the amounts shown above. In practical, the relevant actuarial assumptions are correlated to each other.

The approach used in recognizing the net defined liability in the balance sheets is the same as the one used in developing the sensitivity analysis and the relevant actuarial assumptions in the current and previous years.

### B. Defined contribution plans

In accordance with the provisions of the Labor Pension Act, the Company should contribute 6% of its employees' monthly wages to their labor pension personal accounts of the Bureau of Labor Insurance, Ministry of Labor (hereinafter referred to as the Bureau of Labor Insurance). Under this defined contribution plan, the Company contributes a fixed amount to the Bureau of Labor Insurance without additional legal or constructive obligations.

The Company's pension costs under the defined contribution plan were \$252,411 and \$221,996 for the years ended December 31, 2023 and 2022, respectively.

### (16) Income tax

A. Income tax expense:

The amounts of income tax expense (benefit) for the years ended December 31, 2023 and 2022, were as follows:

|                                                   | For the years ended December 31 |           |           |
|---------------------------------------------------|---------------------------------|-----------|-----------|
|                                                   |                                 | 2023      | 2022      |
| Current income tax expense (benefit)              |                                 |           |           |
| Current period                                    | \$                              | 1,128,121 | 786,384   |
| Adjustment for prior period                       |                                 | (39,739)  | (138,909) |
|                                                   |                                 | 1,088,382 | 647,475   |
| Deferred income tax benefit                       |                                 |           |           |
| Origination and reversal of temporary differences |                                 | (225,136) | (143,408) |
| Income tax expense                                | <u>\$</u>                       | 863,246   | 504,067   |

B. The amounts of income tax expense (benefit) recognized in other comprehensive income for the years ended December 31, 2023 and 2022, were as follows:

|                                                                                        | For t      | the years ended | December 31, |
|----------------------------------------------------------------------------------------|------------|-----------------|--------------|
|                                                                                        |            | 2023            | 2022         |
| Items that will not be reclassified subsequently to profit or loss:                    |            |                 |              |
| Remeasurements of the defined benefit plans                                            | \$         | (1,782)         | 8,515        |
| Unrealized gains or losses from investments in equity<br>instruments measured at FVOCI |            | 3,608           | (3,660)      |
|                                                                                        | <u>\$</u>  | 1,826           | 4,855        |
| Items that may be reclassified subsequently to profit or loss:                         |            |                 |              |
| Exchange differences on translation of foreign financial statements                    | \$ <u></u> | (35,037)        | 59,636       |

The reconciliation of income tax expense and income before income tax for the years ended December 31, 2023 and 2022 was as follows:

|                                               | For the years ended December 3 |           |           |
|-----------------------------------------------|--------------------------------|-----------|-----------|
|                                               |                                | 2023      | 2022      |
| Income before income tax                      | \$                             | 4,666,076 | 3,625,787 |
| Income tax at the Company's domestic tax rate | \$                             | 933,215   | 725,157   |
| Non-deductible expenses and others            |                                | 92,962    | 36,831    |
| Tax-exempt income                             |                                | (60,000)  | (60,000)  |
| Surtax on unappropriated retained earnings    |                                | (63,192)  | (59,012)  |
| Over-and-under provision in prior periods     |                                | (39,739)  | (138,909) |
| Total                                         | \$                             | 863,246   | 504,067   |

### C. Deferred tax assets and liabilities

(a) Unrecognized deferred tax liabilities

As of December 31, 2023 and 2022, the temporary differences associated with investments in subsidiaries were not recognized as deferred income tax liabilities as the Company has the ability to control the reversal of these temporary differences which are not expected to reverse in the foreseeable future.

|                                                                                     | De | cember 31,<br>2023 | December 31,<br>2022 |
|-------------------------------------------------------------------------------------|----|--------------------|----------------------|
| The temporary differences associated with investments in subsidiaries (tax amount): |    |                    |                      |
| Unrecognized deferred tax liabilities                                               | \$ | (851,270)          | (788,078)            |

### (b) Recognized deferred tax assets and liabilities

- D. The Company's tax returns have been examined by the tax authorities through 2020.
- (17) Capital and other equity interest
  - A. Issuance and cancellation of ordinary shares

As of December 31, 2023 and 2022, the authorized capital of the Company amounted to \$8,000,000, both of which included the amount of \$250,000 reserved for employee share options; the issued capital amounted to \$4,824,441 and \$3,958,091, respectively.

For the year ended December 31, 2020, the Company redeemed the restricted stocks awarded to its employees due to failure in meeting their performance indicators. As of December 31, 2023, the Company redeemed and cancelled 223 thousand shares of restricted stock awarded to its employees, wherein the registration procedures have been completed during the same period. Moreover, as of December 31, 2022, the Company redeemed and cancelled 763 thousand and 750 thousand shares of restricted stock, respectively, awarded to its employees, wherein the registration procedures of the cancelled shares have been completed as of December 31, 2023, except for the remaining 13 thousand shares, which have yet to be completed, and the amount has been recorded as share capital awaiting retirement. In addition, the Company issued 9,982 thousand shares of restricted stock awarded to its employees for the year ended December 31, 2023.

For the year ended December 31, 2023, the Company issued 30,048 thousand shares at face value due to the exercise of the right to convert corporate bonds; except for the 2,132 thousand shares, which have been recorded as capital collected in advance, the relevant registration procedures for the remaining 27,916 thousand shares have been completed during the same period. For the year ended December 31, 2022, the Company issued 8,974 thousand shares at face value due to the exercise of the right to convert corporate bonds, wherein the relevant registration procedures have yet to be and have been completed as of December 31, 2022 and 2023, respectively, resulting in the amount to be reclassified from capital collected in advance to ordinary share capital.

The Company conducted a cash capital increase by issuing 40,000 thousand shares, at a face value and an issuance price of \$10 and \$106 per share, respectively, amounting to \$4,235,000 thousand (after deducting the total issuance cost), with the base date set on November 30, 2023, based on a resolution approved by the Board of Directors on May 10, 2023 and FSC (with Ruling No. 1120356180) on September 28, 2023. All registration procedures have been completed as of the reporting date. In addition with the regulations, the Company recognizes the cash capital increase as a remuneration cost of \$87,500 thousand for the retained shares subscribed by the employees.

### B. Capital surplus

The Company's capital surplus was as follows:

|                                     | December 31,<br>2023 | December 31,<br>2022 |
|-------------------------------------|----------------------|----------------------|
| Capital surplus – premium           | \$ 6,857,95          | 1 2,837,961          |
| Convertible bonds payable – premium | 3,740,04             | 0 1,898,203          |
| Treasury stock sold to employees    | 100,45               | 4 100,454            |
| Due to donated assets received      | 15                   | 0 128                |
| Capital surplus from merger         | 36,65                | 3 36,653             |
| Conversion options of bonds         | 76,17                | 3 150,854            |
| Restricted stock awards             | 1,088,10             | 1 105,133            |
| Employee share options              | 5,57                 | 5                    |
|                                     | \$ <u>11,905,09</u>  | 7 5,129,386          |

In accordance with the R.O.C. Company Act, the capital surplus generated from the premium of stock issuance and donation may only be used to offset accumulated deficits. In addition, when the Company incurred no deficit, such capital surplus may be distributed as cash or stock dividends. Pursuant to the R.O.C. Regulations Governing the Offering and Issuance of Securities Issuers, the total sum of the capital surplus capitalized per annum shall not exceed 10% of the paid-in capital.

### C. Retained earnings

(a) Legal reserve

If the Company incurs no loss, the reserve may be distributed as cash or stock dividends for the portion in excess of 25% of the paid-in capital.

### (b) Special reserve

By choosing to apply exemptions granted under IFRS 1 during the Company's first-time adoption of the IFRSs endorsed by the FSC, cumulative translation adjustments under shareholders' equity shall be reclassified as retained earnings at the adoption date. The increase in retained earnings occurring before the adoption date due to the first-time adoption of the IFRSs endorsed by the FSC amounted to \$136,043. In accordance with Ruling No. 1010012865 issued by the FSC on April 6, 2012, a net increase in retained earnings due to the first-time adoption of the IFRSs endorsed by the FSC on April 6, 2012, a net increase in retained earnings due to the first-time adoption of the IFRSs endorsed by the FSC shall be reclassified as a special reserve during earnings distribution, and when the relevant asset is used, disposed of, or reclassified, this special reserve shall be reversed as distributable earnings proportionately. The carrying amounts of special reserve amounted to \$108,123 as of December 31, 2023 and 2022.

In accordance with the guidelines of the above Ruling, a portion of current-period earnings and undistributed prior-period earnings shall be reclassified as a special reserve during earnings distribution. The amounts to be reclassified should be equal to the difference between the total net current-period reduction of special reserve resulting from the first time adoption of the IFRSs endorsed by the FSC and the carrying amounts of other shareholders' equity as stated above. Similarly, a portion of undistributed prior-period earnings distribution) to account for cumulative changes to other shareholders' equity pertaining to prior periods due to the first-time adoption of the IFRSs endorsed by the FSC. Amounts of subsequent reversals pertaining to the net reduction of other shareholders' equity shall qualify for additional distributions. Pursuant to the shareholders' meeting held on June 7, 2023 and June 10, 2022, respectively, the Company appropriated (reversed) its of shareholders' equity amounting to \$(197,092) and \$82,620, respectively, as special reserve.

(c) Earnings distribution

According to the Company's Articles of Incorporation, if the Company shows a year-end earnings, it shall first pay miscellaneous taxes and make up any accumulated losses. Thereafter, a 10% appropriation of the remaining amount shall be set aside for legal reserve, unless the amount in the legal reserve is already equal to or greater than the total paid-in capital. Thereafter, an amount shall be set aside or reversed as a special reserve in accordance with related laws, regulations, or provisions of the competent authorities. Distribution of the remaining profit after setting aside the abovementioned amounts, together with the balance of the unappropriated retained earnings of the previous year, with no less than 10% as dividends to shareholders, shall be proposed by the Board of Directors to be approved at the shareholders' meeting.

The following are the appropriations of earnings in 2022 and 2021 which were approved during the shareholders' meeting held on June 7, 2023 and June 10, 2022, respectively:

|                                                 | 2022                      |                 | 202                       | 1               |
|-------------------------------------------------|---------------------------|-----------------|---------------------------|-----------------|
|                                                 | Amount per<br>share (TWD) | Total<br>amount | Amount per<br>share (TWD) | Total<br>amount |
| Dividends distributed to ordinary shareholders: |                           |                 |                           |                 |
| Legal reserve                                   | \$                        | 315,577         |                           | 118,287         |
| Special reserve                                 |                           | (197,092)       |                           | 82,620          |
| Cash dividends                                  | 4.8414                    | 2,024,042       | 2.1001                    | 832,551         |
|                                                 | \$                        | 2,142,527       |                           | 1,033,458       |

The appropriation of retained earnings is consistent with the resolutions approved by the Board of Directors. The related information is available on the Market Observation Post System website.

The appropriation of earnings in 2023 proposed by the Board of Directors on March 6, 2024, is to be presented for approval in annual shareholders' meeting. The related information will be available on the Market Observation Post System website after the resolution meeting.

- (18) Share-based payment
  - A. Information about the Company's equity-settled share-based payment transactions for the years ended December 31, 2023 and 2022, was as follows:

|                                  | Restricted st    | ock awards     | Cash capital<br>increase reserved<br>for employee<br>subscription |

Note: Employees are entitled to receive restricted stock in the first, second and third year (from the grant date) of their service. The restricted stock awards will be granted only if the overall performance target and the personal performance target are reached.

### B. Restricted stock awards

Pursuant to the resolutions made during the shareholders' meeting hold on June 5, 2019, the Company issued the restricted stock awards to those full-time employees who conformed to the Company's requirements. These restricted stock awards have been registered and approved by the Securities and Futures Bureau of the FSC. On May 11, 2020, the Board of Directors approved a resolution to issue 7,400 thousand shares of restricted stock awards to its employees, with the effective date of the capital increase set on August 3, 2020. The related registrations of the increase of share capital have already been completed.

Pursuant to the resolutions made during the shareholders' meeting hold on June 7, 2023, the Company issued the restricted stock awards to those full-time employees who conformed to the Company's requirements. These restricted stock awards have been registered and approved by the Securities and Futures Bureau of the FSC. On November 1, 2023, the Board of Directors approved a resolution to issue 9,982 thousand shares of restricted stock awards to its employees, with the effective date of the capital increase set on December 5, 2023. The related registrations of the increase of share capital have already been completed. Unless the vesting conditions have been met, the restricted stock awards may not be sold, pledged, transferred, hypothecated or otherwise disposed of. Holders of restricted stock awards are entitled to the same rights as the Company's existing ordinary shareholders, except for those restricted stock awards are held in trust and have vesting conditions. Also, the Company has the right to take back all unvested shares without compensation and to cancel all restricted stock awards issued to employees who fail to comply with the vesting condition.

For the years ended December 31, 2022, 763 thousand shares of the restricted stock awards issued to employees on August 3, 2020 have expired, and therefore, were cancelled, resulting in the amount of \$7,626 to be recognized as the capital surplus.

For the years ended December 31, 2023, 223 thousand shares of the restricted stock awards issued to employees on August 3, 2020 have expired, and therefore, were cancelled, resulting in the amount of \$2,233 to be recognized as the capital surplus. As the vesting period ended in 2023, the Company decided to retrieve its restricted stock awards for its employees who failed to meet certain requirements, as well as its cash dividends of \$674, which was generated from the above-mentioned restricted stock awards and was recognized as retained earnings.

As of December 31, 2023 and 2022, the Company has deferred the compensation cost arising from the issuance of restricted stock awards amounting to \$1,157,813 and \$75,328, respectively. Such deferred amounts were recorded as deduction of other equity.

C. The Company used Black-Scholes method in measuring the fair value of the share-based payment at the grant date. The measurement inputs were as follows:

|                             | 2023                                                     |
|-----------------------------|----------------------------------------------------------|
|                             | Cash capital increase reserved for employee subscription |
| Fair value at grant date    | 17.5                                                     |
| Share price at grant date   | 123.5                                                    |
| Exercise price              | 106                                                      |
| Expected volatility (%)     | 35.01                                                    |
| Expected life (days)        | 23                                                       |
| Expected dividend           | 4                                                        |
| Risk-free interest rate (%) | 1.017                                                    |

The Company conducted a cash capital increase by issuing 40,000 thousand shares, with the approval of the Board of Directors on May 10, 2023. Moreover, 12.5% of the above new shares to be issued, which consisted of 5,000 thousand shares, will be preferentially subscribed by the employees of the Company in accordance with the Article 267 of the Company Act. If the employees waived the amount of shares subscription or undersubscribed, the Chairman of the Board will be authorized to negotiate with specific persons to subscribe for the remaining shares. In accordance with the provisions of IFRS2 "Share Based Payment", the Company shall measure the fair value of the equity commodities granted on the date of payment at \$17.5 per share, amounting to \$87,500 thousand, to be recognized as a remuneration cost at the grant date.

B. Contract balances

|                              | December 31, |         | December 31, | January 1, |  |
|------------------------------|--------------|---------|--------------|------------|--|
|                              | 2023         |         | 2022         | 2022       |  |
| Contract liabilities-current | \$           | 874,784 | 844,742      | 593,991    |  |

For details on notes and accounts receivable and loss allowance, please refer to note 6(2).

The change in the balance of contract liabilities is the difference between the time frame in the performance obligation to be satisfied and the payment to be received.

The amounts of revenue recognized for the years ended December 31, 2023 and 2022 that were included in the contract liability balance at the beginning of the period were \$668,549 and \$465,290, respectively.

(21) Remuneration to employees and directors

The Company's Articles of Incorporation require that profits (income before tax, excluding remuneration to employees and directors) shall first be used to offset against any deficit, and the remainder, if any, should be distributed as follows:

- A. No less than 5%, by shares or in cash, as employee remuneration; employees of controlled companies who meet specific requirements set by the Board of Directors can also be included.
- B. No more than 1% as director's remuneration in cash to directors.

The remunerations to employees amounted to \$583,259 and \$453,224, as well as the remunerations to directors amounted to \$53,024 and \$41,202 for the years ended December 31, 2023 and 2022, respectively. These amounts were calculated using the Company's net income before tax without the remunerations to employees and directors for each period, multiplied by the percentage which is stated under the Company's Article of Incorporation. These remunerations were expensed under operating costs or expenses for each period. If there are any subsequent adjustments to the actual remuneration amounts after the Board of Directors, the adjustment will be regarded as changes in accounting estimates and will be reflected in profit or loss in the following year. There were no differences between the aforesaid amounts of employees' and directors' remuneration approved by the Board of Directors and the amounts in the parent-company-only financial statements of 2023 and 2022. Shares distributed to employees as employees' remuneration are calculated based on the closing price of the Company's shares on the day before the approval by the Board of Directors.

For the year ended December 31, 2022, the remunerations to employees and directors amounted to \$453,224 and \$41,202, respectively, which were both paid in cash. The appropriation of remunerations is consistent with the resolutions approved by the Board of Directors. The related information is available on the Market Observation Post System website.

- (22) Non-operating income and expenses
  - A. Interest income

|                                    | \$                             | 338,351 | 185,247 |

### (23) Financial instruments

- A. Credit risk
  - (a) Credit risk exposure

The carrying amounts of financial assets represents the maximum amount exposed to credit risk.

(b) Credit risk concentration

The major customers of the Company are centralized in the network communications industry. To minimize credit risk, the Company continuously evaluates the customer's financial positions, purchases a trade credit insurance and asks the counterpart to provide the guarantee or assurance, if necessary. Besides, the Company monitors and reviews the recoverable amount of the trade receivables periodically to ensure the uncollectible amount are recognized appropriately as impairment loss. As of December 31, 2023 and 2022, 54.99% and 38.24%, respectively, of trade receivables (including related parties) were concentrated on five major customers. Thus, credit risk is significantly centralized.

(c) Credit risk of receivables

For credit risk exposure of receivables, please refer to note 6(2). No loss allowances were recognized under other financial assets at amortized cost.

B. Liquidity risk

The followings are the contractual maturities of financial liabilities, including estimated interest payments but excluding the impact of netting agreements, except for notes and accounts payable (including related parties), salary and bonus payable and other accrued expenses:

|                                                                                                                | Carrying<br>amount  | Contractual cash flows | Within 1<br>year | 1~5 years                         | More than<br>5 years |

### (b) Sensitivity analysis

The Company's exposure to foreign currency risk arises from the translation of the foreign currency exchange gains and losses on cash and cash equivalents, receivables, short-term loans, notes and accounts payable (including related parties), and other accrued expenses that are denominated in foreign currency.

A fluctuation in the TWD/USD exchange rate on December 31, 2023 and 2022, with other factors remaining constant, would have influenced the comprehensive income for the years ended December 31, 2023 and 2022 as illustrated below:

|                   | <b>Range of the</b>                      | For the years end  | ed December 31, |
|-------------------|------------------------------------------|--------------------|-----------------|
|                   | fluctuations                             | 2023               | 2022            |
| TWD exchange rate | Depreciation of TWD 1<br>against the USD | \$ <u>152,563</u>  | 133,509         |
|                   | Appreciation of TWD 1<br>against the USD | \$ <u>(152,563</u> | ) (133,509)     |

(c) Foreign exchange gains or losses on monetary items

Information on the foreign exchange gains or losses, including these realized and unrealized by significant foreign currency, were as follows:

|     | Fo                           | r the years ende | d December 31                | ,               |
|-----|------------------------------|------------------|------------------------------|-----------------|
|     | 202                          | 23               | 202                          | 22              |
|     | Foreign<br>exchange<br>gains | Average<br>rate  | Foreign<br>exchange<br>gains | Average<br>rate |
| TWD | \$ <u>154,703</u>            | 31.16            | 421,003                      | 29.81           |

### D. Interest rate analysis

The Company's interest rate exposure regarding its financial assets and liabilities has been disclosed in the note of financial risk management.

The following sensitivity analysis is based on the exposure to interest rate risk of the derivative and non-derivative instruments on the reporting date. For variable-rate instruments, the sensitivity analysis assumes the variable-rate liabilities are outstanding for the whole year on the reporting date. The exposure to changes in interest rates (assuming all other variables are constant) would have influenced the comprehensive income for the years ended December 31, 2023 and 2022, as illustrated below:

|                      | Range of the   | For the year | s ended December 31,           |
|----------------------|----------------|--------------|--------------------------------|
|                      | fluctuations   | 2023         | 2022                           |
| Annual interest rate | Increase of 1% | \$(26        | <u>,795</u> ) <u>(42,968</u> ) |
|                      | Decrease of 1% | \$6          | 42,968                         |

### E. Other market price risk

If the price of equity securities in the reporting date rises or falls by 1%, and the other variables remain constant, the annual other comprehensive income would have increase or decrease by \$29,533 and \$9,831 for the years ended December 31, 2023 and 2022, respectively.

- F. Fair value of financial instruments
  - (a) Categories of financial instruments and fair value

The fair value of financial assets at FVOCI is measured on a recurring basis. The Company's carrying amount and the fair value of financial assets and liabilities (including information for fair value hierarchy, but excluding financial instruments whose fair values approximate the carrying amounts, and lease liabilities, since the disclosures of fair value are not required), were as follows:

|                                                        | December 31, 2023 |           |           |            |         |           |  |
|--------------------------------------------------------|-------------------|-----------|-----------|------------|---------|-----------|--|
|                                                        |                   | Carrying  |           | Fair value |         |           |  |
|                                                        |                   | amount    | Level 1   | Level 2    | Level 3 | Total     |  |

| Domestic listed stocks                                 | \$ 911,734          | 911,734   | -          | -       | 911,734   |  |  |
| Foreign unlisted stocks                                | 89,179              |           |            | 89,179  | 89,179    |  |  |
|                                                        | \$ <u>1,000,913</u> | 911,734   |            | 89,179  | 1,000,913 |  |  |
| Financial liabilities<br>measured at amortized<br>cost |                     |           |            |         |           |  |  |
| Bonds payable                                          | \$ <u>2,102,597</u> | 2,401,744 |            |         | 2,401,744 |  |  |

(b) Valuation techniques for financial instruments not measured at fair value

The Company estimates its financial instruments not measured at fair value using the following methods and assumptions:

Fair value measurement for financial assets and financial liabilities measured at amortized cost will be based on the latest quoted price and agreed-upon price if these prices are available in active markets. When market value is unavailable, the fair value of financial assets and financial liabilities is evaluated based on the discounted cash flow of the financial assets and financial liabilities.

(c) Valuation techniques for financial instruments that are measured at fair value

The Company held its financial instruments presented as domestic listed stocks and bonds payable, which are measured at fair value according to standard provisions and conditions; the fair value is measured using the quoted prices in an active market.

Except for the above financial instruments with an active market, the Company estimated the fair value of the remaining financial instruments by using the valuation techniques or quoted price from a competitor. The valuation technique is used to arrive at their fair value, for which the market transaction prices of the similar companies and market conditions are considered.

- (d) Transfer between level 1 and level 2: None.
- (e) Reconciliation of level 3 fair values:

|                                                                 | at l<br>inv<br>wi | ncial assets<br>FVOCI—<br>equity<br>/estments<br>thout an<br>ve market |

The total gains and losses mentioned above were recognized in "Unrealized gains or losses from investments in equity instruments measured FVOCI".

(f) Quantified information on significant unobservable inputs (Level 3) used in fair value measurement

The Company's financial instruments that use Level 3 inputs to measure fair value include financial assets at FVOCI - equity investments.

The Company classified the equity investments without an active market as recurring level 3 fair values in the fair value hierarchy due to the use of significant unobservable inputs. The significant unobservable inputs of the equity investments without an active market are independent, therefore, there is no correlation between them.

Quantified information of significant unobservable inputs was as follows:

| Item                                                                              | Valuation<br>technique | Significant unobservable<br>inputs                                                                                                                                                                                                                                                                                                                  | Inter-relationship<br>between significant<br>unobservable inputs<br>and fair value<br>measurement                                                                                                                                                                                      |

### (24) Financial risk management

A. Overview

The Company is exposed to the following risks due to usage of financial instruments:

- (a) Credit risk
- (b) Liquidity risk
- (c) Market risk

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk. Further quantitative disclosures are included throughout these parent-company-only financial statements.

B. Objectives and policies for managing risk

Other than derivative financial instruments, the main financial instruments of the Company are cash and cash equivalents that are used to maintain a balance between continuity of funding and flexibility. The other financial assets and liabilities held by the Company, include accounts receivable and payable, which are generated from operating activities.

In accordance with a reviewed policy, the Company will not engage in derivative financial instruments for the purpose of speculation.

C. Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's cash and cash equivalents, receivables, beneficiary certificates – mutual funds, and investments.

The Company deposits its cash and cash equivalents in various creditworthy financial institutions. Beneficiary certificates that were issued by various creditworthy entities and financial institutions. As a result, the Company believes that there is no concentration of credit risk in cash and cash equivalents and beneficiary certificates.

The Company continuously evaluates the credit policy, which includes insurance limits and credit ratings of its customers. The Company performs a periodic evaluation on its uncollected accounts receivable. Before delivery it also needs to assess the creditworthy of the customers. To reduce credit risk the Company evaluates the collectability of accounts receivable and provides adequate reserves for bad debts, if necessary.

The Company hedges the risk through financial instruments, and primarily uses selected financial instruments and specific banks. For foreign exchange instruments, the Company mainly uses spot and forward exchange contracts, and if necessary, it uses other derivative financial instruments approved by the Board of Directors.

The Company's policy is to provide financial guarantees only to wholly owned subsidiaries. For related information about endorsement guarantee, please refer to notes 7 and 13.

D. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. There is no liquidity risk of being unable to raise capital to settle contract obligations since the Company have sufficient capital and working capital to fulfill the contract obligations.

E. Market risk

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate because of changes in market prices. Market risk comprises foreign currency risk, interest rates risk, and other price risk (such as risk related to equity instruments).

(a) Interest rate risk

Interest rate risk is the risk that the fair value of a financial instrument will fluctuate due to changes in market interest rates. The Company's exposures to risk from changes in interest rate arise primarily from the Company's bank loans with variable interest rates.

(b) Foreign currency risk

Foreign currency risk is the risk that fluctuations in foreign currency exchange rates will adversely affect the future cash flow and fair value of financial instruments. The Company's exposure to the risk of changes in foreign currency exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a currency different from the Company's functional currency) and the Company's net investments in foreign subsidiaries.

To achieve foreign currency risk management, the Company hedges its forecast sales and purchases over the following three months. The Company also hedges certain trades without considering limits of time.

When the nature of a hedge is not an economic one, the period of the derivatives should correspond to the period of the hedged items according to the Company's policies to maximize hedge effectiveness.

The Company holds net foreign currency borrowings to hedge the fluctuation risk arises from the translation of USD, EUR and GBP due to foreign currency transactions.

(c) Other market price risks

The Company manages equity investments, both singly and as a whole, by diversification of investments and sets a limitation on the amount of equity securities. Information on equity securities transactions within the portfolio has to be provided to the top management of the Company regularly, and all great buy and sell decisions should be reviewed and approved by the Board of Directors.

(25) Capital management

The primary objective of the Company's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios to support its business and maximize owner value.

The Company is in a technology and capital-intensive industry, and to fit in with its long-term scheme for stable and long-term growth, it is critical for the Company to undertake a conservative dividend policy. According to the Company's articles of incorporation, cash dividends should not be less than 10% of the sum of cash dividends and stock dividends.

There were no changes in the Company's approach to capital management during the year ended December 31, 2023.

The Company's debt-to-capital ratio at the reporting date was as follows:

|                                 | December 31,<br>2023 |             | December 31,<br>2022 |  |
|---------------------------------|----------------------|-------------|----------------------|--|
| Total liabilities               | \$                   | 36,574,137  | 41,023,823           |  |
| Less: cash and cash equivalents |                      | (5,701,002) | (2,346,498)          |  |
| Net debt                        | <u>\$</u>            | 30,873,135  | 38,677,325           |  |
| Total equity                    | \$                   | 30,491,552  | 20,356,191           |  |
| Debt-to-capital ratio           | _                    | 101.25%     | 190.00%              |  |

The decrease in debt-to-capital ratio on December 31, 2023 due to the new issue of common shares and the conversion of convertible bonds to ordinary shares, resulting in increase in the Company's equity.

(26) Financing activities of non-cash transactions

The Company's investing and financing activities which did not affect the current cash flow in the years ended December 31, 2023 and 2022, were as follows:

- A. For right-of-use assets under leases, please refer to note 6(6).
- B. For conversion of convertible bonds to ordinary shares, please refer to note 6(17).

C. Reconciliation of liabilities arising from financing activities were as follows:

|                                                                               |    | January 1,<br>2023 | Cash flow   | Non-cash<br>changes<br>Other<br>changes | December 31,<br>2023 |

The information of the Company's salaries and remunerations policy (including director, executive officers and employees) is as follow:

The Company's remuneration for directors is determined with reference to the company's overall operating performance, potential management risks and development trends of the industry, and reasonable compensation is paid on the basis of directors' participation in and contribution to the company's operations. The relevant performance appraisals and remuneration rationale have been reviewed by the Remuneration Committee and the Board of Directors, and the remuneration scheme will be reviewed depending on the actual operating conditions and relevant laws in order to maintain a balance between the company's sustainable operation and risk management.

The Company's remuneration for executive officers includes regular payments such as salaries, fixed bonuses, and other welfare and variable items such as performance-related bonuses, employees' profitsharing bonuses (in cash and/or stock), stocks (RSA/treasury stocks), and stock options. Regular payments are determined based on the average levels within the industry to maintain the Company's competitiveness. Payment of variable items is determined based on the Company's profit performance and the performance of each employee. A higher ratio of variable items to annual remuneration indicates a better performance of the Company and each employee. Performance evaluations are conducted based on the achievement rate of annual operation goals, profit rate, growth rate, operation benefits, and future potential. The evaluation standards, goals, and weighting are specified at the beginning of each year based on the internal and external operating environment. Issuance of variable items shall be determined according to evaluation results and the current remuneration status of related industries and shall be assessed and approved by the Remuneration Committee before requesting the Board's approval before issuing the variable items.

### 13. Other disclosures:

(1) Information on significant transactions:

The following is the information on significant transactions required by the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" for the Company:

- A. Financings provided: None.
- B. Endorsement/guarantee provided: Please refer to Table 1.
- C. Marketable securities held (excluding investment in subsidiaries, associates and joint ventures): Please refer to Table 2.
- D. Marketable securities acquired and disposed of at costs or prices of at least NT\$300 million or 20% of the paid-in capital: Please refer to Table 3.
- E. Acquisition of individual real estate properties at costs of at least NT\$300 million or 20% of the paid-in capital: Please refer to Table 4.
- F. Disposal of individual real estate properties at prices of at least NT\$300 million or 20% of the paid-in capital: None.
- G. Total purchases from or sales to related parties of at least NT\$100 million or 20% of the paidin capital: Please refer to Table 5.

- H. Receivables from related parties amounting to at least NT\$100 million or 20% of the paid-in capital: Please refer to Table 6.
- I. Information about the derivative financial instruments transaction: None.
- (2) Information on investees (excluding Information on Investees in Mainland China): Please refer to Table 7.
- (3) Information on investment in Mainland China:
  - A. The names of investees in Mainland China, the main businesses and products, and other information: Please refer to Table 8(1).
  - B. Limitation on investment in Mainland China: Please refer to Table 8(2).
  - C. Significant transactions:

The significant intercompany transactions with the subsidiary in Mainland China, which were disclosed in the "Information on significant transactions".

Note 1: The relation between guarantor and guarantee and their endorsement should be disclosed as one of the following:

 An entity that is with business relationship.
 Subsidiary which owned more than 50 percent by the guarantor.
 An investee owned more than 50 percent in total by both the guarantor and its subsidiary.
 An investee owned more than 90 percent by the guarantor or its subsidiary.
 Fulfillment of contractual obligations by providing mutual endorsements and guarantor for peer or joint builders in order to undertake a construction project.
 An entity that is guaranteed and endorsed by all capital contributing shareholders in proportion to their shareholding percentages.
 The companies in the same industry provide among themselves joint and several securities for a performance guarantee of a sales contract for per-construction homes pursuant to the Consumer Protection Act for each other.

Note 2: The total amount of the endorsement/guarantee provided by the Company for any single who has, directly or indirectly, 100% voting shares of the Company shall not exceed 30% of the Company's net worth.

Note 3: The total amount of the endorsement/guarantee provided by the Company shall not exceed the financial statements of the Company's net worth.
